Translation's Forgotten History Heekyoung Cho, 2016 Through examination of the literary and cultural relations among Russia, Japan, and colonial Korea and through understanding of a shared sensibility and literary experience in East Asia, this book highlights translation as a radical and ineradicable part of the formation of modern national literature and begins to rethink the way modern literature developed in Korea and East Asia.--Provided by publisher.

Translation's Forgotten History Heekyoung Cho, 2020-05-11 Translation's Forgotten History investigates the meanings and functions that translation generated for modern national literatures during their formative period and reconsiders literature as part of a dynamic translational process of negotiating foreign values. By examining the triadic literary and cultural relations among Russia, Japan, and colonial Korea and revealing a shared sensibility and literary experience in East Asia (which referred to Russia as a significant other in the formation of its own modern literatures), this book highlights translation as a radical and ineradicable part—not merely a catalyst or complement—of the formation of modern national literature. Translation's Forgotten History thus rethinks the way modern literature developed in Korea and East Asia. While national canons are founded on amnesia regarding their process of formation, framing literature from the beginning as a process rather than an entity allows a more complex and accurate understanding of national literature formation in East Asia and may also provide a model for world literature today.

Literature and Film in Cold War South Korea Theodore Hughes, 2014-03-04 Korean writers and filmmakers crossed literary and visual cultures in multilayered ways under Japanese colonial rule (1910-1945). Taking advantage of new modes and media that emerged in the early twentieth century, these artists sought subtle strategies for representing the realities of colonialism and global modernity. Theodore Hughes begins by unpacking the relations among literature, film, and art in Korea's colonial period, paying particular attention to the emerging proletarian movement, literary modernism, nativism, and wartime mobilization. He then demonstrates how these developments informed the efforts of post-1945 writers and filmmakers as they confronted the aftershocks of colonialism and the formation of separate regimes in North and South Korea. Hughes puts neglected Korean literary texts, art, and film into conversation with studies on Japanese imperialism and Korea's colonial history. At the same time, he locates post-1945 South Korean cultural production within the transnational circulation of texts, ideas, and images that took place in the first three decades of the Cold War. The incorporation of the Korean Peninsula into the global Cold War order, Hughes argues, must be understood through the politics of the visual. In *Literature and Film in Cold War South Korea*, he identifies ways of seeing that are central to the organization of a postcolonial culture of division, authoritarianism, and modernization.

The Routledge Companion to Korean Literature Heekyoung Cho, 2022-03-15 The Routledge Companion to Korean Literature consists of 35 chapters written by leaders in the field, who explore significant topics and who have pioneered innovative approaches. The collection highlights the most dynamic current scholarship on Korean literature, presenting rigorous literary analysis, interdisciplinary methodologies, and transregional thinking so as to provide a valuable and inspiring resource for researchers and students alike. This Companion has particular significance as the most extensive collection to date of English-language articles on Korean literature; it both offers a thorough intellectual engagement with current scholarship and addresses a broad range of topics and time periods, from premodern to contemporary. It will contribute to an understanding of literature as part of a broad sociocultural process that aims to put the field into conversation with other fields of study in the humanities and social sciences. While presenting

rigorous and innovative academic research that will be useful to graduate students and researchers, the chapters in the collection are written to be accessible to the average upper-level undergraduate student and include only minimal use of academic jargon. In an effort to provide substantially helpful material for researching, teaching, and learning Korean literature, this Companion includes as an appendix an extensive list of English translations of Korean literature.

Soldiers on the Cultural Front Tatiana Gabroussenko, 2010-07-26 An understanding of contemporary North Korea's literature is virtually impossible without an investigation of its formative period, 1945-1960, which saw a gradual transformation from the initial Soviet era to a Korean version of national Stalinism. This turbulent epoch established a long-lasting framework for North Korean literature and set up an elaborate system of political control over literary matters, as well as over the people who served in this field. In 1946 Democratic People's Republic of Korea (DPRK) leader Kim Il Sung described the country's writers as soldiers on the cultural front, thus clearly defining what the nascent Communist regime expected from its intellectuals. As a result, many literary nonentities were rewarded with fame and success (often only to be relegated once again to obscurity within a few years) while many outstanding luminaries of the past were erased from the pages of official publications or even lost their lives. The Soviet cultural impact brought new tropes, artistic images, and rhetoric, which were quickly absorbed into the North Korean discourse. However, the cultural politics of the DPRK and the USSR revealed profound and irreconcilable disparities that were rooted in the different political conditions and traditions of each country. *Soldiers on the Cultural Front* presents the first consistent research on the early history of North Korea's literature and literary policy in Western scholarship. It traces the introduction and development of Soviet-organized conventions in North Korean literary propaganda and investigates why the romance with Moscow was destined to be short lived. It reconstructs the biographies and worldviews of major personalities who shaped North Korean literature and teases these historical figures out of popular scholarly myth and misconception. The book also investigates the specific forms of control over intellectuals and literary matters in North Korea. Considering the unique phenomenon of North Korean literary critique, the author analyzes the political campaigns and purges of 1947-1960 and investigates the role of North Korean critics as political executioners in these events. She draws on an impressive variety and number of sources—ranging from interviews with Korean and Soviet participants, public and family archives, and memoirs to original literary and critical texts—to present a balanced and eye-opening work that will benefit those interested in not only understanding North Korean literature and society, but also rethinking forms of socialist modernity elsewhere in the world.

Literary translation and appropriation : Korean intellectuals' reception on nineteenth-century Russian prose via Japan ; 1909 - 1927 Heekyoung Cho, 2010

The process of Korean intellectuals' reception of Russian literature was significantly affected by the mediation of Japanese language and culture. Due primarily to the colonial relationship between Japan and Korea, most Korean intellectuals' contact with Russian literature occurred through Japan. This study investigates patterns of linguistic mediation and cultural mediation, which were affected historically by the Russo-Japanese War, Russian-language education in Japan and Korea, higher education of Koreans in Japan, and the Japanese reception of Russian literature.

20th Century Korean Art 2022, Yöng-na Kim, 2005 In recent years the increase in interest in Asian art has led to a number of books being published about Japanese and Chinese artists. However, the exciting Korean scene is still largely undocumented. Now Kim YoungNa reveals Korean modern and contemporary artists to the West. Twentieth-Century Korean Art provides a comprehensive,

engaging survey that places emphasis on art historical narratives. It draws on primary sources and historical artefacts as well as on new interpretations of issues such as the identity of Korean art and the cultural ramifications of Japanese colonialism. Covering over one hundred year from the late 19th century through to the 1990s, the essays in this book examine how both external influences and wills-to-change within Korean society itself generated an artistic vitality against a shifting political, social, and cultural backdrop and how this necessarily involved East Asia at large and the West.

The Routledge Handbook of Korean Interpreting Riccardo Moratto, Hyang-Ok Lim, 2023-10-23 Professor Riccardo Moratto and Professor Hyang-Ok Lim bring together the most authoritative voices on Korean interpreting. The first graduate school of interpretation and translation was established in 1979 in South Korea. Since then, not only has the interpretation and translation market grown exponentially, but so too has research in translation studies. Though the major portion of research focuses on translation, interpretation has not only managed to hold its own, but interpretation studies in Korea have been a pioneer in this field in Asia. This handbook highlights the main interpretation research trends in South Korea today, including case studies of remote interpreting during the Covid-19 pandemic, Korean interpreting for conferences, events, and diplomacy, and research into educating interpreters effectively. An essential resource for researchers in Korean interpreting, this handbook will also be very valuable to those working with other East Asian languages.

Encyclopedia of the Novel Paul Schellinger, 2014-04-08 The Encyclopedia of the Novel is the first reference book that focuses on the development of the novel throughout the world. Entries on individual writers assess the place of that writer within the development of the novel form, explaining why and in exactly what ways that writer is important. Similarly, an entry on an individual novel discusses the importance of that novel not only form, analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre. A wide range of topic entries explore the history, criticism, theory, production, dissemination and reception of the novel. A very important component of the Encyclopedia of the Novel is its long surveys of development of the novel in various regions of the world.

Healing Historical Trauma in South Korean Film and Literature Chungmoo Choi, 2020-12-20 Through South Korean filmic and literary texts, this book explores affect and ethics in the healing of historical trauma, as alternatives to the measures of transitional justice in want of national unity. Historians and legal practitioners who deal with transitional justice agree that the relationship between historiography and justice seeking is contested: this book reckons with this question of how much truth-telling from a violent past will lead to healing, forgiving, forgetting and finally overcoming resentment. Nuanced interpretations of South Korean filmic and literary texts are featured, including Park Chan-wook's *Oldboy*, Bong Joon-ho's *Mother* and literary texts of Han Kang and Ch'oe Yun, whilst also engaging the ethical and political philosophy of Levinas, Hannah Arendt, and others. Also offered is new and extensive research into the hitherto hidden history of thousands of North Korean war orphans who were sent to Eastern European countries for care. Grappling with the evils of history, the films and novels examined herein find their ultimate themes in compassion, hospitality, humility and solidarity of the wounded. *Healing Historical Trauma in South Korean Film and Literature* will appeal to students and scholars of film, comparative literature, cultural studies and Korean studies

more broadly.

New Literature in Chinese Zhu Shoutong, 2017-03-07 This book systematically discusses the academic connotations of the concept of "Modern Chinese Literature", as well as its basic categories. The discipline founded upon this concept is influential both in China and throughout the world, and scholars engaged in teaching and research in this field number around ten thousand. The discipline was originally established in haste in an abnormal academic environment, and, with the passage of time, such derivative disciplines as "Contemporary Chinese Literature", "20th Century Chinese Literature", "the Literature of Taiwan, Hong Kong and Macau" and "World Chinese Literature" have appeared. This book argues that these fields should be united in the area of "New Literature in Chinese", because they have a shared language, culture and tradition. In today's multi-polar world, where Chinese literature is so diversified, such an approach is obviously helpful.
