Southeast Asian Cartoon Art John A. Lent, 2014-01-24 This is the first overview of cartoon art in this important cultural nexus of Asia. The eight essays provide historical and contemporary examinations of cartoons and comics in Indonesia, the Philippines, Thailand, Cambodia, and Vietnam, and sociocultural and political analyses of cartooning in Singapore, Myanmar, and Malaysia. The collection benefits from hundreds of interviews with Southeast Asia's major cartoonists, conducted by the four contributors, as well as textual analyses of specific cartoons, on-the-spot observations, and close scrutiny of historical documents. All genres of printed cartoon art are studied, including political and humor cartoons, newspaper comic strips, comic books, and humor and cartoon periodicals. Topics of discussion and comparison with cartoon art of other parts of the globe include national identity, the transnational public sphere, globalization, alternative media forms, freedom of expression, consumerism, and corporatism. Southeast Asian cartoon art has a number of features unique to the region, such as having as pioneering cartoonists three countries' founding fathers, comics that gave their name to a national trait, some of the earliest graphic novels worldwide, and a king who hired a cartoonist to illustrate his books.

Animation: A World History Giannalberto Bendazzi, 2015-11-06 A continuation of 1994's groundbreaking *Cartoons*, Giannalberto Bendazzi's *Animation: A World History* is the largest, deepest, most comprehensive text of its kind, based on the idea that animation is an art form that deserves its own place in scholarship. Bendazzi delves beyond just Disney, offering readers glimpses into the animation of Russia, Africa, Latin America, and other often-neglected areas and introducing over fifty previously undiscovered artists. Full of first-hand, never before investigated, and elsewhere unavailable information, *Animation: A World History* encompasses the history of animation production on every continent over the span of three centuries. Volume III catches you up to speed on the state of animation from 1991 to present. Although characterized by such trends as economic globalization, the expansion of television series, emerging markets in countries like China and India, and the consolidation of elitist auteur animation, the story of contemporary animation is still open to interpretation. With an abundance of first-hand research and topics ranging from Nickelodeon and Pixar to modern Estonian animation, this book is the most complete record of modern animation on the market and is essential reading for all serious students of animation history. Key Features: Over 200 high quality head shots and film stills to add visual reference to your research Detailed information on hundreds of never-before researched animators and films Coverage of animation from more than 90 countries and every major region of the world Chronological and geographical organization for quick access to the information you're looking for

World authority on comic art Paul Gravett details the evolving meanings of the myths and legends told and retold by manga artists of every decade and reveals the development and cross pollination of ideas between manga artists throughout Asia. He explores the explosion of creativity in manga after the Second World War and highlights how creators have responded to political events since 1950 in the form of propaganda, criticism, and commentary in manga magazines,

With maps, timelines, and reproductions from Japan, China, Taiwan, North Korea, South Korea, Thailand, Malaysia, Indonesia, Cambodia, the Philippines, Vietnam, India, and Bangladesh, this book is the first to explain the significance of key themes, the meanings of embodied myths, and the connections between various manga traditions.
