Training the Translator Paul Kussmaul,1995-01-01 This book begins by investigating, through the use of think-aloud protocols, the mental processes of students when they translate. The creative and successful processes observed can be used directly for teaching purposes, while the unsuccessful ones can serve to find out where remedial training is needed. The book then goes on to discuss methods for improving a translator's competence. The strategies offered are based on the pragmatic and semantic analysis of texts from a functional point of view, and they include such practical matters as the use of dictionaries and the evaluation of translations and error analysis. The book is intended for teachers in translator-training institutions, but it can also be used by students for self-training.

The Translator as Mediator of Cultures Humphrey Tonkin,Maria Esposito Frank,2010-07-22 If it is bilingualism that transfers information and ideas from culture to culture, it is the translator who systematizes and generalizes this process. The translator serves as a mediator of cultures. In this collection of essays, based on a conference held at the University of Hartford, a group of individuals – professional translators, linguists, and literary scholars – exchange their views on translation and its power to influence literary traditions and to shape cultural and economic identities. The authors explore the implications of their views on the theory and craft of translation, both written and oral, in an era of unsettling globalizing forces.

Professional Issues for Translators and Interpreters Deanna L. Hammond,1994 This volume brings both beginning and experienced translators and interpreters up to date on a broad range of issues. The seven sections take up success and survival strategies for a language professional, including the challenges posed by the changing global economy, the impact of new technologies, adjustments required by a different legal environment and traditional ethical practices. Such challenges and changes point to a need for continuing education and networking and for newcomers specialized postsecondary training. The issues are as broad as the translator and interpreter's role in the modern world, as detailed as advice on setting up a workstation or choosing a degree program. The contributors, all practicing translators and interpreters, discuss also the value of the Association and its Committees to the profession and its individual members.

Is That a Fish in Your Ear? David Bellos,2011-10-11 A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. *Is That a Fish in Your Ear?* ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend other people and shows us how, ultimately, translation is

another name for the human condition.

Telling the Story of Translation Judith Woodsworth, 2017-08-10 Scholars have long highlighted the links between translating and (re)writing, increasingly blurring the line between translations and so-called 'original' works. Less emphasis has been placed on the work of writers who translate, and the ways in which they conceptualize, or even fictionalize, the task of translation. This book fills that gap and thus will be of interest to scholars in linguistics, translation studies and literary studies. Scrutinizing translation through a new lens, Judith Woodsworth reveals the sometimes problematic relations between author and translator, along with the evolution of the translator's voice and visibility. The book investigates the uses (and abuses) of translation at the hands of George Bernard Shaw, Gertrude Stein and Paul Auster, prominent writers who bring into play assorted fictions as they tell their stories of translations. Each case is interesting in itself because of the new material analysed and the conclusions reached. Translation is seen not only as an exercise and fruitful starting point, it is also a way of paying tribute, repaying a debt and cementing a friendship. Taken together, the case studies point the way to a teleology of translation and raise the question: what is translation for? Shaw, Stein and Auster adopt an authorial posture that distinguishes them from other translators. They stretch the boundaries of the translation proper, their words spilling over into the liminal space of the text; in some cases they hijack the act of translation to serve their own ends. Through their tales of loss, counterfeit and hard labour, they cast an occasionally bleak glance at what it means to be a translator. Yet they also pay homage to translation and provide fresh insights that continue to manifest themselves in current works of literature. By engaging with translation as a literary act in its own right, these eminent writers confer greater prestige on what has traditionally been viewed as a subservient art.

Literary Translation Clifford E. Landers, 2001-09-13 In this book, both beginning and experienced translators will find pragmatic techniques for dealing with problems of literary translation, whatever the original language. Certain challenges and certain themes recur in translation, whatever the language pair. This guide proposes to help the translator navigate through them. Written in a witty and easy to read style, the book's hands-on approach will make it accessible to translators of any background. A significant portion of this Practical Guide is devoted to the question of how to go about finding an outlet for one's translations.

The Translator's Dialogue Giovanni Pontiero, 1997-01-01 The Translator's Dialogue: Giovanni Pontiero is a tribute to an outstanding translator of literary works from Portuguese, Luso-Brasilian, Italian and Spanish into English. The translator introduced authors such as Carlos Drummond de Andrade, Manuel Bandeira, Clarice Lispector and Jose Saramago to the English reading world. Pontiero's essays shed light on the process of literary translation and its impact on cultural perception. This process is exemplified by Pontiero the translator and analyst, some of the authors he collaborated with, publishers' editors and literary critics and, finally, by an unpublished translation of a short story by Jose Saramago, Coisas.

Crossing Borders Lynne Sharon Schwartz, 2018-01-16 In Joyce Carol Oates's story "The Translation," a traveler to an Eastern European country falls in love with a woman he gets to know through an interpreter. In Lydia Davis's "French Lesson I: Le Meurtre," what begins as a lesson in beginner's French takes a sinister turn. In the essay "On Translating and Being Translated," Primo Levi addresses the joys and difficulties awaiting the translator. Lynne Sharon Schwartz's *Crossing Borders: Stories and Essays About Translation* gathers together thirteen stories and five essays that explore the compromises, misunderstandings, traumas, and reconciliations we act out and embody through the art of translation. Guiding her selection is Schwartz's marvelous eye for finding hidden gems, bringing together Levi, Davis, and Oates with the likes of Michael Scammell, Harry Mathews, Chana Bloch, and so many other fine and intriguing voices.

Translation, Travel, Migration Loredana Polezzi, 2016-04-08 The connection between travel and translation is often evoked in contemporary critical theory, both practices seen as metaphors of mobility and flux linked to globalized 'post-modern' society. Travel is a multiple activity, encompassing temporary and voluntary displacement, repeated movement, exile, economic migration, diaspora. Places of origin are often plural and unstable, in spite of the enduring appeal of traditional labels such as 'mother country' or 'patrie'. The multiple interfaces between translation, travel and migration are the focus of all contributions in this special issue. Starting from different points of view, and using a variety of methodologies, the authors raise fundamental questions about the way in which we perceive the link between language, national or ethnic identity, and individual voice. Topics range from the interaction between travel, travel narratives and translation in early English representations of China, to the special role played by interpreters in mediating the first contact between a literate and a non-literate culture; from the multiple functions and audiences addressed by contemporary Romani literature and its translation, to the political as well as cultural implications of translating popular music across the Bosphorus. A number of the articles focus on detailed textual analysis, covering the intersection between exile, self-translation and translanguaging in the work of Manuel Puig; the uses and limitations of translation in the works of migrant authors; or the impact on figurations of Europe of experimental work embracing polylingualism. Collectively, these contributions also underline the importance of a closer examination of our assumptions about who the translators and the interpreters are, and what roles they play in our society.

Fictional Translators Rosemary Arrojo, 2017-08-14 Through close readings of select stories and novels by well-known writers from different literary traditions, *Fictional Translators* invites readers to rethink the main clichés associated with translations. Rosemary Arrojo shines a light on the transformative character of the translator's role and the relationships that can be established between originals and their reproductions, building her arguments on the basis of texts such as the following: Cortázar's Letter to a Young Lady in Paris, Walsh's Footnote, Wilde's The Picture of Dorian Gray and Poe's The Oval Portrait. Borges's Pierre Menard, Author of the Quixote, Funes, His Memory, and Death and the Compass, Kafka's The Burrow and Kosztolányi's Kornél Esti. Saramago's The History of the Siege of Lisbon and Babel's Guy de Maupassant. Sciar's Footnotes and Calvino's If on a Winter's Night a Traveler. Cervantes's Don Quixote. *Fictional Translators* provides stimulating material for reflection not only on the processes associated with translation as an activity that inevitably transforms meaning, but, also, on the common prejudices that have underestimated its productive role in the shaping of identities. This book is key reading for students and researchers of literary translation, comparative literature and translation theory.

Foreign Words Susan Bernofsky, 2005 A new perspective on the principal developments in translation practice and theory in Germany during the Age of Goethe with emphasis on the work of Goethe, Holderlin, and Kleist as translators.
