Syria from Reform to Revolt Raymond Hinnebusch, Tina Zintl, 2015-01-02 When Bashar al-Asad smoothly assumed power in July 2000, just seven days after the death of his father, observers were divided on what this would mean for the country's foreign and domestic politics. On the one hand, it seemed everything would stay the same: an Asad on top of a political system controlled by secret services and Baathist one-party rule. On the other hand, it looked like everything would be different: a young president with exposure to Western education who, in his inaugural speech, emphasized his determination to modernize Syria. This volume explores the ways in which Asad's domestic and foreign policy strategies during his first decade in power safeguarded his rule and adapted Syria to the age of globalization. The volume's contributors examine multiple aspects of Asad's rule in the 2000s, from power consolidation within the party and control of the opposition to economic reform, co-opting new private charities, and coping with Iraqi refugees. The Syrian regime temporarily succeeded in reproducing its power and legitimacy, in reconstructing its social base, and in managing regional and international challenges. At the same time, contributors clearly detail the shortcomings, inconsistencies, and risks these policies entailed, illustrating why Syria's tenuous stability came to an abrupt end during the Arab Spring of 2011. This volume presents the work of an international group of scholars from a variety of disciplinary backgrounds. Based on extensive fieldwork and on intimate knowledge of a country whose dynamics often seem complicated and obscure to outside observers, these scholars' insightful snapshots of Bashar al-Asad's decade of authoritarian upgrading provide an indispensable resource for understanding the current crisis and its disastrous consequences.

Artist and author Sue Williamson explores five decades of South African art, from early political art in the 1960s (during the apartheid years) to the thought-provoking works that grabbed the international art market's interest a generation later. Featuring the work of 90 artists and more than 500 color images, and with an insightful foreword from Nobel laureate Nadine Gordimer, *South African Art Now* is a valuable resource for collectors, curators, and contemporary art enthusiasts.

Jump Up! Ray Allen,2019 Jump Up! Caribbean Carnival Music in New York City is the first comprehensive history of Trinidadian calypso and steelband music in the diaspora. Carnival, transplanted from Trinidad to Harlem in the 1930s and to Brooklyn in the late 1960s, provides the cultural context for the study. Blending oral history, archival research, and ethnography, Jump Up! examines how members of New York's diverse Anglophile-Caribbean communities forged transnational identities through the self-conscious embrace and transformation of select Carnival music styles and performances. The work fills a significant void in our understanding of how Caribbean Carnival music--specifically calypso, soca (soul/calypso), and steelband--evolved in the second half of the twentieth century as it flowed between its Island homeland and its burgeoning New York migrant community. Jump Up! addresses the issues of music, migration, and identity head on, exploring the complex cycling of musical practices and the back-and-forth movement of singers, musicians, arrangers, producers, and cultural entrepreneurs between New York's diasporic communities and the Caribbean.
