**Qur'an and Woman** Amina Wadud, 1999-06-10 Fourteen centuries of Islamic thought have produced a legacy of interpretive readings of the Qur'an written almost entirely by men. Now, with *Qur'an and Woman*, Amina Wadud provides a first interpretive reading by a woman, a reading which validates the female voice in the Qur'an and brings it out of the shadows. Muslim progressives have long argued that it is not the religion but patriarchal interpretation and implementation of the Qur'an that have kept women oppressed. For many, the way to reform is the reexamination and interpretation of religious texts. *Qur'an and Woman* contributes a gender inclusive reading to one of the most fundamental disciplines in Islamic thought, Qur'anic exegesis. Wadud breaks down specific texts and key words which have been used to limit women's public and private role, even to justify violence toward Muslim women, revealing that their original meaning and context defy such interpretations. What her analysis clarifies is the lack of gender bias, precedence, or prejudice in the essential language of the Qur'an. Despite much Qur'anic evidence about the significance of women, gender reform in Muslim society has been stubbornly resisted. Wadud's reading of the Qur'an confirms women's equality and constitutes legitimate grounds for contesting the unequal treatment that women have experienced historically and continue to experience legally in Muslim communities. The Qur'an does not prescribe one timeless and unchanging social structure for men and women, Wadud argues lucidly, affirming that the Qur'an holds greater possibilities for guiding human society to a more fulfilling and productive mutual collaboration between men and women than as yet attained by Muslims or non-Muslims.

*Quran U C K Thangal* (editor),

In Search of the Original Koran Mondher Sfar, 2010-09-09 Orthodox Muslims venerate the Koran as the sacred word of God, which they believe was orally revealed by dictation from the angel Gabriel to the prophet Muhammad. This fundamentalist attitude toward the Muslim holy book denies the possibility of error in the Koran - even though there are some fairly obvious self-contradictions, inconsistencies, and incoherent passages in the text. To justify the claim that the Koran is inerrant, the orthodox have simply pointed to centuries of hidebound tradition and the consensus view of conservative leaders who back up this interpretation. But does the very beginning of the Muslim tradition lend support to the orthodox view? In this fascinating study of the origins of Islam, historian Mondher Sfar reveals that there is no historical, or even theological, basis for the orthodox view that Muhammad or his earliest followers intended the Koran to be treated as the inviolable word of God. With great erudition and painstaking historical research, Sfar demonstrates that the Koran itself does not support the literalist claims of Muslim orthodoxy. Indeed, as he carefully points out, passages from Islam's sacred book clearly indicate that the revealed text should not be equated with the perfect text of the original celestial Koran, which was believed to exist only in heaven and to be fully known only by God. This early belief helps to explain why there were many variant texts of the Koran during Muhammad's lifetime and immediately thereafter, and also why this lack of consistency and the occasional revisions of earlier revelations seemed not to disturb his first disciples. They viewed the Koran as only an imperfect copy of the real heavenly original, a copy subject to the happenstances of Muhammad's life and to the human risks of its transmission. Only later, for reasons of social order and political power, did the first caliphs establish an orthodox policy, which turned Muhammad's revelations into the inerrant word of God, from which no deviation or dissent was permissible. This original historical exploration into the origins of Islam is also an important contribution to the growing movement for reform of Islam initiated by courageous Muslim thinkers convinced of the necessity of bringing Islam into the modern world. Mondher Sfar (Paris, France), a researcher in history and anthropology and the author of *The Koran, the Bible, and the Ancient Near East*, is also the founder and director of Sfar Editions publishing company.

*The Koran: A Very Short Introduction* Michael Cook, 2000-02-25 The Koran has constituted a remarkably strong core of identity and continuity for a

religious tradition that is now in its fifteenth century. This Very Short Introduction explores the significance of the Koran both in the modern world and in traditional Muslim culture. Michael Cook provides a lucid and direct account of the Koran as codex, as scripture, as liturgy, and as the embodiment of truth, and examines its means of formation and dissemination. He also discusses issues of interpretation for certain key verses, demonstrating that fecundity of the text for readers throughout the world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

A Two-Hour Koran Bill Warner,2010-12 The Koran In about the time it takes to watch a professional sports event, you can comprehend the Koran.

Since the Koran is famously known to be unreadable, how can this be? The Koran found in the bookstore is not the historical Koran of Mohammed. The original Koran was a story that unfolded as Mohammed's life situations changed. The bookstore Koran is arranged by length of chapter, not time. The bookstore Koran has no time, no Mohammed and no story. Therefore, it makes no sense. Using statistical methods to select the verses, the Two-Hour Koran has woven Mohammed's life back into the Koran itself. Now the verses have context and meaning. Everything is in the right order and the original story has been restored. Once you have read A Two-Hour Koran, you can pick up a bookstore Koran and understand what you are reading.

**Quran, Hadith and Islam** Dr. Rashad Khalifa,2010-12-31 After more than 12 years of computerized research of Quran, PHYSICAL EVIDENCE was discovered proving that Quran is indeed the infallible word of God. This discovery became very popular among the Muslim masses throughout the world, and summaries of the work were printed and distributed by the millions. My personal popularity soared along with this most exciting, and most humbling, discovery. The continued research then unveiled a startling fact; that the extremely popular Hadith & Sunna have nothing to do with the prophet Muhammad, and that adherence thereto represents flagrant disobedience of God and His final prophet (Quran 6:112 & 25:31). This finding contradicts the beliefs of Muslim masses everywhere. Consequently, my personal popularity, and even the popularity of the Quran's miracle, plunged to the point of endangering my life and reputation. As it turned out, telling the Muslims that Hadith & Sunna are Satanic inventions is the same as telling the Christians that Jesus is not the son of God. Since the recognition of Hadith & Sunna as Satanic innovations is supported by PHYSICAL EVIDENCE, all freethinking people will accept the findings reported in this book. For such people, the results include a totally new sense of salvation, and full awareness that the Muslim masses have fallen victim to Satan's schemes.

The Miraculous Language of the Qur'an: Evidence of Divine Origin Bassam Saeh,2015-01-12 This study illustrates why the language of the Qur'an is miraculous, unique, and evidence of divine authority. The author compares the language of the Qur'an with the language of pre-Islamic poetry, the Prophet's words (hadith), and the language of the Arabs both past and present, to demonstrate that although the Qur'an was revealed in Arabic it was at the same time an Arabic which was entirely new. Original and early Muslim audiences viewed this as miraculous and responded to the Qur'an's words, sounds, rhythms, etc. in a manner consistent with a deeper appreciation of its beauty and majesty which modern ears, trained by familiarity, and despite being surrounded by all manner of dictionaries and studies, are at a loss to capture. The author attempts to remove this veil and present the Qur'an to readers as if hearing it for the first time, to bring to life some of this wonder. In doing so he guides readers to appreciate the beauty of the Qur'an, to become more immersed in it, and to have a clearer understanding of its structure and flow. Devoting special attention to Surah Al Muddaththir, to underpin his analysis, Saeh thus brings the Revelation to life, to demonstrate that each surah has distinct features and characteristics that make it stand out uniquely within the design and sweep of the whole.

Translation of the Holy Quran in English Maulana Muhammad Ali,2013-12-25 The Quran, literally meaning the recitation, also romanised (Koran) is the central religious text of Islam, which Muslims believe to be a revelation from God (Arabic: Allah). It is widely regarded as the finest piece of literature in the Arabic language. Muslims consider the Quran to be the only book that has been protected by God from distortion or corruption. Quranic chapters are called suras and verses are called ayahs. Muslims believe that the Quran was verbally revealed from God to Muhammad through the angel Gabriel (Jibril), gradually over a period of approximately 23 years, beginning on 22 December 609 CE, when Muhammad (Peace be upon Him) was 40, and concluding in 632 CE, the year of his death. Shortly after Muhammad's death, the Quran was collected by his companions using written Quranic materials and everything that had been memorized of the Quran. Muslims regard the Quran as the most important miracle of Muhammad, the proof of his prophet hood and the culmination of a series of divine messages that started with the messages revealed to Adam and ended with Muhammad. The Quran assumes familiarity with major narratives recounted in the Jewish and Christian scriptures. It summarizes some, dwells at length on others and, in some cases, presents alternative accounts and interpretations of events. The Quran describes itself as a book of guidance. It sometimes offers detailed accounts of specific historical events, and it often emphasizes the moral significance of an event over its narrative sequence. The Quran is used along with the hadith to interpret sharia law. During prayers, the Quran is recited only in Arabic. Someone who has memorized the entire Quran is called a hafiz. Some Muslims read Quranic ayahs (verses) with elocution, which is often called tajweed. During the month of Ramadan, Muslims typically complete the recitation of the whole Quran during tarawih prayers. Inimitability of the Quran (or I'jaz) is the belief that no human speech can match the Quran in its content and form. The Quran is considered an inimitable miracle by Muslims, effective until the Day of Resurrection- and, thereby, the central proof granted to Muhammad in authentication of his prophetic status. The concept of inimitability originates in the Quran where in five different verses challenges opponents to produce something like the Quran: If men and sprites banded together to produce the like of this Quran they would never produce its like not though they backed one another (17:88). So the suggestion is that if there are doubts concerning the divine authorship of the Quran come forward and create something like it. From the ninth century, numerous works appeared which studied the Quran and examined its style and content. Medieval Muslim scholars including al-Jurjani (d. 1078CE) and al-Baqillani (d. 1013CE) have written treatises on the subject, discussed its various aspects, and used linguistic approaches to study the Quran. Others argue that the Quran contains noble ideas, has inner meanings, maintained its freshness through the ages and has caused great transformations in individual level and in the history. Some scholars state that the Quran contains scientific information that agrees with modern science. The doctrine of miraculousness of the Quran is further emphasized by Muhammad's illiteracy since the unlettered prophet could not have been suspected of composing the Quran.

**Glossary of the Quran** Aurang Zeb Azmi,2003 A Glossary of the Quran is a ready reckoner for those who are interested to know the spirit of the Quran but are discouraged by the lack of knowledge of the Arabic language. The author has compiled the most common words used in the Quran so that one is able to grasp the gist of the Quran without learning the intricacies of the Arabic language. The book will be an ideal tool for those who are interested in reading and understanding the Holy Quran.
