Strengthening Forensic Science in the United States National Research Council,Division on Engineering and Physical Sciences,Committee on Applied and Theoretical Statistics,Policy and Global Affairs,Committee on Science, Technology, and Law,Committee on Identifying the Needs of the Forensic Sciences Community,2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland

security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Most of us don't live in a dream home that was custom built to suit our tastes. We have to work with a house that brings its own style, quirks, and personality to the table. In *Feels Like Home*, DIY makeover queen Marian Parsons (a.k.a. Miss Mustard Seed) teaches you what she's learned over the years, sharing budget-friendly practical tips that will inspire you to change your space from “blah” to beautiful, from a builder-grade to character-rich home. Hung by the Fireplace Killian McRae, 2017-11-14 Assume that demons are incapable of love. Now remember what happens when you assume. If demons aren't supposed to be able to love, then why does Hell's all-star minion, Jerry Romani, keep going all goo-goo eyed every time Riona Dade's around? Is there something about the redhead that's different from the other women he's been dispatched to seduce? And why, oh why, does the Devil himself want this sexy yet prosaic mortal tagged and tailed? Things between the embedded demon and the sultry statistician start to heat up just as the temperatures outside take a dive, and Jerry soon realizes Riona will be opening more than just his package come Christmas. She's opening his heart, and with it, a world of possibility about what their futures might hold. This prequel also includes (in an act explainable by the author) two short, post-series stories.

Going All City Stefano Bloch, 2019-11-14 “We could have been called a lot of things: brazen vandals, scared kids, threats to social order, self-obsessed egomaniacs, marginalized youth, outsider artists, trend setters, and thrill seekers. But, to me, we were just regular kids growing up hard in America and making the city our own. Being ‘writers’ gave us something to live for and ‘going all city’ gave us something to strive for; and for some of my

friends it was something to die for.” In the age of commissioned wall murals and trendy street art, it’s easy to forget graffiti’s complicated and often violent past in the United States. Though graffiti has become one of the most influential art forms of the twenty-first century, cities across the United States waged a war against it from the late 1970s to the early 2000s, complete with brutal police task forces. Who were the vilified taggers they targeted? Teenagers, usually, from low-income neighborhoods with little to their names except a few spray cans and a desperate need to be seen—to mark their presence on city walls and buildings even as their cities turned a blind eye to them. *Going All City* is the mesmerizing and painful story of these young graffiti writers, told by one of their own. Prolific LA writer Stefano Bloch came of age in the late 1990s amid constant violence, poverty, and vulnerability. He recounts vicious interactions with police; debating whether to take friends with gunshot wounds to the hospital; coping with his mother’s heroin addiction; instability and homelessness; and his dread that his stepfather would get out of jail and tip his unstable life into full-blown chaos. But he also recalls moments of peace and exhilaration: marking a fresh tag; the thrill of running with his crew at night; exploring the secret landscape of LA; the dream and success of going all city. Bloch holds nothing back in this fierce, poignant memoir. *Going All City* is an unflinching portrait of a deeply maligned subculture and an unforgettable account of what writing on city walls means to the most vulnerable people living within them.

Women Who Love Cats Too Much Allia Zobel-Nolan, 1995 A zany sequel to the best-selling *101 Reasons Why a Cat Is Better Than a Man* offers a collection of whimsical advice for cat lovers, explaining how to tell if the relationship with one’s cat has gotten out of control. Original. IP.

Book of Days Emily Fox Gordon, 2010-08-17 The sexual politics of a faculty wives dinner. The psychological gamesmanship of an inappropriate therapist. The emotional minefield of an extended family wedding . . . Whatever the subject, Emily Fox Gordon’s disarmingly personal essays are an art form unto themselves—reflecting and revealing, like mirrors in a maze, the seemingly endless ways a woman can lose herself in the modern world. With piercing humor and merciless precision, Gordon zigzags her way through “the unevolved paradise” of academia, with its dying breeds of bohemians, adulterers, and flirts, then stumbles through the perils and pleasures of psychotherapy, hoping to find a narrative for her life. Along the way, she encounters textbook feminists, partying philosophers, perfectionist moms, and an unlikely kinship with Kafka—in a brilliant collection of essays that challenge our sacred institutions, defy our expectations, and define our lives.

Jacob the Liar Jurek Becker, 1996 In a Jewish ghetto during World War II, a man manages to raise flagging spirits by circulating rumors of Allied victories and that the ghetto will soon be liberated by the Red Army. At this news, many people who are thinking of suicide decide to live.

Robert Gober Hilton Als, Robert Gober, 2014 Robert Gober rose to prominence in the mid-1980s and was quickly acknowledged as one of the most significant artists of his generation. In the years since, his reputation has

continued to grow, commensurate with the rich and complex body of work he has produced. Published in conjunction with the first comprehensive large-scale survey of the artists career to take place in the United States, this publication presents his works in all mediums, including individual sculptures and immersive sculptural environments, as well as a distinctive selection of drawings, prints, and photographs. Prepared in close collaboration with the artist, it traces the development of a remarkable body of work, highlighting themes and motifs that emerged in the early 1980s and continue to inform the artists work today. An essay by Hilton Als, and an in-depth chronology with extensive input from the artist himself, foregrounds images from Gobers archives, including many neverbefore- published photographs of works in progress.
