Alphabet Book Michelle Green,2018-02 How can this Alphabet book help you? This Alphabet book is primarily designed to proficiently teach children to recognize the letters of the alphabet. For every letter, there are few pages with words and sufficient colorful and vivid images, carefully selected to be easy for them to make a connection between the word and the images. The letter to be studied in each page is colored differently, to be very easy to distinguish and recognize it. They have to notice the place of the letter in every word: at the beginning, in between or at the end. Also, they will be

able to realize that same letter could sound differently and this will prepare them for phonics. There are enough words for every letters, so you can be sure they will learn all of them, without being bored. All the words are appropriate for 4 - 6 years old children. They comprise cuddly animals, familiar objects, toys, professions and areas of interest for them. Almost all the pictures can be the beginning of a nice and helpful conversation regarding the particular subject and this can help to build and enhance their vocabulary. They can find extra useful materials included in the book: 200 additional words, with high frequency in the spoken language. They should recognize them without sounding any letter, majority of them are side words.
