**A Companion to Media Authorship** Jonathan Gray,Derek Johnson,2013-02-12 A Companion to Media Authorship “Gray and Johnson have brought together a stellar group of authors whose works deftly explicate the complexities of negotiating ‘authorship’ across a range of cultural production sites. This definitive collection is an important and long-overdue contribution to contemporary media studies.” Serra Tinic, author of *On Location: Canada’s Television Industry in a Global Market* “Wide-ranging and global, historical and contemporary, brimming with insights enlarging our understanding of media production and reception, this book is an important contribution to the study of authorship.” Michael Z. Newman, author of *Indie: An American Film Culture* While the idea of authorship has transcended the literary to play a meaningful role in the cultures of film, television, games, comics, and other emerging digital forms, our understanding of it is still too often limited to assumptions about solitary geniuses and individual creative expression. A Companion to Media Authorship is a ground-breaking collection that reframes media authorship as a question of culture in which authorship is as much a construction tied to authority and power as it is a constructive and creative force of its own. Gathering together the insights of leading media scholars and practitioners, 28 original chapters map the field of authorship in a cutting-edge, multi-perspective, and truly authoritative manner. The contributors develop new and innovative ways of thinking about the practices, attributions, and meanings of authorship. They situate and examine authorship within collaborative models of industrial production, socially networked media platforms, globally diverse traditions of creativity, complex consumption practices, and a host of institutional and social contexts. Together, the essays provide the definitive study on the subject by demonstrating that authorship is a field in which media culture can be transformed, revitalized, and reimaged.

**Dr. George** George Fischbeck,Randy Roach,2013-05-01 For twenty-three years, George Fischbeck was a schoolteacher in Albuquerque, and for the last thirteen of those years taught science on a public television station that was beamed all over New Mexico. He also served as a weatherman

on Albuquerque's top-rated TV newscast where he was so popular that the general manager of a competing station sent tapes of his weather forecasts to all the top ABC Network stations nationwide in hope that one would hire George and get him out of New Mexico. When KABC-TV in Los Angeles responded, it was the start of a love affair between Dr. George and the City of Angels that continues to this day. Not only has Fischbeck had a long career as an awardwinning journalist and educator, he has also helped raise millions of dollars for a variety of charitable causes. His story is all here, and the best part is what the fewest people know: the heartwarming memories of a family man.

*Deadly Conclusion* Robert Fisher, 2009-06-30 Following its failure to gain military dominance in World War II, Japan implemented a top secret contingency plan. This plan was aimed at world economic dominance. It utilized genetic engineering and industrial espionage as primary weapons. The implementation of the plan was a brilliant success. Japan had stolen industrial secrets from the best companies in the Western world. Once Japan's economy was well established, all traces of the plan had to be eliminated, including killing everyone with even the remotest knowledge of it. Four of the five founders were also killed leaving only the Emperor with full knowledge. Or so he thought! Years later an inadvertent publication revealed that one person with all this knowledge was still alive. Rob Campbell was believed to have been killed but unknown to the Emperor his life had been spared and he now lived with his wife and baby son in Hawaii. If details of this heinous plan were made public it could severely damage the entire Japanese economy and bring the downfall of the Emperor and his lineage. He would not allow this to happen. The Emperor sent a clandestine group of intelligent, highly trained assassins to find and eliminate the entire Campbell family. Fortunately for Rob, two allies came to his aid. Both had World War II espionage training. But would their combined capability be sufficient to overcome the Emperor's experienced assassins? There would be many more questions as the trail led from one side of the Pacific to the other. Many questions - but only one certainty. Many people would die before the quest reached a conclusion.
