The Job Search Navigator Matt Durfee, 2015-12-21 "A no-holds-barred view of career management in a turbulent world . . . provides a reality-based perspective that should be of value to all who read [it]." –Len Schlesinger, president emeritus at Babson College, Baker Foundation professor, Harvard Business School In these uncertain times, *The Job Search Navigator* is a reliable guide to every step of the twenty-first-century job hunt, whether readers are laid off, wanting to change careers after surviving cutbacks, or seeking a better full-time gig in a stagnant marketplace. Author Matt Durfee writes from the perspective of someone who has both recruited for some of America's biggest companies and navigated his way through nine of his own job losses. The book combines practical real-world perspectives with the technical knowledge job seekers need in order to excel at every aspect of their searches. Drawing on the knowledge Durfee accumulated through his own experiences, searches, and big-brand corporate hiring responsibilities, *The Job Search Navigator* abandons the "clinical approach" of many other career-advice books. Instead, Durfee gives easy-to-follow strategies and, perhaps more importantly, recounts in illuminating detail the kinds of mistakes that led him to develop these strategies. "From the strategic to the emotional to the tactical–this is one of the most practical and useful books on career management I've read in a very, very long time." –L. Kevin Cox, chief human resources officer, American Express Company "Matt's expertise in this space is unmatched. We live in a world where constant reinvention is the rule and *The Job Search Navigator* is essential reading for those who want to take control of their career trajectory." –Scott Westerman, executive director & associate vice president for alumni relations, Michigan State University

The 2-Hour Job Search Steve Dalton, 2012-03-06 A job-search manual that gives career seekers a systematic, tech-savvy formula to efficiently and effectively target potential employers and secure the essential first interview. *The 2-Hour Job Search* shows job-seekers how to work smarter (and faster) to secure first interviews. Through a prescriptive approach, Dalton explains how to wade through the Internet's sea of information and create a job-search system that relies on mainstream technology such as Excel, Google, LinkedIn, and alumni databases to create a list of target employers, contact them, and then secure an interview–with only two hours of effort. Avoiding vague tips like "leverage your contacts," Dalton tells job-hunters exactly what to do and how to do it. This empowering book focuses on the critical middle phase of the job search and helps readers bring organization to what is all too often an ineffectual and frustrating process.

The 2-Hour Job Search, Second Edition Steve Dalton, 2020-04-21 Use the latest technology to target potential employers and secure the first interview--no matter your experience, education, or network--with these revised and updated tools and recommendations. "The most practical, stress-free guide ever written for finding a white-collar job."–Dan Heath, coauthor of *Switch* and *Made to Stick* Technology has changed not only the way we do business, but also the way we look for work. *The 2-Hour Job Search* rejects laundry lists of conventional wisdom in favor of a streamlined job search approach that produces results quickly and efficiently. In three steps, creator Steve Dalton shows you how to select, prioritize, and make contact with potential employers so you can land that critical first interview. In this revised second edition, you'll find updated advice on how to efficiently surf online job postings, how to reach out to contacts at your dream workplace and when to follow up, and advice on using LinkedIn, Indeed, and Google to your best advantage. Dalton incorporates ideas from leading thinkers in behavioral economics, psychology, and game theory, as well as success stories from readers of the first edition. *The 2-Hour Job Search* method has proven so successful that it has been shared at schools across the globe and is a formal part of the curriculum for all first-year MBAs at Duke University. With this book, you'll learn how to make it work for you too.
