**Remote Viewing Secrets** Joseph McMoneagle,2023-12-02 Remote viewing is not simply using psychic ability to obtain information. It is using scientific protocol to develop and extend that ability, so that ordinary people can learn to do what psychics do. This book teaches you how to teach yourself. Joseph McMoneagle learned remote viewing in the U.S. Army--he was Remote Viewer #001 in the Army's Stargate program--and was awarded the

Legion of Merit for his contribution to various intelligence operations. In *Remote Viewing Secrets*, the author of *Mind Trek* and *The Ultimate Time Machine* uses examples, exercises, and anecdotes to share what he learned and how he learned it, and gives you everything you need to begin developing your own abilities. *Remote Viewing Secrets* is easily the most complete, authentic, and informative guide to remote viewing published to date.

**Engaging Design** Emy Nelson Decker, Seth M. Porter, 2018-10-12 This book demonstrates how aesthetics, design elements, and visual literacy can be implemented in the library to enhance spaces, programs, services, instruction, and outreach so that your library will appeal to all users. Libraries have come to accept that they must rethink how they appeal to users, and harnessing the power of design can be a powerful means for addressing the changing needs of the community. Decker and Porter introduce engaging design—an umbrella term that incorporates multiple design frameworks with a focus on a three-prong approach: aesthetics, design thinking, and service design. These frameworks can be used to guide design choices that will aid in teaching and engaging current and potential library users. In the course of a lively and interesting narrative, *Engaging Design* introduces basic concepts of aesthetics and good design and explores examples of its successful uses in the academic, public, and special library. It provides simple steps for implementing subtle, but powerful, techniques to improve instruction, human-computer interaction, e-learning, public services spaces, wayfinding signage, and all manner of library programs, events, and services. In addition, the authors recommend easy-to-implement best practices that will help librarians to enhance library-goers' experience. Library administrators will also look to this book for assistance in best addressing the needs of the modern library user.

**On the Viewing Platform** Katie Trumpener, Tim Barringer, 2020-11-17 A wide-ranging study of the painted panorama's influence on art, photography, and film This ambitious volume presents a multifaceted account of the legacy of the circular painted panorama and its far-reaching influence on art, photography, film, and architecture. From its 18th-century origins, the panorama quickly became a global mass-cultural phenomenon, often linked to an imperial worldview. Yet it also transformed modes of viewing and exerted a lasting, visible impact on filmmaking techniques, museum displays, and contemporary installation art. *On the Viewing Platform* offers close readings of works ranging from proto-panoramic Renaissance cityscapes and 19th-century paintings and photographs to experimental films and a wide array of contemporary art. Extensively researched and spectacularly illustrated, this volume proposes an expansive new framework for understanding the histories of art, film, and spectatorship.

Money, Power, Dominance Steven Kuhn, 2022-11-30 From the telegram to Instagram, western culture has undergone drastic changes in the way individuals communicate with one another. Steven Kuhn details how these changes have progressed and the consequences these innovations have had on our culture. Hugh Hefner and Gianni Versace have proven themselves to be influential titans in utilising mass media. They have changed the western concept of femininity by building on the print media created by Hollywood and moulding the 'super model'. Hefner would go on to pioneer reality television in a way which continues to influence twenty-first-century programming and vanity-driven social media platforms. Long after Hollywood in the 1920s and the rise of the internet from the cold war, social media was born, exacerbating the culture of sexualisation and dominance competition which had always existed offline. From Piczo to Tik Tok, Steven Kuhn shows where our electronic culture is heading in the future.
