Project Independence Blueprint United States. Federal Energy
Administration,1974 What is Project Independence? The sources and uses of
energy in the United States have changed dramatically in the last several
decades. As a result, in just one generation, we have shifted from a position
of domestic energy abundance to a substantial and continually growing
reliance on foreign energy sources. Project Independence is a wide-ranging
program to evaluate this growing dependence on foreign sources of energy, and
to develop positive programs to reduce our vulnerability to future oil cut-
offs and price increases.
