The Music Sound Nicolae Sfetcu, 2014-05-07 A guide for music: compositions, events, forms, genres, groups, history, industry, instruments, language, live music, musicians, songs, musicology, techniques, terminology, theory, music video. Music is a human activity which involves structured and audible sounds, which is used for artistic or aesthetic, entertainment, or ceremonial purposes. The traditional or classical European aspects of music often listed are those elements given primacy in European-influenced classical music: melody, harmony, rhythm, tone color/timbre, and form. A more comprehensive list is given by stating the aspects of sound: pitch, timbre, loudness, and duration. Common terms used to discuss particular pieces include melody, which is a succession of notes heard as some sort of unit; chord, which is a simultaneity of notes heard as some sort of unit; chord progression, which is a succession of chords (simultaneity succession); harmony, which is the relationship between two or more pitches; counterpoint, which is the simultaneity and organization of different melodies; and rhythm, which is the organization of the durational aspects of music.

*Swing, Sing and All That Jazz* Henry Holloway, 2015-02-10 Apart from being one of just two non-Americans in history to be honoured with America's prestigious Golden Bandstand Award, South African broadcaster, Henry Holloway's remarkable impact on American light music during his 40 years on the air, internationally, is told in this book, in words and pictures. Holloway's dozens of long-running radio series on American music legends are jewels, in addition to his regular series, *Swing, Sing and All That Jazz*, the title of which clearly depicts Henry's penchant for that genre. His relentless pursuit to perpetuate the best from the Golden Age has prompted remarkable responses from music legends like Artie Shaw, Buddy DeFranco, Sammy Cahn, Professor Paul Tanner, Neal Hefti, Steve Allen, Bob Crosby, Les Brown, Milt Bernhart and Ray Evans, to mention but a few of many. His Golden Bandstand Award, invitations from the National Academy of Recording Arts and Sciences, the Society Of Singers, the Glenn Miller Birthplace Society, setting world records with his 60 hours radio series on Les Brown in 2001 and his 115 programmes on Glenn Miller in 2004/06, lectures on luxury cruise liners, broadcasting on the BBC, being interviewed on television and by the press in the USA; these and many other highlights are encapsulated on a first-hand basis in this remarkable autobiography by a unique South African.

**Passport to Web Radio** David Walcutt, 1998 Includes a list of the hundreds of stations that may be heard and what they have to offer.

*Computational Intelligence and Mathematics for Tackling Complex Problems 4* María Eugenia Cornejo, István Á. Harmati, László T. Kóczy, Jesús Medina-Moreno, 2022-09-20 The recent book of the series continues the collection of articles dealing with the important and efficient combination of traditional and novel mathematical approaches with various computational intelligence techniques, with a stress of fuzzy systems, and fuzzy logic. Complex systems are theoretically intractable, as the need of time and space resources (e.g., computer capacity) exceed any implementable extent. How is it possible that in the practice, such problems are usually manageable with an acceptable quality by human experts? They apply expert domain knowledge and various methods of approximate modeling and corresponding algorithms. Computational intelligence is the mathematical tool box that collects techniques which are able to model such human interaction, while (new) mathematical approaches are developed and used everywhere where the complexity of the sub-task allows it. The innovative approaches in this book give answer to many questions on how to solve “unsolvable” problems.

**The Dark Age of Music** Greg Henry Waters, A BOOK BY GREG HENRY WATERS THE DEATH OF A MUSICIAN “A Composer of Art Music and the Dark Age of Music” by Greg Henry Waters Mark Twain, said, to do something that no one else did is the real joy of life. This is what I am trying to do. We have to create a real culture not let the McDonald culture take over. I like gentleness in music. We need gentleness in the world not force. God is gentle. If music be the voice of God it should be gentle. This book is dedicated to al the people whom have participated in my life! Special Thanks to Steve Devitt and Kirsten Borg for thinking the book is important! Also to my two most important teachers, Bianca Rogge and Alfred

*Experiencing Jazz* Michael Stephens,2013-10-17 In *Experiencing Jazz: A Listener's Companion*, writer, teacher, and renowned jazz drummer Michael Stephens offers a much-needed survey in the art of listening to and enjoying this dynamic, ever-changing art form. More than mere entertainment, jazz provides a pleasurable and sometimes dizzying listening experience with an extensive range in structure and form, from the syncopated swing of big bands to the musical experimentalism of small combos. As Stephens illustrates, listeners and jazz artists often experience the essence of the music together—an experience unique in the world of music. *Experiencing Jazz* demonstrates how the act of listening to jazz takes place on a deeply personal level and takes readers on a whirlwind tour of the genre, instrument by instrument—offering not only brief portraits of key musicians like Joe Lovano and John Scofield, but also their own commentaries on how best to experience the music they create. Throughout, jazz takes center stage as a personal transaction that enriches the lives of both musician and listener. Written for anyone curious about the genre, this book encourages further reading, listening, and viewing, helping potential listeners cultivate an understanding and appreciation of the jazz art and how it can help—in drummer Art Blakey's words—“wash away the dust of everyday life.”

**Women in Jazz: The Women, The Legends & Their Fight** Sammy Stein,2019-09-26 This book is about women in jazz. It charts their journeys, celebrates their presence, hears their voices, wonders at their prowess and revels in their being. We hear from female agents, arrangers, composers, musicians, PR people, radio hosts, record label managers, singers, writers and more. These are their stories; their views of jazz and how they see the future. The established performers share their years of experience whilst those newer to jazz reflect on observations and changes they have seen. Containing interviews and first-hand accounts, this book is witness to the generosity, profundity and positivity with which women have responded and the energy they have put into their lives in overcoming challenges.

*Skills for the Poetic Language of Jazz Improvisation* Mark Sherman,2015-04-12 Jazz is a musical language whose mastery is a life-long pursuit of both the truth of the music and the career that enables that journey. *Skills for the Poetic Language of Jazz Improvisation* is perhaps the first music education book of its kind that holistically mentors the aspiring artist in both the musical and the professional aspects of a career that seeks out that truth and brings that artist's voicing of the poetic language of jazz to the public. One of the premiere Jazz performers and music educators of our time, vibraphonist Mark Sherman has transformed his decades of that personal pursuit, and lectures to his students at the Juilliard School, to a book that brings wisdom, perspective and balance to that elusive search for an ideal of musical expression in Jazz improvisation. **American Babel** Clifford J. Doerksen,2011-06-07 When American radio broadcasting began in the early 1920s there was a consensus among middle-class opinion makers that the airwaves must never be used for advertising. Even the national advertising industry agreed that the miraculous new medium was destined for higher cultural purposes. And yet, within a decade American broadcasting had become commercialized and has remained

so ever since. Much recent scholarship treats this unsought commercialization as a coup, imposed from above by mercenary corporations indifferent to higher public ideals. Such research has focused primarily on metropolitan stations operated by the likes of AT&T, Westinghouse, and General Electric. In *American Babel*, Clifford J. Doerksen provides a colorful alternative social history centered on an overlooked class of pioneer broadcaster—the independent radio stations. Doerksen reveals that these little stations often commanded large and loyal working-class audiences who did not share the middle-class aversion to broadcast advertising. In urban settings, the independent stations broadcast jazz and burlesque entertainment and plugged popular songs for Tin Pan Alley publishers. In the countryside, independent stations known as farmer stations broadcast hillbilly music and old-time religion. All were unabashed in their promotional practices and paved the way toward commercialization with their innovations in programming, on-air style, advertising methods, and direct appeal to target audiences. Corporate broadcasters, who aspired to cultural gentility, were initially hostile to the populist style of the independents but ultimately followed suit in the 1930s. Drawing on a rich array of archives and contemporary print sources, each chapter of *American Babel* looks at a particular station and the personalities behind the microphone. Doerksen presents this group of independents as an intensely colorful, perpetually interesting lot and weaves their stories into an expansive social and cultural narrative to explain more fully the rise of the commercial network system of the 1930s.

**Jazz Sells: Music, Marketing, and Meaning** Mark Laver, 2015-02-11 Jazz Sells: Music, Marketing, and Meaning examines the issues of jazz, consumption, and capitalism through advertising. On television, on the Internet, in radio, and in print, advertising is a critically important medium for the mass dissemination of music and musical meaning. This book is a study of the use of the jazz genre as a musical signifier in promotional efforts, exploring how the relationship between brand, jazz music, and jazz discourses come together to create meaning for the product and the consumer. At the same time, it examines how jazz offers an invaluable lens through which to examine the complex and often contradictory culture of consumption upon which capitalism is predicated.

Johnson, 2021-07-29 This volume explores the notion of “affective media” within and across different arts in Japan, with a primary focus on music, whether as standalone product or connected to other genres such as theatre and photography. The volume explores the Japanese reception of this “affective media”, its transformation and subsequent cultural flow. Moving from a discussion of early encounters with the West through Jesuits and others, the contributors primarily consider the role of music in the nineteenth, twentieth, and twenty-first centuries. With ten original chapters, the volume covers a wealth of themes, from education, koto music, guitar making, avant-garde recorder works, musicals and rock photography, to interviews with contemporary performers in jazz, modern rock and J-pop. Innovative and fascinating, the book provides rich new insights and material to all those interested in Japanese musical culture.
