The Forbidden Temptation of Baseball Dori Jones Yang,2017-08-15 A Chinese boy struggles to adapt to American life—and discovers baseball. Despite his impulsive and curious nature, twelve-year-old Leon is determined to follow the Emperor's rules—to live with an American family, study hard, and return home to modernize China. But he also must keep the braid that shows his loyalty—and resist such forbidden American temptations as baseball. As Leon overcomes teasing and makes friends, his elder brother becomes increasingly alienated. Eventually, Leon faces a tough decision, torn between his loyalty to his birth country—and his growing love for his new home. *The Forbidden Temptation of Baseball* is a lively, poignant, and nuanced novel based on a little-known episode from history, when 120 boys were sent to New England by the Emperor of China in the 1870s. This story dramatizes both the rigid expectations and the wrenching alienation felt by many foreign children in America today—and richly captures that tension between love and hate that is culture shock. It gives American readers a glimpse into what it feels like to be a foreigner in the United States and will spark thoughtful discussions.

Sold Out Alex Molnar, Faith Boninger, 2015-08-07 If you strip away the rosy language of "school-business partnership," "win-win situation," "giving back to the community," and the like, what you

see when you look at corporate marketing activities in the schools is example after example of the exploitation of children for financial gain. Over the long run the financial benefit marketing in schools delivers to corporations rests on the ability of advertising to “brand” students and thereby help insure that they will be customers for life. This process of “branding” involves inculcating the value of consumption as the primary mechanism for achieving happiness, demonstrating success, and finding fulfillment. Along the way, “branding” children – just like branding cattle – inflicts pain. Yet school districts, desperate for funding sources, often eagerly welcome marketers and seem not to recognize the threats that marketing brings to children’s well-being and to the integrity of the education they receive. Given that all ads in school pose some threat to children, it is past time for considering whether marketing activities belong in school. Schools should be ad-free zones.

The Conviction Robert Dugoni,2012-06-12 In this gripping, high-octane thriller by critically acclaimed New York Times bestselling author Robert Dugoni, a father takes the law into his own hands to save his son, trapped in a juvenile detention center from hell. Lawyer David Sloane is desperate to get through to his troubled teenage son Jake. Still reeling from the devastating loss of his mother in a brutal murder, Jake has spiraled out of control and Sloane has barely been able to keep him out of jail. So when his old friend, detective Tom Molia, suggests that they take their sons on a guys-only camping trip, Sloane gratefully accepts. What Sloane imagines will be the perfect excursion turns into a horrifying nightmare when the boys are arrested for vandalizing a general store late at night while their fathers are asleep. The next morning, before Sloane and Molia even realize they’re gone, their sons are tried, convicted, and sentenced by the presiding judge to six months in the county wilderness detention camp, Fresh Start. For the teenagers, a grueling physical and psychological ordeal

begins. As Sloane fights the conviction against the boys, he discovers that local judge Earl Boykin's authority seems to extend far beyond the confines of his courtroom. Meanwhile, on the inside, Jake is forced to grow up quickly and soon learns the hard way that this detention center has a very different purpose than rehabilitating troubled youths. With their legal options exhausted, Sloane and Molia will do anything to save their sons—even mount a daring rescue operation that could win the boys their freedom . . . or cost all of them their lives.

Edgar Edgar Martinez, Larry Stone, Ken Griffey Jr., 2019-06-18
Patience, persistence, and the most unlikely of circumstances vaulted Edgar Martinez from a poor neighborhood in Dorado, Puerto Rico to the spotlight in Seattle, where he spent the entirety of his 18-year major league career with the Mariners. At last, his path is destined for one last stop: the Baseball Hall of Fame in Cooperstown. Long before he cemented his status as one of the finest players of his generation, Martinez honed his batting skills by hitting rocks in his backyard and swinging for hours at individual raindrops during storms. Loyal and strong-willed from a young age, he made the difficult decision at only 11 to remain behind with his grandparents while his family relocated to New York, attending school and then working multiple jobs until a chance Mariners try-out at age 20 changed everything. In this illuminating, highly personal autobiography, Martinez shares these stories and more with candor, characteristic humility, and surprising wit. Highlights include the memorable 1995 and 2001 seasons, experiences playing with stars like Randy Johnson, Ken Griffey Jr., and Alex Rodriguez, and life after retirement as a family man, social advocate, and Mariners hitting coach. Martinez even offers practical insight into the mental side of baseball and his training regimen, detailing how he taught himself to see the ball better than so many before and after him. Interwoven with Martinez's own words throughout are those of his teammates, coaches, and contemporaries, contributing a distinctive oral

history element to this saga of a remarkable career.

Not Playing Fair ... Can Be Costly George Foxx,2012-10 When everyone is expected to play fair and do so – there is no problem. The problem begins with a smile and end with consequences many cannot cope with from the results of not playing fair. Not playing fair is not only unethical, immoral, and down right dirty at times, the awful thought of being cheated in some scheme or situation can bring out the most deadly thoughts if the perpetrator – does not play fair. When your ex-spouse hires someone to kill you, ask you for a swap sampling for insurance purposes, you better be alert for your life because someone is not planning on playing fair. This is just an example of not playing fair. Do you play fair all the time and not just sometimes? What about when a business partner cheats you through faulty book transcriptions? What about your spouse cheating on you? What about you were being used? What if your ex-spouse kills the children in anger? What about you were being cheated out of \$50,000 at a strip club? What about your spouse lying to you that the IRS refund check never came, but you later found out that she already spent the refund? Some of the factors and lies with opinions in Not Playing Fair ... Can Be Costly!
