Social Networks in China Xianhui Che,Barry Ip,2017-09-29 Social Networks in China provides an in-depth guide to Chinese social networks, covering behaviors, usage, key issues, and future developments. Chinese scholarship and cultural idiosyncrasies in technology remain a relatively under-researched area. While such issues may be sporadically reported in popular media, it is often difficult to obtain a true understanding of authentic Chinese behaviors and practices. One such study area delves into whether Chinese users utilize technology to socialize in the same ways as people from western societies. As no book currently exists to address issues concerning Chinese social networks, this book takes on that shortage and opportunity. Offers an exploration of Chinese social networks and Chinese online social behavior Addresses issues concerning Chinese social networks and their development Presented by authors with extensive experience working in China

**Chintrepreneurship or Shanzhai Model** Jiangning Zhao,2023-04-18 Theoretically, the formational and developmental mechanism of Shanzhai Model (the Chintrepreneurship, the China-way of Doing Business) theorized in this text, in addition to complying with the traditionally Western dominated frameworks of risk-taking-oriented, technology-oriented, resource-oriented, and speculation-oriented – also creates the peculiar or updated characteristics, complementary and supplementary to the existing theories of entrepreneurship and strategic management. The peculiar characteristics of Shanzhai Model may be attributed to the government policy guidance, from macroeconomic level, to technology development level, and to market expansion level, through the regulated cycle process of CCP government ‘Five-Year-Plan’. Such a dynamic process of government policy system determines the dynamisms of China economy, industry and enterprises, linking the previous weaknesses into the upgrade or rectification of the next five-year-plan, forcing enterprises to obligately upgrade or adjust their business and management operations (given the absolute autocracy of China government). Practically, the imitation-based cost-saving operations on the enterprise level, the ‘Wolf Like’ clustered industry-chain operations organized by the principle of ‘Risks-Resources-Benefits Sharing’ on the industry level, and the ‘Price-to-Performance’ products advantages on the market level – together, they have been contributing to the leapfrog of China economy, by taking advantages of increasingly globalized business environment and the network (Internet) information technology system, turning China into an economic Shanzhai, corruption Shanzhai, and a political Shanzhai, imposing the ‘One Belt One Road’ hegemonism on the harmony of international community. Is it too late? The contribution of this text material may benefit MBA, Ph.D students in management, and especially benefiting to those corporate executives. Regardless of De-Globalization or De-China campaigns, the flow of business is inevitably and eternally beyond the boundaries of countries one way or another, sooner or later. Note that, a document of year-to-year government policies is prepared, interested, contact Dr. Johnny by email: [jiangning.zhao@yahoo.com](mailto:jiangning.zhao@yahoo.com); or by phone: 001-604-773-0783, or 001-778-655-1016.

*Chinese Maritime Cases* Martin Davies, Jiang Lin, 2021-11-24 This book selects leading, innovative and influential Chinese maritime judgments and presents full translation of them, with brief summary, to the readers so that they can have insights of how the Chinese maritime judges interpret, apply and develop Chinese maritime law in practice. China trades with other states in trillions of USD every year, and about 95% of the cargoes are carried by ocean-going ships calling at hundreds of Chinese ports each single day. Due to the enormous and steadily growing trade volume and shipping activities, foreign ships, companies and persons are often caught by the Chinese maritime law and court. The parties involved and their lawyers are more than ever enthusiastic to study Chinese maritime cases in order to deal with their own cases properly or, if possible, predict the potential problems and avoid the disputes outright. The book is appealing to and benefits worldwide law students, academics, practitioners and industrial people in the shipping, trade, insurance and financial fields. The book remedies to certain extent the situation that there is lack of authoritative sources available to foreign personnel to look into how Chinese justice system functions.

**Staging for the Emperors** Liana Chen (Assistant professor), 2021 Theatrical performance occupied a central place in the emotional and political life of the Qing dynasty imperial household. For over two centuries, the Qing court poured a tremendous amount of human and material resources into institutionalizing the theatrical arts for the purposes of entertainment and edification. The emperors and empresses were ardent patrons and key players in establishing an artistic form that the court theatre called its own. They went to great lengths to cultivate a discerning taste in theatre and oversaw the artistic and managerial aspects of court theatrical activities. In the imperial theatrical spaces within and outside the Forbidden City, which were designed and built with the capacity to produce stunning visual effects, theatrical productions were staged to entertain imperial family members

and to impress obeisance-paying guests from near and afar. Treating Qing dynasty court theatre as a unique site in which to examine important but uncharted realms of Chinese theatrical experience, *Staging for the Emperor* examines two distinct and interlocking dimensions of the Qing court theatre-the vicissitudes of the palace troupe and the multifaceted functions of court-commissioned ceremonial dramas-to highlight the diverse array of views held by individual rulers as they used theatrical means to promote their personal and political agendas. Drawing on recently discovered materials from a variety of court administrative bureaus, memoirs, diaries, and play scripts written for court ceremonial occasions, this study places the history of Qing court theatre in the broader context of Qing cultural and political history. *Staging for the Emperors* would appeal to readers interested in China studies and performance studies. It would also appeal to those outside the field of China studies who are interested in developing a cross-cultural perspective on the interplay between state rituals, power, identity formation, and theatrical experiences--

Confucianism, Buddhism, Daoism, Christianity and Chinese Culture Yijie Tang, 2015-02-06 This book collects the 25 most important articles written by Professor Tang since the 1980s, dealing extensively with issues of Confucianism, Buddhism, Daoism, Christianity and Chinese culture. In these articles, Professor Tang proves his value as a worthy successor to the Chinese philosophical tradition, while also open to the latest trends of thought both at home and abroad. The late Professor Tang Yijie (1927-2014) was a prominent professor at Peking University and China's top scholar on philosophy and Chinese studies. He spearheaded the Confucian Canon project (\*\*), which seeks to compile all known classical works on Confucianism,

comparable in scope and significance to the Complete Library of the Four Treasuries (\*\*\*\*), the largest collection of books on Chinese history, which was commissioned by the Qianlong Emperor in the 18th century. Throughout his life, Professor Tang published scores of books and more than one hundred articles, offering enlightening insights into how to deal with issues that have historically troubled and continue to trouble people in modern society. Among his numerous innovations, Professor Tang is especially remembered for introducing the concept of “harmony in diversity”(\*\*\*\*). In the context of “the clash of civilizations” championed by Samuel P. Huntington, Tang argued for harmony in diversity, holding that this principle can offer some clues to help enable peoples, nations, and regions with different cultural traditions to develop together while remaining unique. note: \* represents Chinese character, please refer to BCC file.
