**Magic Corrupts, Magic Conquers** A.J. Locke, 2023-04-17 What if the world changed overnight...and it was all because of you? All Pennrae wanted to do was to help. Now she's found herself in a world that's been instantaneously transformed by magic...that she brought back. She's gone from a simple karate instructor to an instant celebrity—and she hates it. Fortunately, she has her friends, her beloved magic companion, and one ridiculously hot boyfriend. But a sudden, unprompted attack in broad daylight is about to make Penn's life even more complicated. An ancient forest guardian known as a Kiabi—a warrior of magic and almost impossible to defeat—has marked Penn to die. The attack at first seems incidental and unprovoked...until she discovers the true cause. Her. Penn may have saved the world, but her actions have set a chain of events in motion. In one brief moment, something dark, terrible, and older than time itself found an opportunity to escape, to free itself from the guardians and mark Pennrae as its enemy. Now the world and everyone she loves face a gruesome fate unless Penn can unleash the full force of her Divine magic... The Warrior of the Divine Sword series is best enjoyed in order. Reading Order: Book #1 Magic Dark, Magic Divine Book #2 Magic Corrupts, Magic Conquers

**A Legacy of Ivy, Roses and Pearls** Phi Eta Omega Chapter,2014-12-12 This book is the chronological history of one of Alpha Kappa Alpha Sorority's graduate chapters, Phi Eta Omega of Scotch Plains, New Jersey, from its chartering in 1999 through 2013. Ten inactive members (sorors) of Alpha Kappa Alpha Sorority Inc., rekindling a desire to be of service to others, assembled at a soror's home in Plainfield, New Jersey, in the early winter of 1998. Soon this small group grew to fourteen and, ultimately, to seventeen women.

These seventeen inactive sorors became an official interest group of the sorority later that year. With the mission to promote harmony and friendship among members, to develop and implement programs to enhance the self-esteem of youth, and to assist others wherever needed in their communities, these women, full of energy and enthusiasm, ventured into unknown waters. Becoming the first Greek letter organization to affiliate with the New Jersey Orators, the Scotch Plains/Union County Interest Group helped foster the development of confidence and public speaking skills in youth ages seven to seventeen. TAG, a weekly tutorial program, was also established. Since its chartering on June 6, 1999, Phi Eta Omega Chapter continues to institute and participate in other altruistic programs: the Angel Network; collection of coats and other winter clothing during local coat drives; donation of suits for Dress Barn's Dress for Success; financial support to two Kenyan students in Africa; donation of duffel bags filled with pajamas, clothing, books, and other sundries to Union County Division of Child Protection and Permanency; and the replacement of the headstone of Caesar, a Revolutionary War-freed slave, at Scotch Plains Baptist Church in Scotch Plains, New Jersey.

**Digital Stractics** Chris Outram, 2016-04-29 In the world of digital business, the line between strategy and tactics is blurring. Traditionally large companies would adopt strategic frameworks which planned over three- to five-year timescales, while most digital start-ups had little interest in comprehensive and rigorous strategic processes and simply set themselves vision and worked out how to get there along the way. In today's digital economy even large companies are finding that their planning horizons are being measured in months rather than years or quarters (if not yet in the

weeks or even days of startups). On the other hand, investors are less swayed by the excitement of 'digital' and expect harder and more rigorous medium term planning from start-ups. As a result, while the empirical process of learning by doing is becoming part of traditional companies' strategy processes, digital pure plays are no longer just making it up as they go along, but actively learning and changing as they go along. In short: on the battlefield of online commerce, strategy blends with tactics. Indeed, the distinction between pure play and hybrid is increasingly redundant as more holistic business models begin to emerge. Digital Stractics captures the experience and insights of some 60 entrepreneurs, CEOs and chairmen of both pure plays and hybrids to formulate frameworks within which both pure plays and hybrids can shape their strategy and business models. As timescales between 'plan' and 'do' collapse strategy and tactics have to blend. The world of STRACTICS is upon us.

**Fishes Out of Water** Zeehan Jaafar, Edward O. Murdy, 2017-07-12  
Mudskippers are amphibious fishes native to the Indo-West Pacific and tropical western Africa. Unlike most fishes, mudskippers emerge to forage, find mates, and defend territories. Adaptations to their morphology, physiology and behavior enable mudskippers to accommodate both aquatic and terrestrial habitats. For these traits, mudskippers have long captured the fascination of scientists, naturalists, and fish hobbyists. Some mudskipper taxa (e.g. *Periophthalmodon* spp., *Periophthalmus* spp., *Boleophthalmus* spp.) are readily observed on mudflats and mangrove forests during the ebb tide. Correspondingly, these conspicuous and widespread taxa are relatively well-studied. The autecology and basic biology for the remaining taxa (e.g. *Apocryptodon* spp. and *Oxudercus* spp.) are still poorly understood. *Fishes Out of Water: Biology and Ecology of*

Mudskippers is the first comprehensive book to synthesize published scientific information and observation on these fishes. Two dozen subject experts present thorough overviews in fifteen distinct chapters. Contents span mudskipper anatomy, distribution, systematics, physiology, ecology, and conservation. Unique adaptations to terrestriality are discussed within the context of each chapter foci. This authoritative reference equips the reader with the basic foundation to understand mudskipper biology and ecology, while providing a framework in which emerging data are discussed. The book will be of interest to a broad range of students, researchers, and professionals in ichthyology, evolution, ecology, animal behavior, and comparative physiology.

**The Innovative Company** Danièle Chauvel,Stefano Borzillo,2017-08-07 The concept of innovation is the result of human activities carried out to produce a new product, service or something new that creates value. More recently, the idea of an innovative enterprise, organization or company has emerged, thanks to an increasing interest in innovation as an essential process in a variety of economic, technological and sociological contexts. This book is part of a

set on Innovation between Risk and Reward and focuses on the close relationship between innovation and knowledge. It provides the reader with the outline of an innovative company, focusing on the organizational aspects that contribute to defining it and sketching out the profile of what an innovative company is or should be in the age of knowledge. The authors explore the literary corpus in order to outline the state of the art but also the reality of innovative enterprise in the form of meetings and interviews with both large and small companies.

*Magic Dark, Magic Divine* A.J. Locke, 2021-11-15 Falling asleep for almost 300 years was never part of Pennrae's plan. Of course, when you're a mercenary with magical abilities and defy a spellbinding prophecy...bad stuff happens. Now, magic is long gone from the world. So Penn works as a karate instructor, trying very hard to dodge her hot, flirty, and super annoying colleague, Callan. All is well until a Jigori—a nightmarish magic-eating monster—shows up at a New

York City street fair, forcing Penn to use her Shaper magic, which allows her to transform wood and metal into deadly weapons. Now, the Jigori's master has her scent, and their eye on stealing her 300 years of life. If they succeed, Penn succumbs to centuries of sleep again, and magic will be unleashed on a completely unprepared world. And to add to her ridiculously complicated life, something isn't quite right with Callan. Which she could figure out if it weren't for that evil, apocalyptic plot she's trying to stop. But Penn may not have a choice—Callan could be the secret weapon she needs to save the world...
