The Oxford Handbook of Job Loss and Job Search Ute-Christine Klehe,Edwin A. J. van Hooft,2018 Combining current knowledge from psychology, sociology, labor studies, and economics, The Oxford Handbook of Job Loss and Job Search presents one of the first comprehensive overviews of the knowledge and research on job loss and job search. It provides readers with suggestions for further research and offers hands-on practical advice.

The Oxford Handbook of Job Loss and Job Search Ute-Christine Klehe PhD,Edwin van Hooft PhD,2018-05-08 Job search is and always has been an integral part of people's working lives. Whether one is brand new to the labor market or considered a mature, experienced worker, job seekers are regularly met with new challenges in a variety of organizational settings. Edited by Ute-Christine Klehe and Edwin A.J. van Hooft, The Oxford Handbook of Job Loss and Job Search provides readers with one of the first comprehensive overviews of the latest research and empirical knowledge in the areas of job loss and job search. Multidisciplinary in nature, Klehe, van Hooft, and their contributing authors offer fascinating insight into the diverse theoretical and methodological perspectives from which job loss and job search have been studied, such as psychology, sociology, labor studies, and economics. Discussing the antecedents and consequences of job loss, as well as outside circumstances that may necessitate a more rigorous job hunt, this Handbook presents in-depth and up-to-date knowledge on the methods and processes of this important time in one's life. Further, it examines the unique circumstances faced by different populations

during their job search, such as those working job-to-job, the unemployed, mature job seekers, international job seekers, and temporary employed workers. Job loss and unemployment are among the worst stressors individuals can encounter during their lifetimes. As a result, this Handbook concludes with a discussion of the various types of interventions developed to aid the unemployed. Further, it offers readers important insights and identifies best practices for both scholars and practitioners working in the areas of job loss, unemployment, career transitions, outplacement, and job search.

Turkish Migration 2016 Selected Papers Jeffrey H. Cohen, Deniz Eroglu, Ibrahim Sirkeci, 2016-11-15 Turkish Migration 2016 - Selected Papers - Compiled by Deniz Eroglu, Jeffrey H. Cohen, Ibrahim Sirkeci offers a selection of papers presented at the Migration Conference 2016 held in Vienna, Austria. The pieces collected here are just a sample of the work that was presented at the 2016 Turkish Migration conference. Our meeting, the 4th symposium on Turkish migration, brought together scholars from around the globe to share their research and debate mobility. As in our earlier symposia, we explored demography, sociology, culture and art as they are related to mobility. New this year was an increasing awareness of the "return" of Turks to Turkey from Germany, the challenges faced by Syrian refugees who have settled in Turkey or are passing through the country on their way to Europe as well as issues facing Kurdish minorities, Roma and other minority groups living in or transiting through Turkey. This collection is challenged by two competing poles. One pole is centered in xenophobic nationalism. Around this pole, migrants and refugees are described as criminals, religious fanatics and "moochers who challenge the working class and the freedoms that come with life in the West. The second pole laments the insecurity that migrants and refugees face. Around this pole, movers are described as victims who lack so much at home. In this example, migrants and refugees are moving because there are no jobs and few prospects for work; civil liberties are proscribed and banned in the face of state imposed limits and there are no opportunities to strike out on a unique path to the future. Complicating both poles is the 24-hour news cycle that denies us the opportunity to understand and analyze. Instead, we are forced to pick one pole or the other. In either case, the outcome dehumanizes the mover, signals their pathos and emphasizes why they are different.

Handbook of Employee Selection James L. Farr, Nancy T. Tippins, 2017-03-27 This second edition of the Handbook of Employee Selection has been revised and updated throughout to reflect current thinking on the state of science and practice in employee selection. In this volume, a diverse group of recognized scholars inside and outside the United States balance theory, research, and practice, often taking a global perspective. Divided into eight parts, chapters cover issues associated with measurement, such as validity and reliability, as well as practical concerns around the development of appropriate selection procedures and implementation of selection programs. Several chapters discuss the measurement of various constructs commonly used as predictors, and other chapters confront criterion measures that are used in test validation. Additional sections include chapters that focus on ethical and legal concerns and testing for certain types of jobs (e.g., blue collar jobs). The second edition features a new section on technology and employee selection. The Handbook of Employee Selection, Second Edition provides an indispensable reference for scholars, researchers, graduate students, and professionals in industrial and organizational psychology, human resource management, and related fields.

Information Services Today Sandra Hirsh, 2015-03-19 This essential overview of what it means to be a library and information professional today provides a broad overview of the transformation of libraries as information organizations, why these organizations are more important today than ever before, the technological influence on how we provide information resources and services in today's digital and global environment, and the various career opportunities available for information professionals. The book begins with a historical overview of libraries and their transformation as information and technology hubs within their communities. It also covers the various specializations within the field emphasizing the exciting yet complex roles and opportunities for information professionals. With that foundation in place, it presents how libraries serve different kinds of communities, highlighting the unique needs of users across all ages and how libraries fulfill those needs through a variety of services, and addresses key issues facing information organizations as they meet user needs in the Digital Age. The book then concludes with career management strategies to guide library and information science professionals in building not only vibrant careers but vibrant information organizations for the future as well.
