Knowing Yourself Virginia Schroeder Burnham, William H. Hampton, 1992 A common-sense examination of the subject of personality for those who are interested in self-help and self-improvement.

The Four Tendencies Gretchen Rubin, 2017-09-12 NEW YORK TIMES BESTSELLER • Are you an Upholder, a Questioner, an Obliger, or a Rebel? From the author of *Better Than Before* and *The Happiness Project* comes a groundbreaking analysis of personality type that “will immediately improve every area of your life” (Melissa Urban, co-founder of the Whole30). During her multibook investigation into human nature, Gretchen Rubin realized that by asking the seemingly dry question “How do I respond to expectations?” we gain explosive self-knowledge. She discovered that based on their answer, people fit into Four Tendencies: • Upholders meet outer and inner expectations readily. “Discipline is my freedom.” • Questioners meet inner expectations, but meet outer expectations only if they make sense. “If you convince me why, I’ll comply.” • Obligers (the largest Tendency) meet outer expectations, but struggle to meet inner expectations—therefore, they need outer accountability to meet inner expectations. “You can count on me, and I’m counting on you to count on me.” • Rebels (the smallest group) resist all expectations, outer and inner alike. They do what they choose to do, when they choose to do it, and typically they don’t tell themselves what to do. “You can’t make me, and neither can I.”

Our Tendency shapes every aspect of our behavior, so using this framework allows us to make better decisions, meet deadlines, suffer less stress, and engage more effectively. It's far easier to succeed when you know what works for you. With sharp insight, compelling research, and hilarious examples, *The Four Tendencies* will help you get happier, healthier, more productive, and more creative.

Maps of Meaning Jordan B. Peterson, 2002-09-11 Why have people from different cultures and eras formulated myths and stories with similar structures? What does this similarity tell us about the mind, morality, and structure of the world itself? From the author of *12 Rules for Life: An Antidote to Chaos* comes a provocative hypothesis that explores the connection between what modern neuropsychology tells us about the brain and what rituals, myths, and religious stories have long narrated. A cutting-edge work that brings together neuropsychology, cognitive science, and Freudian and Jungian approaches to mythology and narrative, *Maps of Meaning* presents a rich theory that makes the wisdom and meaning of myth accessible to the critical modern mind.

Do You Know Who You Are? Jaroslaw Jankowski, Which of the sixteen personality types is yours? Are you an energetic and decisive 'administrator'? A sensitive and creative 'artist'? Or a dazzling and analytical 'logician', perhaps? It's an intriguing question and the ID16 Personality Test will lead you to the answer ... and armed with what you discover, you'll understand yourself and others far better! ID16 is a personality typology which draws on the theory developed by Carl Gustav Jung. Typologies formulated on the basis of Jung's theory are widely used in teaching, training, coaching and human resource management, as well as in career and relationship counselling. They also form a basis for numerous programmes supporting personal development and improving interpersonal relationships. The majority of global

businesses employ Jungian personality tests as a standard tool in their recruitment procedures and vocational development processes. This book is part of the ID16 Personality Types series.

The Cultural Origins of Human Cognition Michael TOMASELLO, 2009-07-01 Bridging the gap between evolutionary theory and cultural psychology, Michael Tomasello argues that the roots of the human capacity for symbol-based culture are based in a cluster of uniquely human cognitive capacities. These include capacities for understanding that others have intentions of their own, and for imitating, not just what someone else does, but what someone else has intended to do. Tomasello further describes with authority and ingenuity how these capacities work over evolutionary and historical time to create the kind of cultural artifacts and settings within which each new generation of children develops.
