**Buffy Goes Dark** Lynne Y. Edwards, Elizabeth L. Rambo, James B. South, 2014-01-10 Buffy the Vampire Slayer earned critical acclaim for its use of metaphor to explore the conflicts of growth, power, and transgression. Its groundbreaking stylistic and thematic devices, boldness and wit earned it an intensely devoted fan base—and as it approached its zenith, attention from media watchdog groups and the Federal Communications Commission. The grim and provocative evolution of the show over its final two seasons polarized its audience, while also breaking new ground for critical and philosophical analysis. The thirteen essays in this collection, divided into the perspectives of feminist, cultural, auteur and fan studies, explore the popular series' conclusion, providing a multifaceted examination of Buffy's most controversial two seasons.

Public Relations As Relationship Management John A. Ledingham, Stephen D. Bruning, 2000 The emergence of relationship management as a paradigm for public relations scholarship and practice requires a close examination of just what is achieved by

public relations--its definition, function and value, and the benefits it generates. Initiated by the editors' interest in cross-disciplinary exploration, this volume evolved to its current form as a result of the need for a framework for understanding public relations and the potential impact of organization-public relationships on the study, practice, and teaching of public relations. Ledingham and Bruning include contributions that present state-of-the-art research in relationship management, applications of the relational perspective to various components of public relations, and the implications of the approach to influence further research and practice. The discussion conducted here is certain to influence and promote future theory and practice on the concept of relationship management.

**Dark Lens** Françoise Meltzer, 2021-12-05 This book draws on literature, painting, and a never-before-seen cache of photographs to explore the representation of catastrophe and the targeting of civilians in war. Focusing on images of Nazi Germany's bombed-out cities, the author connects the fraught aesthetics of ruins with the problem of how to acknowledge German suffering.--Provided by publisher.

Mere Believers Marc Baer, 2013-10-29 Does God use flawed people despite their shortcomings? Mere Believers tells the stories of eight remarkable men and women living in tumultuous times, revealing surprising and inspirational answers. William Wilberforce defined Christian as a pilgrim travelling on business through a strange country. In Mere Believers, historian Marc Baer examines

eight Christian figures from the past, indicating how their conversion not only directed them to new vocations (travelling on business), but also impacted in profoundly positive ways the society and culture of that strange country they called home. The book reveals how faithful lives can have revolutionary consequences, offering poignant models for vocational discernment and spiritual formation. Mere Believers helps readers engage our own times better by bringing them into conversation with courageous Christians of the past. The subjects represent a variety of Christian traditions. They are male and female, black and white, English, Welsh, Scottish, and an African immigrant. Mere Believers reveals how what we believe is the legacy of what they achieved, that some of the best minds and hearts in the past have been committed, culturally wise Christians, and in turn how their lives and worldviews have shaped our own--including, paradoxically, those who reject Christianity.

**As We Were** Rosamond B. Vaule, 2004 Today, no one seriously doubts the value, both aesthetic and historic, of the ubiquitous American photographic postcard. This was the medium that really brought photography to the masses; these cards were affordable, they were topical, and they could be sent for a penny anywhere in the country. The variety of imagery, much of it developed anonymously in small studios, much of it taken by inspired amateurs (these were the days when anyone could, and many folks did, own a camera) displays America in all its variety and vitality. Most postcards were mass produced and printed in ink by

the collotype or halftone process. But a few were original photographic prints, exposed directly from glass plates or film negatives. Known as real photos these were real photographs, aristocrats of the genre and spectacular examples of vernacular photography. In this charming and scholarly book, Vaule selects the best of them, from all over the country, addressing their social and historical contexts, explaining the mysteries of their manufacture and dissemination, and describing the characteristics and identities of their makers, many of whose names and studios are listed in the book. But without doubt, it is the images themselves that still hold us: storefronts and townships, frisky children and sober adults, air ships and barn raisings. Over one hundred are reproduced here, each in fine-line duotone, each as fascinating and compelling today as when first fixed on paper.

**Audience Effect** Julian Hanich, 2017-11-22 In this innovative book, Julian Hanich explores the subjectively lived experience of watching films together, to discover a fuller understanding of cinema as an art form and a social institution that matters to millions of people worldwide.

Illuminating Metalwork Joseph Salvatore Ackley, Shannon L. Wearing, 2021-12-20 The presence of gold, silver, and other metals is a hallmark of decorated manuscripts, the very characteristic that makes them "illuminated." Medieval artists often used metal pigment and leaf to depict metal objects both real and imagined, such as chalices,

crosses, tableware, and even idols; the luminosity of these representations contrasted pointedly with the surrounding paints, enriching the page and dazzling the viewer. To elucidate this key artistic tradition, this volume represents the first in-depth scholarly assessment of the depiction of precious-metal objects in manuscripts and the media used to conjure them. From Paris to the Abbasid caliphate, and from Ethiopia to Bruges, the case studies gathered here forge novel approaches to the materiality and pictoriality of illumination. In exploring the semiotic, material, iconographic, and technical dimensions of these manuscripts, the authors reveal the canny ways in which painters generated metallic presence on the page. *Illuminating Metalwork* is a landmark contribution to the study of the medieval book and its visual and embodied reception, and is poised to be a staple of research in art history and manuscript studies, accessible to undergraduates and specialists alike.

The John A. Livingston Reader John Livingston, 2013-03-05 Canada's pioneering radical naturalist now back in print! John A. Livingston is Canada's Rachel Carson. His cogent, brilliant writing on the effects of man on nature has defined an entire generation of environmentalists and is required reading for anyone who wants to understand the underpinnings of today's issues. Radical when first published in the early 1970s and 1980s, Livingston's arguments that we must find new approaches to our perception of nature and our place within it or face the irreversibility of our destruction of nature now

reads prophetically. The Reader brings two of Livingston's poetic and provocative books back into print for a new generation of readers and features an appreciation by Graeme Gibson.

**Blue Light of the Screen** Claire

Cronin, 2020-10-13 *Blue Light of the Screen* is a memoir about the author's obsession with horror and the supernatural. *Blue Light of the Screen* is about what it means to be afraid -- about immersion, superstition, delusion, and the things that keep us up at night. A creative-critical memoir of the author's obsession with the horror genre, *Blue Light of the Screen* embeds its criticism of horror within a larger personal story of growing up in a devoutly Catholic family, overcoming suicidal depression, uncovering intergenerational trauma, and encountering real and imagined ghosts. As Cronin writes, she positions herself as a protagonist who is haunted by what she watches and reads, like an antiquarian in an M.R. James ghost story whose sense of reality unravels through her study of arcane texts and cursed archives. In this way, *Blue Light of the Screen* tells the story of the author's conversion from skepticism to faith in the supernatural. Part memoir, part ghost story, and part critical theory, *Blue Light of the Screen* is not just a book about horror, but a work of horror itself.

**George Sprott** Seth, 2022-05-02 How to encapsulate a life, in all its messiness, epiphanies, misunderstandings, disappointments, and joys? With George Sprott 1894-1975, Seth offers one tragicomic answer. Page by page, we learn about

George—outmoded television host, creature of habit, charming if pompous old man, selfish lover, man about to die—and though this is ultimately the story of one man’s death, Seth leavens it with humor and restraint. The book’s omniscient narrator offers a patchwork tale: a series of “interviews” with the people who cared about George, flashbacks, and personal reminiscences. The thwarted love of his life, Olive Mott, and the woman he marries, Helen. His trips to the Arctic and the exoticized portrait his documentaries painted of a Great White North. His habit of falling asleep on air. His humdrum demise. What emerges is a story about memory, loss, time, and the stories we tell (and retell) to get through the day. George’s romanticizing and repeating of his adventures up North, “adventures” that are revealed to be entirely fictional, holds a mirror to the ways we each historicize our own lives. Originally serialized in the New York Times Magazine before being published in an expanded, large-format hardcover by Drawn & Quarterly, this new edition is the definitive George Sprott.

**Critical Literacy Across the K-6 Curriculum**

Vivian Maria Vasquez, 2016-09-01 Through stories from kindergarten to sixth grade classrooms where students and teachers have attempted to put a critical edge on their teaching, this book shows critical literacy in action across the curriculum. Readers see students and teachers together using critical literacy discourse to frame conversations in ways that engage students in examining the meaning of the texts they read and acting on local and global social issues that emerge. Drawing on multiple perspectives such as cross-curricular explorations, multimedia, and child-centered inquiry pedagogies, the text features a theoretical toolkit; demonstrations from across the content areas including art, music, and media literacy; integration of technology; and attention to how critical literacy can inform decisions about standards and assessment. Annotated booklists, examples of students' work, Reflection Questions, Try This (practical classroom strategies), and Resource Boxes can be used to encourage and support engaging in critical literacy work in different areas of the curriculum.
