**The Ship with No Name** Christopher Nicole,1995

*Japanese Destroyer Captain* Tameichi Hara,2011-08-15 This highly regarded war memoir was a best seller in both Japan and the United States during the 1960s and has long been treasured by historians for its insights into the Japanese side of the surface war in the Pacific. The author was a survivor of more than one hundred sorties against the Allies and was known throughout Japan as the Unsinkable Captain. A hero to his countrymen, Capt. Hara exemplified the best in Japanese surface commanders: highly skilled (he wrote the manual on torpedo warfare), hard driving, and aggressive. Moreover, he maintained a code of honor worthy of his samurai grandfather, and, as readers of this book have come to appreciate, he was as free with praise for American courage and resourcefulness as he was critical of himself and his senior commanders.

Automating Vision Anthony McCosker,Rowan Wilken,2020-03-26 Automating Vision explores the rise of seeing machines through four case studies: facial recognition, drone vision, mobile and locative media and driverless cars. Proposing a conceptual lens of camera consciousness, which is drawn from the early visual anthropology of Gregory Bateson and Margaret Mead, Automating Vision accounts for the growing power and value of camera technologies and digital image processing. Behind the smart camera devices examined throughout the book lies a set of increasingly integrated and automated technologies underpinned by artificial intelligence, machine learning and image processing. Seeing machines are now implicated in growing visual data markets and are supported by emerging layers of infrastructure that they coproduce. In this book, Anthony McCosker and Rowan Wilken address the social impacts, the disruptions and reconfigurations to existing digital media ecosystems, to urban environments and to mobility and social relations that result from the increasing automation of vision and explore how it might be possible to ensure a safe and equitable future as we learn to see with and negotiate the interventions of seeing machines. This book will appeal to students and scholars in media, communication, cultural studies, sociology of media and science and technology studies. **The Occupied Clinic** Saiba Varma,2020-09-21 In *The Occupied Clinic*, Saiba Varma explores the psychological, ontological, and political entanglements between medicine and violence in Indian-controlled Kashmir—the world's most densely militarized place. Into a long history of occupations, insurgencies, suppressions, natural disasters, and a crisis of public health infrastructure come interventions in human distress, especially those of doctors and humanitarians, who struggle against an epidemic: more than sixty percent of the civilian population suffers from depression, anxiety, PTSD, or acute stress. Drawing on encounters between medical providers and patients in an array of settings, Varma reveals how colonization is embodied and how overlapping state practices of care and violence create disorienting worlds for doctors and patients alike. Varma shows how occupation creates worlds of disrupted meaning in which clinical life is connected to political disorder, subverting biomedical neutrality, ethics, and processes of care in profound ways. By highlighting the imbrications between humanitarianism and militarism and between care and violence, Varma theorizes care not as a redemptive practice, but as a fraught sphere of action that is never quite what it seems.

Burnt Shadows Kamila Shamsie,2009-05-29 Longlisted for the Orange Prize for Fiction (now Women's Prize for Fiction) Winner of the Anisfield-Wolf Book Award Nagasaki, August 9, 1945. Hiroko Tanaka watches her lover from the veranda as he leaves. Sunlight streams across Urakami Valley, and then the world goes white. In the devastating aftermath of the atomic bomb, Hiroko leaves Japan in search of new beginnings. From Delhi, amid India's cry for independence from British colonial rule, to New York City in the immediate wake of 9/11, to the novel's astonishing climax in Afghanistan, a violent history casts its shadow the entire world over. Sweeping in its scope and mesmerizing in its evocation of time and place, this is a tale of love and war, of three generations, and three world-changing historic events. Kamila Shamsie's *Burnt Shadows* is an enthralling meta-cultural epic, the panoramic tale of two families tangled together in some of the most devastating conflicts of modern history.

*Chasing a Mirage* Tarek Fatah,2008-05-09 In *Chasing a Mirage*, Tarek Fatah Writes: Islamists argue that the period following the passing away of Muhammad was Islam's golden era and that we Muslims need to re-create that caliphate to emulate that political system in today's world. I wish to demonstrate that when Muslims buried the Prophet, they also buried with him many of the universal values of Islam that he had preached. The history of Islam can be described essentially as the history of an unending power struggle, where men have killed each other to claim the mantle of Muhammad. This strife is a painful story that started within hours of the Prophet closing his eyes forever, and needs to be told. I firmly believe the message of the Quran is strong enough to withstand the facts of history. It is my conviction that Muslims are mature and secure in their identities to face the truth. This is that story. Advance Praise for *Chasing a Mirage* Tarek Fatah has written a provocative and challenging book which is a must read for anyone who cares about these issues. —Janice Gross Stein *Chasing a Mirage* is an extremely valuable contributing to the fight by progressive Muslims against Islamist fascism. This book should be required reading for the Left in the West who have mistakenly started believing that Islamists represent some sort of anti-imperialism. —Farooq Tariq Fatah argues passionately for universalism instead of exclusivism, integration instead of ghettoism, and makes a powerful appeal for the silent majority of Muslims to speak out before it is too late. This work of courage and daring needs to be read widely. —Pervez Hoodbhoy This fascinating work by brave and brilliant Tarek Fatah is simultaneously thought-provoking, instructive and enlightening for laymen and scholars, Muslims and non-Muslim...an invaluable and rare addition to the corpus of Islamic literature in the post-9/11 world, a bold step towards Islamic Reformation and Enlightenment. —Taj Hashmi Tarek Fatah's is a voice that needs to be heard. Canada needs a healthy, reasoned debate about the issues he is raising, and indeed so does the world. —Bob Rae This fascinating work by brave and brilliant Tarek Fatah is simultaneously thought-provoking, instructive and enlightening for laymen and scholars, Muslim and non-Muslim... an invaluable and rare addition to the corpus of Islamic literature in the post-9/11 world, a bold step towards Islamic Reformation and Enlightenment. —Taj Hashmi Tarek Fatah's is a voice that needs to be heard. *The Story of the World* Susan Wise Bauer,2006 This read-aloud series is designed for parents to share with elementary-school children, or for older readers to enjoy alone --

**Buda's Wagon** Mike Davis,2017-01-17 On a September day in 1920, an angry Italian anarchist named Mario Buda exploded a horse-drawn wagon filled with dynamite and iron scrap near New York's Wall Street, killing 40 people. Since Buda's prototype the car bomb has evolved into a poor man's air force, a generic weapon of mass destruction that now craters cities from Bombay to Oklahoma City. In this provocative history, Mike Davis traces the its worldwide use and development, in the process exposing the role of state intelligence agencies-particularly those of the United States, Israel, India, and Pakistan-in globalizing

urban terrorist techniques. Davis argues that it is the incessant impact of car bombs, rather than the more apocalyptic threats of nuclear or bio-terrorism, that is changing cities and urban lifestyles, as privileged centers of power increasingly surround themselves with rings of steel against a weapon that nevertheless seems impossible to defeat.

**Homophones and Homographs** ,2014-11-01 This expanded fourth edition defines and cross-references 9,040 homophones and 2,133 homographs (up from 7,870 and 1,554 in the 3rd ed.). As the most comprehensive compilation of American homophones (words that sound alike) and homographs (look-alikes), this latest edition serves well where even the most modern spell-checkers and word processors fail--although rain, reign, and rein may be spelled correctly, the context in which these words may appropriately be used is not obvious to a computer.

**Twelve Years a Slave** Solomon Northup,2024-01-04 Filmatized in 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Nortup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US,on behalf of the abolitionist movement. 'Twelve Years a Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Understanding Health Anne-Marie Barry,Chris Yuill,2003-02-28 'The authors are to be commended on a very clear text, easily communicating the insights of a wide range of theoretical perspectives, and marshalling clear empirical evidence for the arguments of the sociology of health' - Health Sociology Review 'The book is well set out and easy to read with signposts provided throughout linking key concepts and topics to aid understanding. The diagrams and tables are clear and well labelled, adding to the reader's knowledge of the topic' - Accident and Emergency Nursing 'In their introduction to Understanding Health Barry and Yuill define their aim in writing this book as to provide an introduction to the sociology of health to both health and social science students. To fulfill this aim a generalist and non-specialist approach is needed and unsurprisingly this is the one that they take. However, they do not fall into the potential of trap of providing the glib and simplistic approach that is characteristic of some of the other teaching texts with similar aims ...In summary Barry and Yuill have produced a clearly written and organized basic text on the sociology of health. It is properly and commendably sociological and may well have a market beyond its modest aim of non-specialist courses - Critical Public Health 'Lucidly written in simple language to explain very complex sociological concepts, it is well-rooted in history while providing the latest developments in the field of health... an immensely readable book' - The National Medical Journal of India 'Clearly and concisely explains what sociology is and how it contributes to our understanding of health. The text serves anyone wishing to broaden their own understanding of the topic or as an introduction for anyone new to the field. In all, it is an informative text that will be a valuable addition to the bookshelf of any student dietitian or those involved in working with, or teaching health care students' - Journal of Human Nutrition and Dietetics A comprehensive and accessible introduction to the sociology of health and illness, written for students on a wide range of courses. This book clearly explains what sociology is and how it contributes to our understanding of health. Beginning with an overview of the discipline, the authors set out the different theoretical perspectives offered by sociology. They describe how, for centuries, our understanding of health and illness has been dominated by the medical model and a focus on disease processes. In contrast, they show how sociology provides a broader understanding of health and inequalities in the health of populations by taking account of factors such as age, social class, gender and environment. The book goes on to explore the social context of health care, the role of different professions (particularly the professions allied to medicine) and the organizational constraints on those involved in health care delivery. This textbook is designed for students studying sociology as part of a wide range of courses. To help them get the most from the book, signposts are provided throughout that show where related topics appear elsewhere in the text. Other useful features include discussion points, definitions of key terms, and suggestions for further reading.
