**A Journey to the Center of the Earth** Jules Verne,2022-09-23 A Journey to the Center of the Earth follows a man, his nephew and their guide down an Icelandic volcano into the center of the earth. There they encounter an ancient landscape filled with prehistoric animals and natural dangers. There is some discussion as to whether Verne really believed that such things might be found in the center, or whether he shared the alternate view, expressed by another character in the novel, that it was not so. As part of our mission to publish great works of literary fiction and nonfiction, Sheba Blake Publishing Corp. is extremely dedicated to bringing to the forefront the amazing works of long dead and truly talented authors.

Journey to the Centre of the Earth Jules Verne,2008-06-12 Journey to the Centre of the Earth has been consistently praised for its style and its vision of the world. It explores the prehistory of the globe, but can also be read as a psychological quest, for the journey itself is as important as arrival or discovery. Professor Lidenbrock and his nephew Axel travel across Iceland, and then down through an extinct crater towards a sunless sea where they enter a living past and are confronted with the origins of man. A classic of nineteenth-century French literature, the novel's distinctive combination of realism and Romanticism has marked figures as diverse as Sartre and Tournier, Mark Twain and Conan Doyle. This new translation of the complete text is faithful to the lyricism, verve, and humour of the original. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

**The Final Journey to the Center of the Earth** David Menefee,2018-11-20 Is the ultimate destination ordained to be mankind's final foe? Weird events tear apart the life of young pilot Axle Lidenbrock II, adventurous great nephew of the legendary explorer in Jules Verne's Journey to the Center of the Earth. A mysterious note from his long-lost father to rescue him from the mythical land of Shambala proves real, and he launches a secret expedition to save him, but the voyage is hijacked. A desperate reporter, a blind detective stowaway, and a murderer jeopardize the journey and they crash in the Antarctic. Axle's heroism leads them to a fabled entrance to the lost world below, and they descend into a subterranean futuristic kingdom that holds a horrifying secret never before revealed.
