Pop City Youjeong Oh,2018-12-15 Pop City examines the use of Korean television dramas and K-pop music to promote urban and rural places in South Korea. Building on the phenomenon of Korean pop culture, Youjeong Oh argues that pop culture-featured place selling mediates two separate domains: political decentralization and the globalization of Korean popular culture. By analyzing the process of culture-featured place marketing, Pop City shows that urban spaces are produced and sold just like TV dramas and pop idols by promoting spectacular images rather than substantial physical and cultural qualities. Oh demonstrates how the speculative, image-based, and consumer-exploitive nature of popular culture shapes the commodification of urban space and ultimately argues that pop culture-mediated place promotion entails the domination of urban space by capital in more sophisticated and fetishized ways.

New Writing from Korea ,2008

Christmas in North Korea Adnan I. Qureshi,2020-07-06 The Democratic People’s Republic of Korea is perhaps one of the least-visited places in the world. Geopolitical issues have often denied historians and travelers an opportunity to fulfill their aspirations of visiting this nation. Perhaps the greatest loss is the lack of opportunity to get to know the 25 million people in North Korea as people with emotions, families, traditions, and most of all, a desire for friendship and hospitality. This book introduces the reader to some of these aspects through rarely seen photographs and descriptions acquired during the author’s own travels. The reader will learn about the skyscrapers in Pyongyang, the Koryo Museum, and what a Korean eleven-course meal, reserved for royalty, looks like.

The Secret Life of Chocolate Marcos Patchett,2020-04-16 The Secret Life of Chocolate is a book about chocolate. Not the sweet, mass-produced fatty confection most of us are familiar with, though. This is about old-school chocolate - pre-Colombian, Central American, bitter-spicy-foamy-intense-blow-your-socks-off chocolate. Chocolate beverages made with roasted beans, water, spices, and indigenous plants. The book delves into the ancient history of the human relationship with the cocoa bean tree, Theobroma cacao, dissects the pharmacological properties of chocolate to the fullest possible extent, and divulges the mythical and magical associations of human interactions with this incredible plant.

State, Society and Markets in North Korea Andrew Yeo,2021-11-04 Under Kim Jong-un, North Korea has experienced growing economic markets, an emerging 'nouveau riche,' and modest levels of urban development. To what extent is North Korean politics and society changing? How has the growth of markets transformed state-society relations? This Element evaluates the shifting relationship between state, society, and markets in a deeply authoritarian context. If the regime implements controlled economic measures, extracts rent, and subsumes the market economy into its ideology, the state will likely retain strong authoritarian control. Conversely, if it fails to incorporate markets into its legitimating message, as private actors build informal trust networks, share information, and collude with state bureaucrats, more fundamental changes in state-society relations are in order. By opening the 'black box' of North Korea, this Element reveals how the country manages to teeter forward, and where its domestic future may lie.

Korea's Place in the Sun: A Modern History (Updated Edition) Bruce Cumings,2005-09-17 Passionate, cantankerous, and fascinating. Rather like Korea itself.--Nicholas D. Kristof, New York Times Book Review Korea has endured a fractured, shattered twentieth century, and this updated edition brings Bruce Cumings's leading history of the modern era into the present. The small country, overshadowed in the imperial era, crammed against great powers during the Cold War, and divided and decimated by the Korean War, has recently seen the first real hints of reunification. But positive movements forward are tempered by frustrating steps backward. In the late 1990s South Korea survived its most severe economic crisis since the Korean War, forcing a successful restructuring of its political economy. Suffering through floods, droughts, and a famine that cost the lives of millions of people, North Korea has been labeled part of an axis of evil by the George W. Bush administration and has renewed its nuclear threats. On both sides Korea seems poised to continue its fractured existence on into the new century, with potential ramifications for the rest of the world.
