*Chewy Goopy Crispy Crunchy Melt-in-Your-Mouth Cookies* by Alice Medrich  
Alice Medrich, 2010-11-12 2010 IACP Baking Book of the Year With recipes organized by texture! Flaky, gooey, crunchy, crispy, chewy, chunky, melt-in-your-mouth . . . Cookies are easy, enticing, and fun. Yet as the award-winning baker Alice Medrich notes, too often, home cooks cling to the recipe on the bag of chocolate chips, when so much more is possible. "What if cookies reflected our modern culinary sensibility—our spirit of adventure and passion for flavors and even our dietary concerns?" Medrich writes in her introduction to this landmark cookie cookbook, organized by texture, from crunchy to airy to chunky. An inveterate tester and master manipulator of ingredients, she draws on the world's pantry of ingredients for such delicious riffs on the classics as airy meringues studded with cashews and chocolate chunks, palmiers (elephant's ears) made with cardamom and caramel, and rugelach with halvah. Butter and sugar content is slashed and the flavor turned up on everything from ginger snaps to chocolate clouds. From new spins on classic recipes including chocolate-chip cookies and brownies, to delectable 2-point treats for Weight Watchers, to cookies to make with kids, this master conjurer of sweets will bring bliss to every dessert table.

*Die Empty* Todd Henry, 2015-04-28 "A must-read for anyone interested in moving from inspiration to action." —Cal Newport, author of *So Good They Can't Ignore You* Most of us fill our days with frantic activity, bouncing

from task to task, scrambling to make deadlines and chase the next promotion. But by the end of each day we're often left wondering if any of it really mattered. We feel the ticking of the clock, but we're unsure of the path forward. *Die Empty* is a tool for people who aren't willing to put off their most important work for another day. Todd Henry explains the forces that lead to stagnation and introduces practices that will keep you on a true and steady course. The key is embracing the idea that time is finite, so you should focus on the unique contribution to the world that only you can make. Henry shows how to sustain your enthusiasm, push through mental barriers, and unleash your best work each day.

*Size 14 Is Not Fat Either* Meg Cabot, 2009-03-17 Former pop star Heather Wells has settled nicely into her new life as assistant dorm director at New York College—a career that does not require her to drape her size 12 body in embarrassingly skimpy outfits. She can even cope (sort of) with her rocker ex-boyfriend's upcoming nuptials, which the press has dubbed The Celebrity Wedding of the Decade. But she's definitely having a hard time dealing with the situation in the dormitory kitchen—where a cheerleader has lost her head on the first day of the semester. (Actually, her head is accounted for—it's her torso that's AWOL.) Surrounded by hysterical students—with her ex-con father on her doorstep and her ex-love bombarding her with unwanted phone calls—Heather welcomes the opportunity to play detective . . . again. If it

gets her mind off her personal problems—and teams her up again with the gorgeous P.I. who owns the brownstone where she lives—it's all good. But the murder trail is leading the average-sized amateur investigator into a shadowy world. And if she doesn't watch her step, Heather will soon be singing her swan song!

*Ilokano Dictionary* Ernesto Constantino, 2019-03-31 The Philippines series of the PALI Language Texts, under the general editorship of Howard P. McKaughan, consists of lesson textbooks, grammars, and dictionaries for seven major Filipino languages. Ilokano is an Austronesian language. It ranks third among the major languages of the Philippines, being spoken by just over 12 percent of the population. Widely spoken throughout the Philippines, Ilokano is the dominant language of most of the provinces of Northern Luzon and is used as a lingua franca by non-Ilokano speakers in this area. Settlers have also carried the language to Mindoro and to several areas in Mindanao. The Ilokano dictionary was developed under the auspices of the Pacific and Asian Linguistics Institute (PALI) of the University of Hawaii, and accompanies the Ilokano reference grammar by the same author as well as Ilokano Lessons by Bernabe, Lapid, and Sibayan. The dictionary contains some 7,000 Ilokano entries. Many of the entries are illustrated by Ilokano sentences to clarify usage.

Security Analysis: Sixth Edition, Foreword by Warren Buffett Benjamin Graham, David Dodd, 2008-09-14 A road map for investing that I have now been following for 57 years. --From the Foreword by Warren E. Buffett First published in 1934, Security Analysis is one of the most influential financial books ever written. Selling more than one million copies through five editions, it has provided generations of investors with the timeless value investing philosophy and techniques of Benjamin Graham and David L. Dodd. As relevant today as when they first appeared nearly 75 years ago, the teachings of Benjamin Graham, "the father of value investing," have withstood the test of time across a wide diversity of market conditions, countries, and asset classes. This new sixth edition, based on the classic 1940 version, is

enhanced with 200 additional pages of commentary from some of today's leading Wall Street money managers. These masters of value investing explain why the principles and techniques of Graham and Dodd are still highly relevant even in today's vastly different markets. The contributor list includes: Seth A. Klarman, president of The Baupost Group, L.L.C. and author of Margin of Safety James Grant, founder of Grant's Interest Rate Observer, general partner of Nippon Partners Jeffrey M. Laderman, twenty-five year veteran of BusinessWeek Roger Lowenstein, author of Buffett: The Making of an American Capitalist and When America Aged and Outside Director, Sequoia Fund Howard S. Marks, CFA, Chairman and Co-Founder, Oaktree Capital Management L.P. J. Ezra Merkin, Managing Partner, Gabriel Capital Group . Bruce Berkowitz, Founder, Fairholme Capital Management. Glenn H. Greenberg, Co-Founder and Managing Director, Chieftain Capital Management Bruce Greenwald, Robert Heilbrunn Professor of Finance and Asset Management, Columbia Business School David Abrams, Managing Member, Abrams Capital Featuring a foreword by Warren E. Buffett (in which he reveals that he has read the 1940 masterwork "at least four times"), this new edition of Security Analysis will reacquaint you with the foundations of value investing—more relevant than ever in the tumultuous 21st century markets.

**Handbook of Spices, Seasonings, and Flavorings, Second Edition** Susheela Raghavan, 2006-10-23 An A to Z Catalog of Innovative Spices and Flavorings Designed to be a practical tool for the many diverse professionals who

develop and market foods, the Handbook of Spices, Seasonings, and Flavorings combines technical information about spices—forms, varieties, properties, applications, and quality specifications – with information about trends, spice history, and the culture behind their cuisines. The book codifies the vast technical and culinary knowledge for the many professionals who develop and market foods. While many reference books on spices include alphabetized descriptions, the similarity between this book and others ends there. More than just a list of spices, this book covers each spice’s varieties, forms, and the chemical components that typify its flavor and color. The author includes a description of spice properties, both chemical and sensory, and the culinary information that will aid in product development. She also explains how each spice is used around the world, lists the popular global spice blends that contain the spice, describes each spice’s folklore and traditional medicine usage, and provides translations of each spice’s name in global languages. New to this edition is coverage of spice labeling and a chapter on commercial seasoning formulas. Going beyond the scope of most spice books, this reference describes ingredients found among the world’s cuisines that are essential in providing flavors, textures, colors, and nutritional value to foods. It explores how these ingredients are commonly used with spices to create authentic or new flavors. The author has created a complete reference book that includes traditionally popular spices and flavorings as well as those that are emerging in the US to create authentic

or fusion products. Designed to help you meet the challenges and demands of today's dynamic marketplace, this book is a complete guide to developing and marketing successful products.

Reason and Passion Michael G. Peletz, 1996-01-01 This book mixes aspects of 'old' and 'new' ethnography to powerful and persuasive effect: It is ethnographically rich, modestly (and appropriately) reflexive, and framed within a broad range of contemporary theoretical issues concerning gender and beyond. It is a pleasure to read, and will be enormously valuable (and important) for teaching as well.--Sherry Ortner, University of California, Berkeley This is the single best study of gender and culture that I know, whether in Southeast Asia or elsewhere.--Robert Hefner, editor of *Conversion to Christianity*

Biodiversity, Food and Nutrition Danny Hunter, Teresa Borelli, Eliot Gee, 2020-04-29 This book examines the challenges and impacts of poor diets and nutrition from current food systems and the potential contribution of biodiversity and ecosystem services in addressing these problems. There is a strong need for a multi-level, cross-sectoral approach that connects food biodiversity conservation and sustainable use to address critical problems in our current food systems, including malnutrition. Building on research from the Biodiversity for Food and Nutrition Project (BFN), which aims to better link biodiversity, diets and nutrition, the book presents a multi-country,

cross-sectoral analysis of initiatives that have promoted local food biodiversity in four countries: Brazil, Kenya, Turkey and Sri Lanka. This book offers a comprehensive summary of the BFN Project results in each of the four countries along with lessons learned and how this work could be upscaled or applied in other regions. It argues that the strategic promotion and use of food biodiversity is critical in uniting attempts to address conservation, nutrition and livelihood concerns. The book is structured around chapters and case studies encompassing the BFN Project with specific experiences related by partners who played key roles in the work being done in each country. By offering a comparative view capable of furthering dialogue between the respective countries, it is also meant to connect the individual cases for a “greater than the sum of its parts” effect. This means consideration of how localized activities can be adapted to more countries and regions. Therefore, the book addresses global issues with a foot planted firmly in the grounded case study locations. This book will be of great interest to policymakers, practitioners and NGOs working on food and nutrition, as well as students and scholars of agriculture, food systems and sustainable development.
