**Scribbles and Ink** Ethan Long, 2023-07 Two artists, two styles, and one book that may not be big enough for the both of them. See, Ink (the mouse) likes things to be clean and precise. Scribbles (the cat) is the opposite. But while there should be plenty of room for each of them to make their art without getting in each others way, or on each others nerves, THEY CAN'T MANAGE THAT! And from there paint splatters, ink goops, pencils get broken and brushes go wild until... it's not a work of art, IT'S A MESS! Discovering that they are no longer having any fun, the duo tentatively tries to collaborate instead of clobber, and, thus, a disaster-piece becomes a masterpiece. With this much creative friction, will this disaster-piece ever become a masterpiece?

**Invitation to Draw** Jean Van't Hul, 2021-06-15 Help children draw and think more creatively by inspiring them with interesting and challenging art prompts and questions. Invitation to Draw offers 99 open-ended drawing prompts, each one proposing a question to investigate that encourages children to free associate and problem solve. The perforated pages make it easy to tear out prompts for on-the-go activities or allowing multiple kids to draw at the same time. A blank cake provides the chance to decorate a dream confection, an empty house inspires stories about who lives there, and a grid of triangles supplies the chance to explore abstract art. What might be hiding in that tree? What sort of robot can you design? The possibilities are endless! Drawing prompts inspire and encourage kids to think and draw differently, and sometimes more creatively, than they might when faced with a blank page. By offering constraints such as a pair of eyes or an empty car and asking a question, children begin thinking about the possibilities and answering the question in their heads even before they put pen (or marker or crayon!) to paper. And through the act of drawing and observing the drawing unfold, the brain continues to think and problem solve, opening up all kinds of creative possibilities around that specific idea.

*The Guide to Drawing* Lenore Moran, 2020-02-15 Drawing makes children happier all their lives! What are the factors that determine happiness in life? Money? Status? To a large extent, it is a person's aesthetic view. A person who understands aesthetics can find and feel beauty in life, whether poor or rich. Reading and drawing can make children mild in temper and improve their intelligence. The most important thing for children to draw is to gain self-confidence. Which is the best way to express themselves. Sometimes children's

ideas can not be expressed, but can be expressed on the canvas. In evaluating children's paintings, we should not use likeness to say that the most important thing is to encourage children to keep their enthusiasm for painting, and they can persevere and gain self-confidence in this respect. Never underestimate the impact of painting on children! Children's learning painting is conducive to the development of memory, imagination, especially imagination. Children's imagination is very rich and strange. Rich imagination is the most basic quality of scientists and writers, as well as the maintenance and sublimation of childlike innocence. Children's imagination is expanded and deepened in painting, which is the basis of talent growth. Children can vent through drawing. Allowing children to draw freely is also an important means for their psychological self-protection. Children's inner depression and psychological burden will not release their emotions by talking with several intimate friends as adults do. They do not have the ability to do so. Painting, especially free painting, is a child's psychological self-accusation. Children's internal contradictions which can not be disclosed at ordinary times can be vented from them, which can lighten the psychological burden and help to maintain mental health. Children appreciate the beauty of life. The purpose of preschool art education is not to train children to be small painters, but to germinate their aesthetic feeling and cultivate their creative expression ability, which will become their valuable wealth in life and benefit them for life. Painting is like a

game. When you play it, you will feel deeply and express your wishes more easily and boldly. Innovation is the main theme of children's painting. Exercise children's observation ability In the process of children's painting, they will constantly observe the world from their own perspective and integrate into their own paintings. People who learn to draw see the world differently from people who don't. Painters pay more attention to the details and texture of an object. More appreciate the beauty of the world.
