The Workings of Kamma The Pa-Auk Tawya Sayadaw,2012-10-31 Over the years, as he has encountered 'Western Buddhists', meditation master the Most Venerable Pa-Auk Tawya Sayadaw has seen the need for a thorough explanation of the workings of kamma in English. To that end he has composed *The Workings of Kamma*. It is a detailed analysis and discussion of the workings of kamma, in accordance with the Pali Texts: Vinaya, suttas, Abhidhamma, and the authoritative commentaries and subcommentaries. First, the Most Venerable Sayadaw gives a detailed discussion of how beings run on from life to life because of a belief in self, founded in craving and ignorance: he explains how those two factors are prime movers in the working of kamma. Next, he gives a comprehensive and practical analysis of the workings of kamma according to the roots of consciousness. That includes a practical and systematic analysis of the three merit-work bases: offering, morality, and meditation. Then, he analyses the ten courses of

unwholesome and wholesome kamma: killing, stealing, sexual misconduct, etc., and non-killing, non-stealing, etc. He discusses also the results of kamma: rebirth in hell, as a ghost, animal, human-, or celestial being. Mundane wholesome kamma unique to a Buddha's Dispensation he discusses as knowledge and conduct: necessary for future attainment of Nibbāna. Afterwards, he explains The Buddha's twelve categories of kamma: four for time of effect, four for order of effect, and four for function of effect. And he discusses how they operate over past, future, and present, and how their workings depend also on the achievement/failure of a certain rebirth, appearance, time, and means. Then comes a lengthy discussion of 'The Small Kamma-Analysis Sutta'. There The Buddha discusses how kamma accounts for the superiority/inferiority of people. Next is a discussion of how a being's kamma 'paints a picture' of a being, who is in fact nothing more than the five aggregates. And finally, there is a detailed discussion of the gradual unworking of the potency of kamma with the insight knowledges leading up to the Stream-Entry Path Knowledge, etc. up to Arahantship. It ends with a detailed discussion of the Arahant's Parinibbāna, and what this means in practical terms. The Most Venerable Sayadaw gives many examples, with continuous reference to the Pali Texts. He cites and explains also the dangers of holding to a wrong view that denies the workings of kamma. And he explains the necessity for seeing the workings of kamma oneself with direct knowledge, explaining that one is otherwise unable to understand the Second Noble Truth: the Noble Truth of the Origin of Suffering. There is also a detailed analysis of the transition from one life to the next, and many charts help the reader understand the explanations on the practical level of consciousness and mental factors. Accumulation in Post-Colonial Capitalism Iman Kumar Mitra,Ranabir Samaddar,Samita Sen,2016-07-29 This volume looks at how accumulation in postcolonial capitalism blurs the boundaries of space, institutions, forms, financial regimes, labour processes, and economic segments on one hand, and creates zones and corridors on the other. It draws our attention to the peculiar but structurally necessary coexistence of both primitive and virtual modes of accumulation in the postcolony. From these two major inquiries it develops a new understanding of postcolonial capitalism. The case studies in this volume discuss the production of urban spaces of capital extraction, institutionalization of postcolonial finance capital, gendering of work forms, establishment of new forms of labour, formation of and changes in caste and racial identities and networks, and securitization—and thereby confirm that no study of contemporary capitalism is complete without thoroughly addressing the postcolonial condition. By challenging the established dualities between citizenship-based civil society and welfare-based political society, exploring critically the question of colonial and postcolonial difference, and foregrounding the material processes of accumulation against the culturalism of postcolonial studies, this volume redefines postcolonial studies in South Asia and beyond. It is invaluable reading for students and scholars of South Asian studies, sociology, cultural and critical anthropology, critical and praxis studies, and political science.

This study shows how religious (denominational and spiritual) dilemmas, political agendas, and shifting social consensus became inextricably entangled in the wider German encounter with India during the Kaiserreich.

Simas Jason A. Carbine,Erik W. Davis,2022-01-31 Human-fashioned boundaries transform spaces by introducing dualisms, bifurcations, creative symbioses, contradictions, and notions of inclusion and exclusion. The Buddhist boundaries considered in this book, *sīmās*—a term found in South and Southeast Asian languages and later translated into East Asian languages—come in various shapes and sizes and can be

established on land or in bodies of water. Sometimes, the word *sīmā* refers not only to a ceremonial boundary, but the space enclosed by the boundary, or even the markers (when they are used) that denote the boundary. *Sīmās* were established early on as places where core legal acts (*kamma*), including ordination, of the monastic community (*sangha*) took place according to their disciplinary codes. *Sīmās* continue to be deployed in the creation of monastic lineages and to function in diverse ways for monastics and non-monastics alike. As foundations of Buddhist religion, *sīmās* are used to sustain, revitalize, or reform Buddhist practices, notions of identity, and conceptualizations of time and history. In the last few decades, scholarly awareness of and expertise on *sīmās* has developed to a point where a volume like this one, which examines *sīmās* across numerous cultural contexts and scholarly fields of inquiry, is both possible and needed. *Sīmā* traditions expressed in the Theravāda cultures of Myanmar, Thailand, Laos, Cambodia, Bangladesh, and Sri Lanka constitute the dominant focus of the work; a chapter on East Asia raises questions of historical transmission beyond these areas. Throughout contributors engage texts; history; archaeology; politics; art; ecology; economics; epigraphy; legal categories; mythic narratives; understandings of the cosmos; and conceptualizations of compassion, authority, and violence. Examining *sīmās* through multiple perspectives allows us to look at them in their contextual specificity, in a way that allows for discernment of variation as well as consistency. *Sīmā* spaces can be both simple and extremely intricate, and this book helps show why and how that is the case.

This-Worldly Nibbāna Hsiao-Lan Hu, 2011-12-01 Offering a feminist analysis of foundational Buddhist texts, along with a Buddhist approach to social issues in a globalized world, Hsiao-Lan Hu revitalizes Buddhist social ethics for contemporary times. Hu's feminist exegesis references the *Nikāya-s* from the Discourse Basket of the Pāli Canon. These texts, among the earliest in the Buddhist canon, are considered to contain the sayings of the Buddha and his disciples and are recognized by all Buddhist schools. At the heart of the ethics that emerges is the Buddhist notion of interdependent co-arising, which addresses the sexism, classism, and frequent overemphasis on individual liberation, as opposed to communal well-being, for which Buddhism has been criticized. Hu notes the Buddha's challenge to social hierarchies during his life and compares the notion of non-Self to the poststructuralist feminist rejection of the autonomous subject, maintaining that neither dissolves moral responsibility or agency. Notions of *kamma*, *nibbāna*, and *dukkha* (suffering) are discussed within the communal context offered by insights from interdependent co-arising and the Noble Eightfold Path. This work uniquely bridges the worlds of Buddhism, feminism, social ethics, and activism and will be of interest to scholars, students, and readers in all of these areas.

The Culture of Giving in Myanmar Hiroko Kawanami, 2020-06-11 How can people living in one of the poorest countries in the world be among the most charitable? In this book, Hiroko Kawanami examines the culture of giving in Myanmar, and explores the pivotal role that Buddhist monastic members occupy in creating a platform for civil society. Despite having at one time been listed as one of the poorest countries in the world in GNP terms, Myanmar has topped a global generosity list for the past four years with more than 90 percent of the population engaged in 'giving' activities. This book explores the close relationship that Buddhists share with the monastic community in Myanmar, extending observations of this relationship into an understanding of wider Buddhist cultures. It then examines how deeply the reciprocal transactions of giving and receiving in society – or interdependent living – are implicated in the Buddhist faith. *The Culture of Giving in Myanmar* fills a gap in research on Buddhist offerings in Myanmar, and is an important contribution to the growing field of Myanmar studies and anthropology of Buddhism.
