The Most Fabulous Jewels in the World Meredith Etherington-Smith, 2007 This privately commissioned book celebrates the life and achievements of Laurence Graff whose passion for diamonds has been inspiring him to create the most fabulous jewels in the world for 30 years.

Jewelry International Caroline Childers, 2008 For the first time ever, the world's most famous jewelers come together, presenting their most luscious pieces for your delectation. Jewelry International, the only book of its kind, features the world's most exquisite jewels and the companies that craft them. Two introductory chapters explore in depth the myths, legends, mystery, and history of two of the most perfect gems on earth: diamonds and pearls. The most fabulous names in the world of haute jewelry, such as Boucheron, Bulgari, Chanel, and Mauboussin, each have their own chapters, focusing on the history and significant pieces of each house. Special interviews focusing on the black diamonds of de Grisogono, the happy diamonds of Chopard, and the extraordinary diamonds of Leviev accompany the editorial chapters. Gorgeous photographs of stunning haute jewelry pieces and an in-

depth text make this book a must-have for anyone in love with jewelry.

Alchemy Temple St. Clair, 2008-10-14 An exquisite look into the art of fine jewelry making, through the eyes of famed designer Temple St. Clair A Southern girl with a nomadic spirit and a voracious appetite for history and culture, Temple St. Clair grew up spending summer vacations in Morocco and Bavaria, studied at an international boarding school in Switzerland, and went night diving in Honduras with the son of Jacques Cousteau. In her early twenties, St. Clair landed in Florence, where she completed a master's in Italian literature. In fact, she had no exposure to jewelry making until her visiting mother bought an ancient coin and asked St. Clair to commission a local goldsmith to make a piece of jewelry around it. Armed with the coin and a sketch, St. Clair entered the ancient Palazzo dell'Orafo of Florentine goldsmiths, where she first discovered the centuries-old art of fine Italian jewelry making. Inspired by the distinctive craftsmanship, St. Clair continued to work with artisans to bring her designs to life. A new world soon began to open up to her—a world that engaged her multicultural education, vast experiences, and rich curiosity; a world that awarded her with a new

identity as an amateur anthropologist, a hopeless hunter and gatherer, a bit of a wanderer, and a self-made jewelry historian who loves to dream and draw. With an artist's eye for detail and an unwavering esteem for the historic, St. Clair creates one-of-a-kind pieces that combine ancient influences with traditional craftsmanship and contemporary flair. In *Alchemy*, she takes readers on an idiosyncratic excursion into the intricate history and craft of jewelry making—from the ancient origins of talismans and charms, to the complicated pursuit of the perfect gemstone—all through the lens of her own fascinating experiences. The result is a mesmerizing and visually stunning book that will appeal to jewelry lovers, artistic dreamers, and anyone who suffers from wanderlust.

Floral Jewels Carol Woolton,2014-11-12 From the vaults of the world's most esteemed jewelers, this lavishly illustrated treasury features gem-laden blooms that will never fade away. Throughout history, flowers have been the inspiration for jewelers and the people who wore their creations. Gabrielle Chanel's favorite flower was the camellia and since the 1920s the flower has become

incorporated into every aspect of the house's designs. Christian Dior favored the lily of the valley and made it the center of his 1954 collection. This gorgeous volume highlights hundreds of examples of the finest floral jewelry ever made. Divided into four seasons—and the flowers that bloom in them—this book explores the history of flowers in the fine jewelry world and features dazzling illustrations, original sketches and gouache paintings showing how these blooms have been translated into pieces that are both priceless and ageless. The jewelry editor of British Vogue, Carol Woolton, offers expert insight into fashion history and trends. She explores the Belle Époque, styles of the 1940s, and the re-interpretations of iconic pieces. From original bejeweled botanical pieces by master jewelers such as Rene Lalique and Peter Carl Faberge, to the splendor of Cartier 's orchids and fanciful imaginative flowers by contemporary designers such as Victoire de Castellane. Joel Arthur Rosenthal, acknowledged as the world's greatest jeweler, has contributed a foreword and images for the book. These fanciful ornaments will entice collectors and dreamers alike.

The World of Jewel Stones Michael Weinstein, 1967

Jewels of Time Roberta Naas,2011 Focuses on the most beautiful time-keeping machines made for woman. The watches have been inspired by art, architecture and fashion, bejewelled with rare and precious stones and crafted to perfection.

Stoned Aja Raden,2016-11-29 As entertaining as it is incisive, *Stoned* is a raucous journey through the history of human desire for what is rare, and therefore precious. What makes a stone a jewel? What makes a jewel priceless? And why do we covet beautiful things? In this brilliant account of how eight jewels shaped the course of history, jeweler and scientist Aja Raden tells an original and often startling story about our unshakeable addiction to beauty and the darker side of human desire. What moves the world is what moves each of us: desire. Jewelry—which has long served as a stand-in for wealth and power, glamor and success—has birthed cultural movements, launched political dynasties, and started wars. Masterfully weaving together pop science and history, *Stoned* breaks history into three categories—Want, Take, and Have—and explains what the diamond on your finger has to do with the GI Bill, why green-tinted jewelry has been exalted by so many cultures, why the

glass beads that bought Manhattan for the Dutch were initially considered a fair trade, and how the French Revolution started over a coveted necklace. Studded with lively personalities and fascinating details, Stoned tells the remarkable story of our abiding desire for the rare and extraordinary.

Jewels Danielle Steel,2009-05-14 On Sarah Whitfield's seventy-fifth birthday, memories take her back to New York in the 1930s. To a marriage that ends after a year, leaving Sarah shattered. A trip to Europe with her parents does little to raise her spirits, until she meets William, Duke of Whitfield. In time, despite her qualms, William insists on giving up his distant right to the British throne to make Sarah his dutchess and his wife. On their honeymoon, the newlyweds buy an old French chateau, but not long after, the war begins. William joins the allied forces, leaving Sarah, their first child, an infant, and their second child on the way, in France. After the Nazi forces take over the chateau, Sarah continues to survive the terror and deprivation of the Occupation, unwavering in her belief that her missing-in-action husband is still alive. After the war, as a gesture of goodwill, the Whitfields start

buying jewels offered for sale by impoverished war survivors. With Sarah's style and keen eye, the collection becomes the prestigious Whitfield's jewelry store in Paris. Eventually, their jewelry business expands to London and Rome, as their family grows. Phillip, their firstborn, is stubborn and proud; Julian, their second son, is charming and generous and warm; Isabelle is rebellious and willful; and Xavier, unusual and untamed, is the final unexpected gift of their love. They each find their own way, but will be drawn to the great house of gems their parents built. In *Jewels*, Danielle Steel takes the reader through five eventful decades that include war, passion, international intrigue, and the strength of family through it all.

Queens' Jewels Vincent Meylan, 2002 The history of royal jewels told through the destiny of the queens who wore them. Serving as a resplendent symbol of regal power and grandeur, royal jewels have been treasured assets of monarchies for centuries. Whether hidden or flaunted, sold or stolen, the stories behind crown jewels mirror the history of the rise and fall of the world's most legendary

families. In this stunning, lavishly illustrated volume, royalty expert Vincent Meylan draws readers into the fascinating tales of passion, mystery, adventure and intrigue that surround royal jewel caches, and shows what these dazzling treasures have meant to both the royals who wear them and the public that admires them. Beginning with the state of royal jewels today, *Queens' Jewels* looks back in time to chronicle the history--sometimes glamorous, sometimes gruesome--of the glittering regalia of monarchs in Russia, Iran and all across Western Europe. From the Bonapartes to the Romanovs to the Windsors, *Queens' Jewels* recreates a mythical universe of which these jewels are the most powerful symbol, the silent witness of times of glory and times of tragedy.

The Smithsonian National Gem Collection—Unearthed Jeffrey Edward Post, 2021-03-23 The scandals, mysteries, and human stories behind the world's greatest gems are brought to life by the curator of the Smithsonian's National Gem Collection Dr. Jeffrey E. most famous gemstones. Dr. Post is the author of the now out-of-print book *The National Gem Collection* (Abrams, 1997), which has sold more than 50,000 copies. In this brand-new book, he tells the stories of the Smithsonian's most famous gems, including the Hope Diamond, Star of Asia Sapphire, Carmen Lucia Ruby, Hooker Emerald, and Blue Heart Diamond—and also presents the tales, details, and fascinating facts surrounding rarely displayed gems from the Smithsonian vault and additions made to the collection since 1997. Not only a resource for learning about rare and beautiful gems, the book also presents the stories of the people who once owned or were associated with these jewels—from ordinary people to kings, emperors, maharajas, celebrities, and captains of industry.

Some are as intricate as Chinese embroidery, others as ethereal as butterflies, and still others are jeweled reinterpretations of timeless works of music and art, from Beethoven's Moonlight Sonata and Puccini's Turandot to Monet's Water Lilies. Praise for Symphony of Jewels This book details Hu's] first 99 works--many inspired by classical pieces--in exquisite detail. --
