Building A New India G Venkata Prasad,2023-08-19 India has a promising opportunity to emerge as a dominant Economic Power. To accomplish this objective, two key prerequisites are essential: the infusion of greater investments to develop world-class infrastructure, and the establishment of a strong construction industry capable of executing large-scale projects within set timelines. Building New India is an all-encompassing publication that delves into the potential of India's construction industry, considering the significant impetus provided by the Indian government. Authored by G Venkata Prasad, a respected figure with over four decades of experience in the Indian construction industry, the book offers an analysis of the industry's current state and a roadmap for its future trajectory. It addresses critical concerns such as delays and cost overruns, skilled labour shortages, adoption of innovative technologies, climate change mitigation, and the development of efficient contracting capabilities. Additionally, the book places considerable emphasis on nurturing future leaders who can successfully spearhead major infrastructure projects. Drawing inspiration from global best practices across diverse domains, Building New India encourages India to set ambitious goals and overhaul its work practices. It underscores the importance of collaboration among all stakeholders to enhance the industry's efficiency and leverage its immense potential for the nation's advancement.

International Financial Statistics, November 2018 International Monetary Fund. Statistics Dept.,2018-11-01 This November 2018 issue of International Financial Statistics (IFS) is a standard source of statistics on all aspects of international and domestic finance. IFS, Balance of Payments Statistics, Direction of Trade Statistics, and Government Finance Statistics are available on CD-ROM by annual subscription. The CD-ROMs incorporate a Windows-based browser facility, as well as a flat file of the database in scientific notation. The country tables normally include data on a country's exchange rates, IMF position, international liquidity, monetary statistics, interest rates, prices, production, labor, international transactions, government accounts, national accounts, and population. Selected series, including data on IMF accounts, international reserves, and international trade, are drawn from the country tables and published in world tables as well. The monthly printed issue of IFS reports current monthly, quarterly, and annual data, while the yearbook reports 12 observations of annual data. In IFS, exchange rates are expressed in time series of national currency units per SDR and national currency units per US dollar, or vice versa.

International Financial Statistics, January 2019 International Monetary Fund. Statistics Dept.,2019-01-04 This January 2019 monthly issue of International Financial Statistics (IFS) contains country tables for most IMF members, as well as for Anguilla, Aruba, the Central African Economic and Monetary Community, Curaçao, the currency union of Curaçao and Sint Maarten, the Eastern Caribbean Currency Union, the euro area, Montserrat, the former Netherlands Antilles, Sint Maarten, the West African Economic Monetary Union, West Bank and Gaza, and some non-sovereign territorial entities for which statistics are provided internationally on a separate basis. Exchange rates in IFS are classified into three broad categories, reflecting the role of the authorities in determining the rates and/or the multiplicity of the exchange rates in a country. The three categories are the market rate, describing an exchange rate determined largely by market forces; the official rate, describing an exchange rate determined by the authorities—sometimes in a flexible manner; and the principal, secondary, or tertiary rate, for countries maintaining multiple exchange arrangements.
