Peace Journalism, War and Conflict Resolution Richard Keeble,John Tulloch,Florian

Zollman,2010 Peace Journalism, War and Conflict Resolution draws together the work of over twenty leading international writers, journalists, theorists and campaigners in the field of peace journalism. Mainstream media tend to promote the interests of the military and governments in their coverage of warfare. This major new text aims to provide a definitive, up-to-date, critical, engaging and accessible overview exploring the role of the media in conflict resolution. Sections focus in detail on theory, international practice, and critiques of mainstream media performance from a peace perspective; countries discussed include the U.S., U.K., Germany, Cyprus, Sweden, Canada, India, Pakistan, Papua New Guinea and the Philippines. Chapters examine a wide variety of issues including mainstream newspapers, indigenous media, blogs and radical alternative websites. The Tragic Age Stephen Metcalfe,2015-03-03 This is the story of Billy Kinsey, heir to a lottery fortune, part genius, part philosopher and social critic, full time insomniac and closeted rock drummer. Billy has decided that the best way to deal with an absurd world is to stay away from it. Do not volunteer. Do not join in. Billy will be the first to tell you it doesn't always work--not when your twin sister, Dorie, has died, not when your unhappy parents are at war with one another, not when frazzled soccer moms in two ton SUVs are more dangerous than atom bombs, and not when your guidance counselor keeps asking why you haven't applied to college. Billy's life changes when two people enter his life. Twom Twomey is a charismatic renegade who believes that truly living means going a little outlaw. Twom and Billy become one another's mutual benefactor and friend. At the

same time, Billy is reintroduced to Gretchen Quinn, an old and adored friend of Dorie's. It is Gretchen who suggests to Billy that the world can be transformed by creative acts of the soul. With Twom, Billy visits the dark side. And with Gretchen, Billy experiences possibilities. Billy knows that one path is leading him toward disaster and the other toward happiness. The problem is-Billy doesn't trust happiness. It's the age he's at. The tragic age. Stephen Metcalfe's brilliant, debut coming-of-age novel, *The Tragic Age*, will teach you to learn to love, trust and truly be alive in an absurd world.

Machines Like Me Ian McEwan, 2019-04-23 From the Booker Prize winner and bestselling author of *Atonement*—"a sharply intelligent novel of ideas" (The New York Times) that asks whether a machine can understand the human heart, or whether we are the ones who lack understanding. Set in an uncanny alternative 1982 London—where Britain has lost the Falklands War, Margaret Thatcher battles Tony Benn for power, and Alan Turing achieves a breakthrough in artificial intelligence—*Machines Like Me* powerfully portrays two lovers who will be tested beyond their understanding. Charlie, drifting through life and dodging full-time employment, is in love with Miranda, a bright student who lives with a terrible secret. When Charlie comes into money, he buys Adam, one of the first generation of synthetic humans. With Miranda's assistance, he codesigns Adam's personality. The near-perfect human that emerges is beautiful, strong, and

smart—and a love triangle soon forms. Ian McEwan's subversive, gripping novel poses fundamental questions: What makes us human—our outward deeds or our inner lives? Could a machine understand the human heart? This provocative and thrilling tale warns against the power to invent things beyond our control. Don't miss Ian McEwan's new novel, *Lessons*, coming in September!

Down the Great Unknown Edward Dolnick, 2009-03-17 Drawing on rarely examined diaries and journals, *Down the Great Unknown* is the first book to tell the full, dramatic story of the Powell expedition. On May 24, 1869 a one-armed Civil War veteran, John Wesley Powell and a ragtag band of nine mountain men embarked on the last great quest in the American West. The Grand Canyon, not explored before, was as mysterious as Atlantis—and as perilous. The ten men set out from Green River Station, Wyoming Territory down the Colorado in four wooden rowboats. Ninety-nine days later, six half-starved wretches came ashore near Callville, Arizona. Lewis and Clark opened the West in 1803, six decades later Powell and his scruffy band aimed to resolve the West's last mystery. A brilliant narrative, a thrilling journey, a cast of memorable heroes—all these mark *Down the Great Unknown*, the true story of the last epic adventure on American soil.

Avidly Reads Making Out Kathryn Bond Stockton, 2019-10-08 Avidly Reads is a series of short books about how culture makes us feel. Founded in 2012 by Sarah Blackwood and Sarah Mesle, Avidly—an online magazine supported by the Los Angeles Review of Books—specializes in short-form critical essays devoted to thinking and feeling. Avidly Reads is an exciting new series featuring books that are part memoir, part cultural criticism, each bringing to life the author's emotional relationship to a cultural artifact or experience. Avidly Reads invites us to explore the surprising pleasures and obstacles of everyday life. Mid-kiss, do you ever wonder who you are, who you're kissing, where it's leading? It can feel luscious, libidinal, friendly, but are we trying to make out something through our kissing? For Kathryn Bond Stockton, making out is a prism through which to look at the cultural and political forces of our world: race, economics, childhood, books, and movies. Making Out is Stockton's memoir about a non-binary childhood before that idea existed in her world. We think about kissing as we accompany Stockton to the bedroom, to the closet, to the playground, to the movies, and to solitary moments with a book, the ultimate source of pleasure.

Trillion Dollar Economists Robert Litan, 2014-09-22 A detailed look at how economists shaped the world, and how the legacy continues Trillion Dollar Economists explores the prize-winning ideas that have shaped business decisions, business models, and government policies, expanding the popular idea of the economist's role from one of forecaster to one of innovator. Written by the former Director of Economic Research at Bloomberg Government, the Kauffman Foundation and the Brookings Institution, this book describes the ways in which economists have helped shape the world – in some cases,

dramatically enough to be recognized with a Nobel Prize or Clark Medal. Detailed discussion of how economists think about the world and the pace of future innovation leads to an examination of the role, importance, and limits of the market, and economists' contributions to business and policy in the past, present, and future. Few economists actually forecast the economy's performance. Instead, the bulk of the profession is concerned with how markets work, and how they can be made more efficient and productive to generate the things people want to buy for a better life. Full of interviews with leading economists and industry leaders, Trillion Dollar Economists showcases the innovations that have built modern business and policy. Readers will: Review the basics of economics and the innovation of economists, including market failures and the macro-micro distinction Discover the true power of economic ideas when used directly in business, as exemplified by Priceline and Google Learn how economists contributed to policy platforms in transportation, energy, telecommunication, and more Explore the future of economics in business applications, and the policy ideas, challenges, and implications Economists have helped firms launch new businesses, established new ways of making money, and shaped government policy to create new opportunities and a new landscape on which businesses compete. Trillion Dollar Economists provides a comprehensive exploration of these contributions, and a detailed look at innovation to come.

The Apothecary's Curse Barbara Barnett,2016-10-11 In Victorian London, the fates of physician Simon Bell and apothecary Gaelan Erceldoune entwine when Simon gives his

wife an elixir created by Gaelan from an ancient manuscript. Meant to cure her cancer, it kills her. Suicidal, Simon swallows the remainder--only to find he cannot die. Five years later, hearing rumors of a Bedlam inmate with regenerative powers like his own, Simon is shocked to discover it's Gaelan. The two men conceal their immortality, but the only hope of reversing their condition rests with Gaelan's missing manuscript. When modern-day pharmaceutical company Transdiff Genomics unearths diaries describing the torture of Bedlam inmates, the company's scientists suspect a link between Gaelan and an unnamed inmate. Gaelan and Transdiff Genomics geneticist Anne Shawe are powerfully drawn to each other, and her family connection to his manuscript leads to a stunning revelation. Will it bring ruin or redemption?

The Great Big One J. C. Geiger,2021-07-13 With natural disasters and nuclear war threatening their small town, two twin brothers find themselves enraptured by mysterious music that could change the course of their lives. Everyone in Clade City knows their days are numbered. The Great Cascadia Earthquake will destroy their hometown and reshape the entire West Coast—if they survive long enough to see it. Nuclear war is increasingly likely. Wildfires. Or another pandemic. To Griff, the daily forecast feels partly cloudy with a chance of apocalyptic horsemen. Griff's brother, Leo, and the Lost Coast Preppers claim to be ready. They've got a radio station. Luminous underwater monitors. A sweet bunker, and an unsettling plan for "disaster-ready rodents." But Griff's more concerned about what he can do before the end times. He'd like to play in a band, for one. Hopefully with Charity Simms. Her singing could make the whole world stop. When Griff, Leo, and

Charity stumble upon a mysterious late-night broadcast, one song changes everything. It's the best band they've ever heard—on a radio signal even the Preppers can't trace. They vow to find the music, but aren't prepared for where their search will take them. Or for what they'll risk, when survival means finding the one thing you cannot live without.

Why I Left Goldman Sachs Greg Smith (Economist),2014-10-08 Reveals the unsettling changes that prompted the author to resign from the once-esteemed investment bank, as he discusses his growing disenchantment with the company's corporate culture and its exploitation of its clients.
