Sacred Texts and Buried Treasures William Wayne Farris,1998-05-01 The Japanese have long sought inspiration and legitimacy from the written record of their ancient past. The shaping of bygone eras to contemporary agendas began at least by the early eighth century, when the first court histories, namely the Kojiki and the Nihon shoki, were compiled. Since the late nineteenth century, historians have extensively mined these texts and other written evidence and by the late 1970s had nearly exhausted their meager sources. Fortunately for all those interested in uncovering the origins of Japanese civilization, archaeologists have been hard at work. Today, thanks to this postwar archaeology boom, Japan historians have never been closer to recreating the lives of prehistoric peasants, ancient princes, and medieval samurai. Sacred Texts and Buried Treasures offers substantial new insights into early Japanese history (A.D. 100-800) through an integrated discussion of historical texts and archaeological artifacts. It contends that the rich archaeological discoveries of the past few decades permit scholars to develop far more satisfactory interpretations of ancient Japan than was possible when they were heavily dependent on written sources.

Sustainability Management in Heritage and Tourism Takamitsu Jimura,2023-11-07 Increasingly, the tourism industry is looking towards sustainability, responding to public demand and local environmental policy. This monograph explores the concept of sustainability in the context of heritage and tourism studies, as well as examining the practices adopted to realize or enhance the sustainability of these industries. Beginning with a broad overview, outlining the theory and scholarly landscape, this book then focuses on cases of sustainable tourism in Japan, exploring the concept of ‘mottainai’. Mottainai is a traditional Japanese term and means an ethical attitude towards the use of a range of resources needed for human life. This Japanese word can be understood as ‘what a waste’, and can promote the environmentally-friendly way of life, encouraging reduce, reuse and recycle. This book will be of interest to scholars and students of heritage, tourism, and sustainability management; both those interested in Japan specifically, and those who are interested in new approaches for sustainability in tourism management.

**Modern Japanese Art and the Meiji State** Dōshin Satō,2011 This is an insightful and intelligent re-thinking of Japanese art history & its Western influences. This broad-ranging and profoundly influential analysis describes how Western art institutions and vocabulary were transplanted to Japan in the late nineteenth century. In the 1870-80s, artists and government administrators in Japan encountered the Western 'system of the arts' for the first time. Under pressure to exhibit and sell its artistic products abroad, Japan's new Meiji government came face-to-face with the need to create European-style art schools and museums - and even to establish Japanese words for art, painting, artist, and sculpture. Modern Japanese Art is a full re-conceptualization of the field of Japanese art history, exposing the politics through which the words, categories, and values that structure our understanding of the field came to be while revealing the historicity of Western and non-Western art history.

**Japanese Digital Cultural Promotion** Nadejda Gadjeva,2023-06-16 Gadjeva uses Kyoto as a case study to explore the innovative mechanisms being used to promote Japanese culture and cultural properties since the outbreak of COVID-19. Beginning by setting out the main initiatives and actors involved in preserving, introducing, and utilizing Kyoto’s cultural heritage, Gadjeva proceeds to discuss alternative approaches using digital technologies. These tools include remote access virtual reality, augmented reality, augmented virtuality, and mixed reality. She looks at how such approaches have been applied to Kyoto’s digital museums, real-time online experiences, and other virtual projects presenting tangible, intangible, and folk heritage. In doing so she draws on a wide range of interviews with experts from the Japan Foundation, the Kyoto Art Center, and other related institutions to investigate the limitations and possible strategies for further development of these practices. She also interviews scholars, government officials, and experts from Europe about the prospects for further remote online experiences, applied both specifically to Kyoto and more broadly to cultural tourism. Based on the findings, the book discusses particular future challenges and suggests specific policies and project proposals for further remote online experiences of Kyoto’s cultural properties. A valuable read for professionals and scholars of cultural and tourism studies, that will be of particular interest to those specializing in Japan.
