First, his dojo announces a create-your-own kata contest to take place the same day as his belt test. Now he's torn between practicing for the test and making up a series of moves that will knock his sensei's socks off. *In the Dojo* Dave Lowry, 2006-09-26 Beginning students in Japanese martial arts, such as karate, judo, aikido, iaido, kyudo, and kendo, learn that when they are in the dojo (the practice space), they must don their practice garb with ritual precision, address their teacher and senior students in a specific way, and follow certain unwritten but deeply held codes of behavior. But very soon they begin to wonder about the meaning behind the traditions, gear, and relationships in the dojo. In this collection of lively, detailed essays, Dave Lowry, one of the most well-known and respected swordsmen in the United States, illuminates the history and meaning behind the rituals, training costumes, objects, and relationships that have such profound significance in Japanese martial arts, including • the dojo space itself • the teacher-student relationship • the act of bowing • what to expect—and what will be expected of you—when you visit a dojo • the training weapons • the hakama (ceremonial skirt) and dogi (practice uniform) • the Shinto shrine Authoritative, insightful, and packed with fascinating stories from his own experience, *In the Dojo* provides a wealth of information that beginning students will pore over and advanced students will treasure.

*The Can-Do Karate Kid* Jenifer Tull-Gauger, 2019-05 Makoto, a karate kid, is well-acquainted with Laziness and Procrastination. These character traits are embodied as a blue slug monster and a green and blue snail that can change sizes. They are his constant companions and the slothful life with them is fine with Makoto. But then, on the way to his karate belt test, Makoto realizes that Laziness and Procrastination influenced him to leave his uniform top at home. He comes up with the great idea of borrowing a top, so he won't have to go back for it and miss his test. After he arrives late, his good friend, Michi, tests without him while Makoto sits, embarrassed and confused at the edge of the training mat. After he finds out that you are not allowed to arrive late to a karate test, his parents let him feel the repercussions of his slothful actions. They insist that they and he sit down to have a talk with the head karate instructor. Makoto realizes that Laziness and Procrastination are causing him problems in other areas of life like school. Not to mention he can't seem to get his parents off his back with their constant nagging. He learns that Laziness and Procrastination are his enemies. He decides to use his karate school's Dojo Kun to fight Laziness and Procrastination with such character traits as doing his best, perseverance, respect and self-discipline. It's not easy to do this, day in and day out, but Makoto feels great when he meets his goals of finishing his reading book and getting to school on time. He finds his power, which over time results in him being invited to test again. This time, Makoto shows up on time and prepared for his test with no sign of Laziness or Procrastination. He does his best work, passes the test for a new belt, and feels prouder than ever. After that, Laziness and Procrastination sometimes challenge Makoto to a re-match, but now he knows how to successfully defeat them by using the Dojo Kun. That's how he becomes The Can-Do Karate Kid.

*Mastery Mind-Set* Craig R. E. Krohn, 2013-12-10 In the world of martial arts, many things that look amazing are less so in reality; they seem impressive but are impractical at best. In *Mastery Mind-Set*, author Craig R. E. Krohn delivers a real martial arts methodology that focuses on internal techniques through which truly amazing things are possible. Derived from masters of Okinawa and Japanese arts, Krohn's methods demonstrate how to approach your training in a manner that can help you achieve a higher level of mastery. After a primer on the fundamentals of the mastery mind-set, Krohn delves into the concept of internal power, which helps the practitioner find a sense of body connectedness that allows the absorption of full-power blows without injury. In addition, *Mastery Mind-Set* shows how internal power can be used to create devastating punches and kicks that can disrupt internal organs and shatter an opponent's defenses. This guide discusses specific techniques and challenges the practitioner to let go of outdated training practices that might be hindering his or her development. It presents mental exercises that can transform an external martial art practice into an internal one. Krohn shows that, with practice and mental conditioning, powerful secrets can be applied to your martial arts and your life to allow you to perform the impossible.
