Math and Logic Puzzles That Make Kids Think! Jeffrey J. Wanko,2021-09-03 Kids love exploring new ways of solving problems, especially in fun and challenging puzzle formats. In Math and Logic Puzzles That Make Kids Think!, the author presents several variations on Sudoku—the most well-known type of logic puzzle—in an easy-to-use, exciting format perfect for any math classroom. These language-independent logic puzzles provide kids with great problems to stretch how they think and reason. Each puzzle variation utilizes some of the basic strategies of Sudoku puzzles, but each one also draws upon other areas of mathematics—ordering of numbers, properties of geometric shapes, basic operations, or enriched number sense. This book provides teachers with puzzles arranged by difficulty level that can be used to support and enhance students' mathematical investigations. It also provides a new and exciting context for the development of students' deductive reasoning skills, which can lay the foundation for further mathematical exploration. Grades 6-8

Puzzles for Young Children: Preparing Little Ones for Gifted and Talented Tests and Private School Admissions Michael Wallach, 2017-10-01 Today nearly all American children at the age of 4, 5 or 6 must take an intelligence test of some sort. The results of this test can have a profound impact on their future education for years to come. The good news is that learning the art of intelligence tests can be a joyous, playful process that builds on the natural curiosity and brilliance of all children. As leading experts in test preparation, Central Park Tutors has put together a groundbreaking book of puzzles to prepare your little ones for testing, with an in depth introduction that gives parents and teachers the guidance they need to understand both admissions tests and how to work with their children best to use the ingenious ways children naturally learn. Each puzzle covers a key form of reasoning on kindergarten and first grade admissions tests- designed in large format, in rich color, and on a single page to allow your child to observe and consider the puzzle at length. The puzzles are ordered by skill level and reasoning type, and directly across from each puzzle are hints so that you have immediate access to guidance that can help your child learn the techniques that will make them independent puzzle-solvers. -Puzzles For Young Children- helps parents and teachers bring out the joy in young children's learning, apply their innate brilliance to intelligence testing, and to bring out the very best in their children's test scores.
