Exploring Political and Gender Relations Valentina Marinescu, 2017-01-06 The present volume offers a contemporary, multicultural approach to the controversial relationship between politics, media and society. The contributors here analyse such links from a variety of different perspectives, and represent perspectives from various countries across Europe, Asia, North America and South America. Despite their geographical diversity, they manage to reach a common language in their studies, offering a re-positioning of the study of media, society and politics. The new perspectives offered by this volume will be of interest to any media studies scholar, because they bring to light new ideas, new methodologies and results that could be further developed. It allows readers to explore these unique insights, and to easily digest the content and acknowledge the impact of media on society and politics.

The Korean Neo-Confucianism of Yi T'oegye and Yi Yulgok Edward Y. J. Chung, 1995-07-20 This comparative study of Yi T'oegye (1501-1570) and Yi Yulgok (1536-1584), Korea's two most eminent Neo-Confucian thinkers, is a seminal work on the Four-Seven Debate, the most significant and controversial intellectual event in the Korean Confucian tradition. The Four-Seven thesis, a magnificent example of East Asian Confucian discourse at its best, remains each thinker's masterpiece, a compressed but integrated systemization of metaphysics, ethics, and spirituality. It addresses fascinating philosophical, moral, and psychological questions about the fundamental problem of feelings and emotions, as well as their implications for moral and spiritual self-transformation. This book is indispensable for those interested in Korean thought or intellectual history. It will enable specialists in Confucian studies to understand unique paradigms of Korean Neo-Confucianism. It will stimulate comparative philosophers or religionists and general humanists to consider Korean Neo-Confucianism seriously as a major resource for understanding East Asian philosophy and religion.

Incomplete Acquisition in Bilingualism Silvina A. Montrul, 2008-09-17 Age effects have played a particularly prominent role in some theoretical perspectives on second language acquisition. This book takes an entirely new perspective on this issue by re-examining these theories in light of the existence of apparently similar non-native outcomes in adult heritage speakers who, unlike adult second language learners, acquired two or more languages in childhood. Despite having been exposed to their family language early in life, many of these speakers never fully acquire, or later lose, aspects of their first language sometime in childhood. The book examines the structural characteristics of incomplete grammatical states and highlights how age of acquisition is related to the type of linguistic knowledge and behavior that emerges in L1 and L2 acquisition under different environmental circumstances. By underscoring age of acquisition as a unifying factor in the study of L2 acquisition and L1 attrition, it is claimed that just as there are age effects in L2 acquisition, there are also age effects, or even perhaps a critical period, in L1 attrition. The book covers adult L2 acquisition, attrition in adults and in children, and includes a comparison of adult heritage language speakers and second language learners.

Healing Historical Trauma in South Korean Film and Literature Chungmoo Choi, 2020-12-20 Through South Korean filmic and literary texts, this book explores affect and ethics in the healing of historical trauma, as alternatives to the measures of transitional justice in want of national unity. Historians and legal practitioners who deal with transitional justice agree that the relationship between historiography and justice seeking is contested: this book reckons with this question of how much truth-telling from a violent past will lead to healing, forgiving, forgetting and finally overcoming resentment. Nuanced interpretations of South Korean filmic and literary texts are featured, including Park Chan-wook's *Oldboy*, Bong Joon-ho's *Mother* and literary texts of Han Kang and Ch'oe Yun, whilst also engaging the ethical and political philosophy of Levinas, Hannah Arendt, and others. Also offered is new and extensive research into the hitherto hidden history of thousands of North Korean war orphans who were sent to Eastern European countries for

care. Grappling with the evils of history, the films and novels examined herein find their ultimate themes in compassion, hospitality, humility and solidarity of the wounded. *Healing Historical Trauma in South Korean Film and Literature* will appeal to students and scholars of film, comparative literature, cultural studies and Korean studies more broadly.

The Concise Dictionary of World Place Names John Everett-Heath, 2017-12-07 Every populated place, however small, has a name, and every name is chosen for a reason. This fascinating dictionary gives the history, meanings, and origin of an enormous range of country, region, island, city, and town names from across the world, as well as the name in the local language. It also includes key historical facts associated with many place names. Place-names are continually changing. New names are adopted for many different reasons such as invasion, revolution, and decolonization. This dictionary includes selected former names, and, where appropriate, some historical detail to explain the transition. The names of places often offer a real insight into the places themselves, revealing religious and cultural traditions, the migration of peoples, the ebb and flow of armies, the presence of explorers, local languages, industrial developments and topography. Superstition and legend can also play a part. All this fascinating detail is included in the *Concise Dictionary of World Place Names*. In addition to the entries themselves, the dictionary includes two appendices: a glossary of foreign word elements which appear in place names and their meanings, and a list of personalities and leaders from all over the world who have influenced the naming of places. Containing over 10,000 names, from Aachen to Zyrardów, this is a unique and fascinating guide for geographers, travellers, and all with an interest in current world affairs.

Christianity in Korea Robert E. Buswell, Jr., Timothy S. Lee, 2007-05-31 Despite the significance of Korea in world Christianity and the crucial role Christianity plays in contemporary Korean religious life, the tradition has been little studied in the West. Christianity in Korea seeks to fill this lacuna by providing a wide-ranging overview of the growth and development of Korean Christianity and the implications that development has had for Korean politics, interreligious dialogue, and gender and social issues. The volume begins with an accessibly written overview that traces in broad outline the history and development of Christianity on the peninsula. This is followed by chapters on broad themes, such as the survival of early Korean Catholics in a Neo-Confucian society, relations between Christian churches and colonial authorities during the Japanese occupation, premillennialism, and the theological significance of the division and prospective reunification of Korea. Others look in more detail at individuals and movements, including the story of the female martyr Kollumba Kang Wansuk; the influence of Presbyterianism on the renowned nationalist Ahn Changho; the sociopolitical and theological background of the Minjung Protestant Movement; and the success and challenges of Evangelical Protestantism in Korea. The book concludes with a discussion of how best to encourage a rapprochement between Buddhism and Christianity in Korea.
