**The Technologisation of the Social** Paul O'Connor, Marius Ion Benta, 2021-12-31 In an era of digital revolution, artificial intelligence, big data and augmented reality, technology has shifted from being a tool of communication to a primary medium of experience and sociality. Some of the most basic human capacities are increasingly being outsourced to machines and we increasingly experience and interpret the world through digital interfaces, with machines becoming ever more 'social' beings. Social interaction and human perception are being reshaped in unprecedented ways. This book explores this technologisation of the social and the attendant penetration of permanent liminality into those aspects of the lifeworld where individuals had previously sought some kind of stability and meaning. Through a historical and anthropological examination of this phenomenon, it problematises the underlying logic of limitless technological expansion and our increasing inability to imagine either ourselves or our world in other than technological terms. Drawing on a variety of concepts from political anthropology, including liminality, the trickster, imitation, schismogenesis, participation, and the void, it interrogates the contemporary technological revolution in a manner that will be of interest to sociologists, social and anthropological theorists and scholars of science and technology studies with interests in the digital transformation of social life.

**The Third Industrial Revolution** Jeremy Rifkin, 2011-10-04 The Industrial Revolution, powered by oil and other fossil fuels, is spiraling into a dangerous endgame. The price of gas and food are climbing, unemployment remains high, the housing market has tanked, consumer and government debt is soaring, and the recovery is slowing. Facing the prospect of a second collapse of the global economy, humanity is desperate for a sustainable economic game plan to take us into the future. Here, Jeremy Rifkin explores how Internet technology and renewable energy are merging to create a powerful Third Industrial Revolution. He asks us to imagine hundreds of millions of people producing their own green energy in their homes, offices, and factories, and sharing it with each other in an energy internet, just like we now create and share information online. Rifkin describes how the five-pillars of the Third Industrial Revolution will create thousands of businesses, millions of jobs, and usher in a fundamental reordering of human relationships, from hierarchical to lateral power, that will impact the way we conduct commerce, govern society, educate our children, and engage in civic life. Rifkin's vision is already gaining traction in the international

community. The European Union Parliament has issued a formal declaration calling for its implementation, and other nations in Asia, Africa, and the Americas, are quickly preparing their own initiatives for transitioning into the new economic paradigm. The Third Industrial Revolution is an insider's account of the next great economic era, including a look into the personalities and players – heads of state, global CEOs, social entrepreneurs, and NGOs – who are pioneering its implementation around the world.

**Why Karen Carpenter Matters** Karen Tongson, 2019-06-01 In the '60s and '70s, America's music scene was marked by raucous excess, reflected in the tragic overdoses of young superstars such as Jimi Hendrix and Janis Joplin. At the same time, the uplifting harmonies and sunny lyrics that propelled Karen Carpenter and her brother, Richard, to international fame belied a different sort of tragedy—the underconsumption that led to Karen's death at age thirty-two from the effects of an eating disorder. In *Why Karen Carpenter Matters*, Karen Tongson (whose Filipino musician parents named her after the pop icon) interweaves the story of the singer's rise to fame with her own trans-Pacific journey between the Philippines—where imitations of American pop styles flourished—and Karen Carpenter's home ground of Southern California. Tongson reveals why the Carpenters' chart-topping, seemingly whitewashed musical fantasies of normal love can now have profound significance for her—as well as for other people of color, LGBT+ communities, and anyone outside the mainstream culture usually associated with Karen Carpenter's legacy. This hybrid of memoir and biography excavates the destructive perfectionism at the root of the Carpenters' sound, while finding the beauty in the singer's all too brief life.

*Rage Against the Minivan* Kristen Howerton, 2020-06-09 “Howerton writes unflinchingly about what it means to be raising children in today’s world and how to liberate ourselves from the myth of perfect motherhood.”—Glennon Doyle, author of *Untamed* and *Love Warrior*, founder of Together Rising In this smart and subversively funny memoir, Kristen Howerton navigates the emotional and sometimes messy waters of motherhood and challenges the idea that there’s a “right” way to raise kids. Recounting her successes, trials, mishaps, and hard-won wisdom, this mother of four advocates for letting go of the expectations, the guilt, and the endless race to be the perfect parent to the perfect child in the perfect family. This book is for ● the parent who loves their kids like crazy but feels like parenting is making them crazy, too ● the parent who said “I will never . . .” and now they have ● the parent who looks like they have it all together but feels like a hot mess on the inside ● the parent who looks like a hot mess on the outside, too ● the parent who asks Am I good enough? Doing enough? Doing it right? What’s wrong with me? What’s wrong with these children? Are they eighteen yet? With her signature blend of vulnerability, sarcasm, and insight, Howerton shares her unexpected journey from infertility to adoption to pregnancy to divorce to dealing with the shock and awe of raising teens. As a mom of a multiracial family and as a marriage and family therapist, she tackles the thorny issues parents face today, like hard conversations about racism, disciplining other people’s kids, the reality of Dad Privilege, and (never) attaining that elusive work/life balance. *Rage Against the Minivan* is a permission slip to let it go and allow yourself to be a “good enough” parent, focused on raising happy, kind, loving humans.

**Born a Crime** Trevor Noah, 2016-11-15 #1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A “brilliant” (Lupita Nyong’o, Time), “poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Time, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man’s relationship with his fearless, rebellious, and fervently religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns

hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

Their discoveries force them to challenge the standard idea that rural culture and people are backward, conservative, and intolerant. We present an alternate story, one that delights in capturing technology in all its contradictions and innovation, across borders and socioeconomic divisions, from history through the future, beyond platitudes and PR hype, and past doom and gloom.
