Leading Issues in elearning Melanie Ciussi,2015-03-09 Volume two of Leading Issues in e-Learning Research brings together a collection of the latest ideas in the area of e-Learning research. e-Learning is undergoing a revolution. The expectations of X and Y generation learners are changing the way we teach. They want more interactive, social and mobile course presentation formats which are resulting in novel teaching methods like flipped classrooms, new tools for learning, apps, social learning and augmented reality. Also, the rise of MOOCs (Massive Open Online Courses) can offer free education for learners around the world. This is a profound change which draws its inspiration from the world of business, fostering pedagogical innovation to create new e-Learning initiatives.
