Once Upon Tomorrow Shurick Agapitov, 2024-03-05 Shurick Agapitov's *Once Upon Tomorrow* unpacks the sometimes vague concept of the metaverse and shares the opportunities that are and will be available within this new world. Thirty years ago, the advent of the internet changed the world. For the first time in human history, the collected knowledge of all mankind was freely available to every man, woman, and child on the planet with the click of a few buttons. Fifteen years ago, the world changed again with the widespread availability and adoption of smartphones that put the full power of the internet in the palm of our hands whenever we want and wherever we are. As monumental as these advancements were, they were just the warmup for the change that's coming next. In just a few years, we won't think of "going on the internet" to look up information and find entertainment. Instead, we'll already be in the internet, living, working, and playing in an endless virtual world that will turn everything we think we know about the internet on its head. Welcome to the Metaverse. In *Once Upon Tomorrow*, visionary tech CEO Shurick Agapitov dives deep into this new age of the internet by unpacking exactly what the Metaverse is and what it will become. It's not about pixels and computer chips; it's a total paradigm shift that will revolutionize how people interact, share stories, create and implement ideas, conduct business, and literally live their lives. The Metaverse will be the biggest change any of us have ever seen.

Fortunately, Shurick Agapitov is here to take you by the hand and welcome you into this wild, wonderful new universe of opportunity.

The Girl With Two Names Gerard O'Neill, 2015-06-19 Be careful what you wish for! For fans of slow building, character driven, intense and compelling psychological thrillers. A self-obsessed Japanese icon appears to have a perfect life. Fame, fortune, and a celebrity marriage... but all is not as it seems. Yayoi wears her glamor like a mask. There are dark corners of her life she wants to hide from her many fans. An abusive husband, an oppressive recording contract with J-BIG Corp, a company controlled by her husband's family that is

crushing her creativity. Then there are all her memories of a life swept away by a tsunami. While in New Zealand to film a music video, she is surprised by her estranged husband Nori, who without warning appears at her hotel and assaults her. On the run from both Nori and J-BIG, she meets Bill, a young corporate attorney recently made redundant, who plans to revisit his past in the hope he can heal old wounds and reshape his future. Although from two very different worlds, they find themselves falling for each other, both unaware of the extreme measures Nori will take to get Yayoi to return to Japan with him. The Girl With Two Names is set in urban Japan and the raw backwoods of New Zealand. NB : the book, as stated above, is a psychological thriller. You are being purposefully placed in the head of a heroine with strong personality flaws that do have severe outcomes for those who allow her into their lives. This is an important aspect of the story. _____ Four out of four stars! - Official Review, Online Book Club
