Design Ethnography Sarah Pink,Vaike Fors,Debora

Lanzeni,Melisa Duque,Shanti Sumartojo,Yolande Strengers,2022-06-30

This book advances the practice and theory of design ethnography. It presents a methodologically adventurous and conceptually robust approach to interventional and ethical research design, practice and engagement. The authors, specialising in design ethnography across the fields of anthropology, sociology, human geography, pedagogy and design research, draw on their extensive international experience of collaborating with engineers, designers, creative practitioners and specialists from other fields. They call for, and demonstrate the benefits of, ethnographic and conceptual attention to design as part of our personal and public everyday lives, society, institutions and activism. Design Ethnography is essential reading for researchers, scholars and students seeking to reshape the way we research, live and design ethically and responsibly into yet unknown futures.

Imagining Personal Data Vaike Fors,Sarah Pink,Martin Berg,Tom

O'Dell,2020-05-04 Digital self-tracking devices and data have become normal elements of everyday life. Imagining Personal Data examines the implications of the rise of body monitoring and digital self-tracking for how we inhabit, experience and imagine our everyday worlds and futures. Through a focus on how it feels to live in environments where data is emergent, present and characterized by a sense of uncertainty, the authors argue for a new interdisciplinary approach to understanding the implications of self-tracking, which attends to its past, present and possible future. Building on social science approaches, the book accounts for the concerns of scholars working in design, philosophy and human-computer interaction. It problematizes the body and senses in relation to data and tracking devices, presents an

accessible analytical account of the sensory and affective experiences of self-tracking, and questions the status of big data. In doing so it proposes an agenda for future research and design that puts people at its centre.

NIV, Streams in the Desert Bible L. B. E. Cowman, 2013-03-05 Are you in a desert experience? Let your thirsty soul be restored and refreshed through the daily devotions in the NIV Streams in the Desert Bible. At some point in our lives, we encounter the trials and deep mysteries of the Christian faith. And when we do become like a thirsty traveler, what we most desire is for hope, comfort, and encouragement to burst forth like a sparkling, clear river. The hopeful daily readings in this Bible promise to revive and refresh you—one of today's generation of faithful sojourners—by providing daily devotions in modern, easy-to-understand language that beautifully captures the timeless essence of the original. These devotionals are presented alongside Scripture using the popular New International Version of

the Bible. While the devotions in this Bible were originally written by L. B. Cowman—a pioneer missionary in Japan and China from 1901 to 1917—this devotional Bible has been edited by James Reimann. It maintains the beauty of the original Cowman writings while making the devotionals more accessible for the readers of today. The Inclusive Bible Priests for Equality (Organization), 2009 While this new Bible is certainly an inclusive-language translation, it is much more: it is a re-imagining of the scriptures and our relationship to them. Not merely replacing male pronouns, the

translators have rethought what kind of language has built barriers between the text and its readers. Seeking to be faithful to the original languages, they have sought new and non-sexist ways to express the same ancient truths. The Inclusive Bible is a fresh, dynamic translation into modern English, carefully crafted to let the power and poetry of the language shine forth--particularly when read aloud--giving it an immediacy and intimacy rarely found in traditional translations of the Bible. The Inclusive Bible contains both the Old and the New Testaments.
