Global Cities, Local Streets Sharon Zukin, Philip Kasinitz, Xiangming Chen, 2015-07-16 Global Cities, Local Streets: Everyday Diversity from New York to Shanghai, a cutting-edge text/ethnography, reports on the rapidly expanding field of global, urban studies through a unique pairing of six teams of urban researchers from around the world. The authors present shopping streets from each city – New York, Shanghai, Amsterdam, Berlin, Toronto, and Tokyo – how they have changed over the years, and how they illustrate globalization embedded in local communities. This is an ideal addition to courses in urbanization, consumption, and globalization.. The book's companion website, www.globalcitieslocalstreets.org, has additional videos, images, and maps, alongside a forum where students and instructors can post their own shopping street experiences.

Masters of Craft Richard E. Ocejo, 2018-11-13 In today's new economy—in which “good” jobs are typically knowledge or technology based—many well-educated and culturally savvy young people are instead choosing to pursue traditionally low-status manual labor occupations as careers. Masters of Craft looks at the renaissance of four such trades: bartending, distilling, barbering, and butchering. In this engaging book, Richard Ocejo takes you into the lives and workplaces of these people to examine how they are transforming once-undesirable jobs into “cool” and highly specialized upscale occupations. He shows how they find meaning in these jobs by enacting a set of “cultural repertoires,” resulting in a new form of elite taste-making. Focusing on cocktail bartenders, craft distillers, upscale men's barbers, and whole-animal butcher shop workers in Manhattan, Brooklyn, and upstate New York, Masters of Craft provides new insights into the stratification of taste, the spread of gentrification, and the evolving labor market in today's postindustrial city.

Brilliant, Crazy, Cocky Sarah Lacy, 2011-01-06 An unforgettable portrait of the emerging world's entrepreneurial dynamos Brilliant, Crazy, Cocky is the story about that top 1% of people who do more to change their worlds through greed and ambition than politicians, NGOs and nonprofits ever can. This new breed of self-starter is taking local turmoil and turning it into opportunities, making millions, creating thousands of jobs and changing the face of modern entrepreneurship at the same time. To tell this story, Lacy spent forty weeks traveling through Asia, South America and Africa hunting down the most impressive up-and-comers the developed world has never heard of....yet. The individuals profiled in Brilliant, Crazy, Cocky are distinct products of their own cultures, yet they share that same unmistakable cocktail of delusion, ambition, and brilliance that drove Bill Gates, Fred Smith, Donald Trump, and every other iconic American entrepreneur of the last few decades.

The Methods of Ethnology Franz Boas, 2016-07-15 This early work by Franz Boas was originally published in 1920 and we are now republishing it with a brand new introductory biography. 'The Methods of Ethnology' is a work on the techniques of anthropology. Franz Boas was born on July 9th 1958, in Minden, Westphalia. Even though Boas had a passion the natural sciences, he enrolled at the University at Kiel as an undergraduate in Physics. Boas completed his degree with a dissertation on the optical properties of water, before continuing his studies and receiving his doctorate in 1881. Boas became a professor of Anthropology at Columbia University in 1899 and founded the first Ph.D program in anthropology in America. He was also a leading figure in the creation of the American Anthropological Association (AAA). Franz Boas had a long career and a great impact on many areas of study. He died on 21st December 1942.

The Case of the Deadly Doppelganger Lucy Banks, 2018 A thoroughly engaging read for anyone, whether new to the series or not. - Booklist Only a few months have passed since the day Kester Lanner forced an angry ghost through the spirit door, but business prospects for Dr. Ribero's supernatural agency haven't improved. Things are looking grim when the agency lands a contract which they must share with a rival agency headed by Dr Ribero's sworn enemy, Larry Higgins. Desperate for the job, the team accepts and begins to investigate the seaside town of Lyme Regis,

where elderly victims are dying. The same mysterious clue links the horrendous deaths: the victims all see a double of themselves before dying. The teams wonder if they are dealing with a rogue doppelgänger, one that isn't content just predicting deaths, but carrying them out as well. The victims' connection to an ancient grave site leads to speculation that they may have disturbed a spirit more powerful than the two agencies can handle. One thing is certain, the won't stop unless Kester and the others can overcome their rivalry and stop this deadly spirit.

A History of Thailand Chris Baker, Christopher John Baker, Pasuk Phongpaichit, 2014-05-30 A History of Thailand offers a lively and accessible account of Thailand's political, economic, social and cultural history. This book explores how a world of mandarin nobles and unfree peasants was transformed and examines how the monarchy managed the foundation of a new nation-state at the turn of the twentieth century. The authors capture the clashes between various groups in their attempts to take control of the nation-state in the twentieth century. They track Thailand's economic changes through an economic boom, globalisation and the evolution of mass society. This edition sheds light on Thailand's recent political, social and economic developments, covering the coup of 2006, the violent street politics of May 2010, and the landmark election of 2011 and its aftermath. It shows how in Thailand today, the monarchy, the military, business and new mass movements are players in a complex conflict over the nature and future of the country's democracy.

Thaksin Pasuk Phongpaichit, Christopher John Baker, 2004 Thaksin Shinawatra has often been compared to Italy's Silvio Berlusconi. Both are fabulously wealthy media magnates who have entered politics. And both have a possessive passion for football. Berlusconi owns Forza Milan and, as many fans note with mixed feelings, Thaksin recently attempted to acquire a 30 per cent stake in Liverpool FC. But there is more to him than football. He became Thailand's prime minister in early 2001 after a landslide election victory in which he promised to 'think new, act new' to transform the country's economy and politics. Since then, Thaksin has been highly popular but also highly controversial. Two long-standing observers have described him as 'the best prime minister Thailand has ever had' and 'another grubby businessman'. This is the first serious study of Thaksin in English. It examines where he comes from and what he is trying to do. The authors, an economics professor and independent author, have written several other books on economics, politics and current affairs in Thailand.

Thailand's Political History B. J. Terwiel, 2005 Thailand's Political History discusses developments in the Siamese state during the past two-and-a-half centuries. The fall of the old capital Ayutthaya provides the opening scene while the book ends with the massive investments in a modern infrastructure and the concomitant economic expansion at the close of the 20th century. Among the topics discussed are taxation foreign trade and Chinese immigration. Three periods of crisis are dealt with in some detail: the confrontation with France in 1893, the military coup of 1932 and its aftermath and Thailand's role during World War II. The author draws mainly upon contemporary sources, some of them hitherto overlooked, which lead him to bring forward fresh insights into Thailand's history during the past 250 years.--BOOK JACKET.

Road Kill E. R. Bills, Bret McCormick, 2016-10-10 An ancient demon plays cowboy and takes on the Texas Rangers. Three teenage girls sneak into a body farm. An aging African American couple defies the Grim Reaper. And a pack of possums gets into politics. Join seventeen Texas authors for a supernatural spin on the twisting freeways and dark back roads that wind through the Lone Star State.

The Economics of E-commerce Michael R. Baye, John Morgan, 2016 This comprehensive collection, edited by two pioneers of e-commerce, presents thirty of the most important papers written in the fields of economics, marketing and strategy. Topics covered include evaluation of the benefit to consumers of competition and product variety online, examination of auctions and reputational feedback mechanisms designed to mitigate informational asymmetries in online markets, and the debate on digital property rights including privacy, piracy and the open source movement. Together with an original introduction by the editors, this title provides a readily accessible wealth of material on the subject of e-commerce, invaluable to scholars and practitioners alike.

Making Democracy James Ockey, 2004-08-31 Democracy in Thailand is the result of a complex interplay of traditional and foreign attitudes. Although democratic institutions have been imported, participation in politics is deeply rooted in Thai village society. A contrasting strand of authoritarianism is present not only in the traditional culture of the royal court but also in the centralized bureaucracies and powerful armed services borrowed from the West. Both attitudes have helped to shape Thai democracy's specific character. This topical volume explores the importance of culture and the roles played by leadership, class, and gender in the making of Thai democracy. James Ockey describes changing patterns of leadership at all levels of society, from the cabinet to the urban middle class to the countryside, and suggests that such changes are appropriate to democratic government--despite the continuing manipulation of authoritarian patterns. He examines the institutions of democratic government, especially the political parties that link voters to the parliament. Political factions and the provincial notables that lead them are given careful attention. The failure to fully integrate the lower classes into the democratic system, Ockey argues, has been the underlying cause of many of the flaws of Thai democracy. Female political leadership, another imported notion, is better represented in urban rather than rural areas. Yet gender relations in villages were more equitable than at court, Ockey suggests, and these attitudes have persisted to this day. Successful women politicians from a variety of backgrounds have begun to overcome stereotypes associated with female leadership although barriers remain. With its wide-ranging analysis of Thai politics over the last three decades, Making Democracy is an important resource for both students and specialists.

Semantic Interfaces Carlo Cecchetto, Gennaro Chierchia, Maria Teresa Guasti, 2001-01 This volume collects papers on the theory of meaning (semantics) and its relation to syntax.

Thailand's Political Peasants Andrew Walker, 2012-08-06 When a populist movement elected Thaksin Shinawatra as prime minister of Thailand in 2001, many of the country's urban elite dismissed the outcome as just another symptom of rural corruption, a traditional patronage system dominated by local strongmen pressuring their neighbors through political bullying and vote-buying. In Thailand's Political Peasants, however, Andrew Walker argues that the emergence of an entirely new socioeconomic dynamic has dramatically changed the relations of Thai peasants with the state, making them a political force to be reckoned with. Whereas their ancestors focused on subsistence, this generation of middle-income peasants seeks productive relationships with sources of state power, produces cash crops, and derives additional income through non-agricultural work. In the increasingly decentralized, disaggregated country, rural villagers and farmers have themselves become entrepreneurs and agents of the state at the local level, while the state has changed from an extractor of taxes to a supplier of subsidies and a patron of development projects. Thailand's Political Peasants provides an original, provocative analysis that encourages an ethnographic rethinking of rural politics in rapidly developing countries. Drawing on six years of fieldwork in Ban Tiam, a rural village in northern Thailand, Walker shows how analyses of peasant politics that focus primarily on rebellion, resistance, and evasion are becoming less useful for understanding emergent forms of political society.
