The Mirror Thief Martin Seay,2016-05-10 A globetrotting, time-bending, wildly entertaining masterpiece hailed by the New York Times Book Review as Audaciously well written...the book I was raving about to my friends before I'd even finished it. Publishers Weekly raved that with near-universal appeal . . . Seay's debut novel is a true delight, a big, beautiful cabinet of wonders that is by turns an ominous modern thriller, a supernatural mystery, and an enchanting historical adventure story. Set in three cities in three eras, *The Mirror Thief* calls to mind David Mitchell and Umberto Eco in its mix of entertainment and literary bravado. The core story is set in Venice in the sixteenth century, when the famed makers of Venetian glass were perfecting one of the old world's most wondrous inventions: the mirror. An object of glittering yet fearful fascination—was it reflecting simple reality, or something more spiritually revealing?—the Venetian mirrors were state of the art technology, and subject to industrial espionage by desirous sultans and royals world-wide. But for any of the development team to leave the island was a crime punishable by death. One man, however—a world-weary war hero with nothing to lose—has a scheme he thinks will allow him to outwit the city's terrifying enforcers of the edict, the ominous Council of Ten . . . Meanwhile, in two other Venices—Venice Beach, California, circa 1958, and the Venice casino in Las Vegas, circa today—two other schemers launch similarly dangerous plans to get away with a secret . . . All three stories will weave together into a spell-binding tour-de-force that is impossible to put down—an old-fashioned, stay-up-all-night novel that, in the end, returns the reader to a stunning conclusion in the original Venice . . . and the bedazzled sense of having read a truly original and thrilling work of art.

Pleasure in Profit Laura Moretti,2020-12-22 In the seventeenth century, Japanese popular prose flourished as waves of newly literate readers gained access to the printed word. Commercial publishers released vast numbers of titles in response to readers' hunger for books that promised them potent knowledge. However, traditional literary histories of this period position the writings of Ihara Saikaku at center stage, largely neglecting the breadth of popular prose. In the first comprehensive study of the birth of Japanese commercial publishing, Laura Moretti investigates the vibrant world of vernacular popular literature. She marshals new data on the magnitude of the seventeenth-century publishing business and highlights the diversity and porosity of its publishing genres. Moretti explores how booksellers sparked interest among readers across the spectrum of literacies and demonstrates how they tantalized consumers with vital ethical, religious, societal, and interpersonal knowledge. She recasts books as tools for knowledge making, arguing that popular prose engaged its audience cognitively as well as aesthetically and emotionally to satisfy a burgeoning curiosity about the world. Crucially, Moretti shows, readers experienced entertainment within the didactic, finding pleasure in the profit gained from acquiring knowledge by interacting with transformative literature. Drawing on a rich variety of archival materials to present a vivid portrait of seventeenth-century Japanese publishing, *Pleasure in Profit* also speaks to broader conversations about the category of the literary by offering a new view of popular prose that celebrates plurality.

Tokyo and Venice as Cities on Water Rosa Caroli,Stefano Soriani,2023-12-20 Like other cities on water, Tokyo and Venice are characterised by intrinsic fragility, resulting from the combined work of the continuous emergence of technological, economic, social, and environmental forces, which affect the urban structure and landscape. Their tangible and intangible (material and immaterial) heritage can play a fundamental role in both maintaining their peculiar maritime identity and defining a future vision for the city. Accordingly, this volume focuses on how the rediscovery of water, from both architectural and cultural points of view, as well as the preservation of the historical and local character of the use of water, can contribute to new forms of resilience. The contributions from scholars, experts, and practitioners in various disciplines – from the social sciences and humanities to architecture and urban planning – that are brought together in this volume help to clarify the basic

importance of maintaining and preserving the distinctive identity of two paradigmatic cases of cities on water.

Fragment, Image, and Absence in 1960s Japan Ignacio A. Adriasola Muñoz, 2022-11-28 This groundbreaking book examines how the notion of “the object” was transformed in Japanese experimental art during a time of rapid social, economic, and environmental change. Reviving the legacies of the historical avant-garde, Japanese artists and intellectuals of the 1960s formulated an aesthetics of disaffection through which they sought to address the stalemate of political and aesthetic representation. Ignacio A. Adriasola Muñoz draws from psychoanalytic theories of melancholia to examine the implications of such an approach, tracing a genealogy of disaffection within modernist discourse. By examining the discursive practices of artists working across a wide range of media, and through a close analysis of artwork, philosophical debates, artist theories, and critical accounts, Adriasola Muñoz shows how negativity became an efficacious means of addressing politics as a source for the creative act of undoing. In examining ideas of the object advanced by artists and intellectuals both in writing and as part of their artwork, this book brings discussions in critical art history to bear on the study of art in Japan. It will be of interest to art historians specializing in modernism, the international avant-garde, Japanese art, and the history of photography.

Carnal Curses, Disfigured Dreams Kagami Jigoku Kobayashi, 2019-10-31 *Carnal Curses, Disfigured Dreams* presents an illustrated, annotated and indexed filmography of all pre-war and immediately post-war Japanese films in the genres of horror, fantasy, science fiction, and weird mystery, and is the first English-language book to do so. Due to Japan's rich tradition of ghost stories, heroic legends and folkloric hierarchy of demonic yokai, an unusually large percentage of films made in the country's early years of film production were based on phantastic myths and supernaturally-driven narratives. By 1915, a new genre of ninjutsu (secret combat techniques) films emerged, with many narratives involving shape-shifting and magic, giving rise to Japanese cinema's first wave of special-effects technicians. In the 1930s, low-budget exploitation companies such as Kyokuto and Zensho produced dozens of pulp horror movies, including a startling hybrid genre from Kyokuto which mixed samurai and robots. Zombies, vampires, mechanical men, mad scientists, monsters, killer apes, living statues, ghosts, demons - all the iconic figures of bizarre cinema can be found in Japan's early film output, filtered through that country's unique lens of culture and myth. *Carnal Curses, Disfigured Dreams* lists over 500 films in a detailed, chronological filmography, includes over 30 woodblock print illustrations, reproduces 65 extremely rare film production photographs and posters - most of which have never been published before, even in Japan - and concludes with an index of all films referenced in the text. *Japanese Film Perspectives* is a new series of historical studies based on new and original research, and anchored around never-before-seen photographic images.

Samurai, Warfare and the State in Early Medieval Japan Karl F. Friday, 2004-08-02 Karl Friday, an internationally recognised authority on Japanese warriors, provides the first comprehensive study of the topic to be published in English. This work incorporates nearly twenty years of on-going research and draws on both new readings of primary sources and the most recent secondary scholarship. It overturns many of the stereotypes that have dominated views of the period. Friday analyzes Heian -, Kamakura- and Nambokucho-period warfare from five thematic angles. He examines the principles that justified armed conflict, the mechanisms used to raise and deploy armed forces, the weapons available to early medieval warriors, the means by which they obtained them, and the techniques and customs of battle. A thorough, accessible and informative review, this study highlights the complex casual relationships among the structures and sources of early medieval political power, technology, and the conduct of war.

The Willow in Autumn Andrew Lawrence Markus,2020-10-26 In early nineteenth-century Japan—the “silver age” of Edo-period literature—Ryutei Tanehiko was a well-known author of popular illustrated fiction. This account of his life and works covers his early yomihon (lengthy romances of improbable perils and adventures) and his gokan (intricately plotted stories in simple language intended for a general audience). Special emphasis is given his most popular work—the illustrated serial *Nise Murasaki Inaka Genji* (An Impostor Murasaki and Rustic Genji), which ran for fourteen years—Japan’s first national bestseller. Andrew Markus deftly shows how Tanehiko transposed episodes of the eleventh-century *Genji monogatari* to a fifteenth-century Muromachi setting in a plot dependent on the conventions of nineteenth-century kabuki. Markus fleshes out Tanehiko’s diaries and the remarks of his contemporaries to create a fascinating picture of an author who, after years of spectacular success, fell victim to the Tenpo Reform promulgations against “morally inappropriate” publications and whose mysterious death sent shock waves through the publishing world.
