Washington State Politics and Government T. M. Sell,2023-11 In the twenty-first century, as many candidates actively campaign against the very government they seek to serve in, and as many people appear to believe their government irreparably broken, T. M. Sell argues that in Washington State, the system works better than most realize. In *Washington State Politics and Government* Sell explains how the many parts of government function and introduces readers to a diverse array of individuals who work in government, including how they got there and what it is they're trying to do. Sell covers the three branches of state government, plus county, city, special purpose district, and tribal governments. He explains the state budgets and taxes; the functions of major and better-known state agencies; how policy is made; the political landscape of Washington; and parties, voting, and elections. Sell discusses economic development, including the importance of high-tech industry, aviation, Amazon.com, and more traditional parts of the state economy, such as timber and agriculture. He also provides a contemporary look at Washington's elected officials, constitution, judiciary, media, demographics, and political culture and landscape. With this volume, any Washington citizen, student of politics, or specialist in government can gain insight into the state's current political system.

Defeating the New Axis Powers James Michael Matthew, 2023-01-31 Defeating The New Axis Powers is the second of a three-part series dedicated to providing new solutions for solving the critical problems brought by global warming, climate change, rising ocean coastlines, biodiversity loss, desertification, ocean pollution and fresh waters depletion. James Michael Matthew, an award-winning author, financial executive, and industrialist, highlights geopolitical issues related to climate change. He makes the case that politics and geopolitics are closely connected to climate change. The author considers questions such as: • Are the new Axis powers really embracing net zero carbon and green energy—or are they using such a stance to disguise their weaponization of fossil fuels and green energy raw materials? • Should defeating the new Axis powers take precedence over our fight against global warming? • Who are the new Axis powers, what do they want, and who are their friends? The new Axis powers understand the importance of access to energy for a country and society to function. They hate the United States and all democracies and are determined to bring about a new world order. Find out what's at stake and what freedom loving individuals and countries can do to simultaneously defeat the new Axis powers and build the climate change bridge to defeat global warming.

The Two \$20 Trillion Opportunities James Michael Matthew, 2023-05-05 The Two \$20 Trillion Opportunities is the third and final part of a series dedicated to offering innovative solutions to ease problems tied to global warming, climate change, rising ocean coastlines, biodiversity loss, desertification, ocean pollution, and the depletion of fresh water. The first book in the series—Building the Climate Change Bridge—explored how we can transition from relying on fossil fuels to green energy. More importantly, it proposed a bridge for getting from here to there. The second book—Defeating the New Axis Powers—focused on the geopolitical issues related to climate change. This final book in the series lays out a plan to create what author James Michael Matthew calls “the selfless economy.” He reveals how to pay for both building a climate bridge and creating a selfless economy. As our collective concern about the future of our planet grows, there has never been a more critical time to explore how humanity can pursue responsible and practical strategies to move forward and ensure our future.

Stop Global Street Harassment Holly Kears, 2015-08-28 Once a largely dismissed problem, street harassment is now headline news and being addressed by many international agencies and governments worldwide. This book details how a growing number of individuals, small groups, international organizations, and government agencies worldwide are working to create safe public spaces. Everyone should be able to navigate through public spaces without facing harassment or the threat of sexual assault, yet that is a right that millions of people worldwide are routinely denied. In the United States alone, 65 percent of women and 25 percent of men experience street harassment. This book taps personal stories, research data, news stories, and information about global campaigns and grassroots action in dozens of countries to trace the growing social movement to recognize, address, and prevent street harassment. The author suggests what steps need to be taken next to help stop street harassment globally and invites readers to take action and be part of the solution. The book addresses specific and prominent incidents of street harassment such as the mass sexual assaults of women at Tahrir Square in Cairo, Egypt; the gang rape and murder of a young woman on a bus in Delhi, India, in 2012; and the viral hidden-camera video produced by Hollaback!, an advocacy group dedicated to ending street harassment, that documents the catcalling and stalking that happens to a woman as she walks through New York City. It documents the explosion of studies, personal story sharing, grassroots campaigns, and media attention on street harassment since 2010 as well as Global Safe Cities efforts by international organizations like UN Women and ActionAid in countries on all six continents during that time period. Attention is also paid to the ongoing lack of enforcement of laws on street harassment by police and judges. The book concludes by looking forward at remedies for the problem: education among youth about street harassment and addressing issues of consent and respect.

Count Your Lucky Stars Alexandria Bellefleur, 2022-02-01 Bellefleur has a droll, distinct voice, and her one-liners zing off the page, striking both the heart and funny bone... There's a sparkling quality here, one that mirrors the starry title. Bellefleur writes as if she's captured fairy lights in a mason jar, twinkly and lovely within something solid yet fragile. – Entertainment Weekly Following *Written in the Stars* and *Hang the Moon*, Lambda Literary Award winner and national bestselling author Alexandria Bellefleur pens another steamy queer rom-com about former best friends who might be each other's second chance at love... Margot Cooper doesn't do relationships. She tried and it blew up in her face, so she'll stick with casual hookups, thank you very much. But now her entire crew has found the one and she's beginning to feel like a fifth wheel. And then fate (the heartless bitch) intervenes. While touring a wedding venue with her engaged friends, Margot comes face-to-face with Olivia Grant—her childhood friend, her first love, her first... well, everything. It's been ten years, but the moment they lock eyes, Margot's cold, dead heart thumps in her chest. Olivia must be hallucinating. In the decade since she last saw Margot, her life hasn't gone exactly as planned. At almost thirty, she's been married... and divorced. However, a wedding

planner job in Seattle means a fresh start and a chance to follow her dreams. Never in a million years did she expect her important new client's Best Woman would be the one that got away. When a series of unfortunate events leaves Olivia without a place to stay, Margot offers up her spare room because she's a Very Good Person. Obviously. It has nothing to do with the fact that Olivia is as beautiful as ever and the sparks between them still make Margot tingle. As they spend time in close quarters, Margot starts to question her no-strings stance. Olivia is everything she's ever wanted, but Margot let her in once and it ended in disaster. Will history repeat itself or should she count her lucky stars that she gets a second chance with her first love?

Quitter Erica C. Barnett, 2021-07-06 Barnett's prose style is brassy and cleareyed, with echoes of Anne Lamott. --Beth Macy, The New York Times Book Review Emotionally devastating and self-aware, this cautionary tale about substance abuse is a worthy heir to Cat Marnell's *How to Murder Your Life*. --Publishers Weekly (starred review) A startlingly frank memoir of one woman's struggles with alcoholism and recovery, with essential new insights into addiction and treatment Erica C. Barnett had her first sip of alcohol when she was thirteen, and she quickly developed a taste for drinking to oblivion with her friends. In her late twenties, her addiction became inescapable. Volatile relationships, blackouts, and unsuccessful stints in detox defined her life, with the bottles she hid throughout her apartment and offices acting as both her tormentors and closest friends. By the time she was in her late thirties, Barnett had quit and relapsed again and again, but found herself far from rehabilitated. Rock bottom, Erica Barnett writes, is a lie. It is always possible, she learned, to go lower than your lowest point. She found that the terms other alcoholics used to describe the trajectory of their addiction--rock bottom and moment of clarity--and the mottos touted by Alcoholics Anonymous, such as let go and let God--didn't correspond to her experience and could actually be detrimental. With remarkably brave and vulnerable writing, Barnett expands on her personal story to confront the dire state of addiction in America, the rise of alcoholism in American women in the last century, and the lack of rehabilitation options available to addicts. At a time when opioid addiction is a national epidemic and one in twelve Americans suffers from alcohol abuse disorder, *Quitter* is indispensable reading for our age and an ultimately hopeful story of Barnett's own hard-fought path to sobriety.

Edge of the Map Johanna Garton, 2020-04-01 *Edge of the Map* is equal parts inspiring, dramatic, and heartbreaking. One of America's greatest high altitude mountaineers, Christine Boskoff was at the top of her career when she and her partner died in an avalanche in 2006. Charismatic, principled,

and humble, Boskoff was also a deeply loved role model to her climbing partners and the Sherpa community. *Edge of the Map* traces the sharp twists and turns in Boskoff's life, from her early years as a Lockheed engineer, through her first successes in the climbing world, to her purchase of Seattle-based Mountain Madness after owner and climber Scott Fischer died in the 1996 Everest disaster. Her life was one of constant achievement mixed with personal tragedy. The story follows Boskoff as she perseveres and moves on to even bigger peaks, earning acclaim as a world-class mountaineer, then later as she finds an alpine partnership with legendary Colorado climber Charlie Fowler.

White on White Aysegül Savas,2021-12-07 A marvelous (Lauren Groff) and gentle, mysterious and profound” (Marina Abramović) novel about a woman who has come undone. A student moves to the city to research Gothic nudes, renting an apartment from a painter, Agnes, who lives in another town with her husband. One day, Agnes arrives in the city and settles into the upstairs studio. In their meetings on the stairs, in the studio, at the corner

café, the kitchen at dawn, Agnes tells stories of her youth, her family, her marriage, and ideas for her art - which is always just about to be created. As the months pass, it becomes clear that Agnes might not have a place to return to. The student is increasingly aware of Agnes's disintegration. Her stories are frenetic; her art scattered and unfinished, white paint on a white canvas. What emerges is the menacing sense that every life is always at the edge of disaster, no matter its seeming stability. Alongside the research into human figures, the student is learning, from a cool distance, about the narrow divide between happiness and resentment, creativity and madness, contentment and chaos. White on White is a sharp exploration of empathy and cruelty, and the stunning discovery of what it means to be truly vulnerable, and laid bare.
