*Sylloge Nummorum Graecorum. Czech Republic. Volume IV. The Luboš Král Collection. Egypt: Roman Provincial Coinage* Jiří Militký, Luboš

Král, 2021-01-01 Another volume of the Sylloge Nummorum Graecorum, Czech Republic project has been published by the National Museum in cooperation with the Czech Numismatic Society in the end of 2021. The catalogue presents the collection of Egyptian provincial coins, collected by ing. Luboš Král, a long-standing member of the Czech Numismatic Society. In total, 584 coins is represented in this volume including a small quantity of duplicates (always stuck from different dies). The core of the collection consists of Alexandrian issues; coins of the Egyptian nomes, which are quite rare, are represented by mere two specimens (nos. 583–584). The collection documents the coin production in Egypt from the time of Augustus till the end of the provincial mint in 295/6. The basic criteria for incorporation into the collection have been the quality and good state of preservation of the numismatic material allowing its further classification. The presence of coins of particular rulers reflects their occurrence on the numismatic market as well as different volume of mint production. It is most apparent in the case of coinage from Augustus to Caligula and later of Marcus Aurelius and especially Septimius Severus and Caracalla, showing considerable decline. The core of the collection (almost 65%) consists of 3rd century coins from Elagabal till the rulers of the first Tetrarchy. The collection illustrates also the restraint from multi denominational system consisting of tetradrachms and several bronze denominations. From the reign of Commodus on, only tetradrachms are present in this catalogue. Na konci roku 2021 vyšel další svazek edice Sylloge Nummorum Graecorum (Česká republika), jehož vydavatelem je Národní muzeum ve spolupráci s Českou numismatickou společností. Kniha zveřejňuje sbírku egyptských provinciálních mincí, shromážděnou dlouholetým členem ČNS ing. Lubošem Králem. V knize je prezentováno 584 ražeb, jen malém množství se zde vyskytují duplikáty stejného typu – vždy jde však o různá razidla. Jádrem souboru reprezentují alexandrijské ražby, egyptské nomy jsou zastoupeny pouze dvěma kusy (č. 583–584), neboť se na trhu vyskytují jen vzácně. Sbírkou se snaží dokumentovat vývoj mincovní produkce od Augusta až do zániku provinciální mincovny v roce 295/6. Základním kritériem pro ražby zařazené do souboru je jejich dobrá zachovalost umožňující přesné určení. Zastoupení panovníků ve sbírce odráží především četnost výskytu na trhu, ale zprostředkovaně i menší objemy mincovní produkce. Dobře zřetelné je to u mincí od Augusta do Caliguly, znovu pak za Marka Aurelia a především za Septimia Severa a Caracally, kdy je z hlediska známých typů zřetelný propad produkce. Jádrem kolekce (téměř 65 %) tvoří ražby z průběhu 3. století od Elagabala až k panovníkům první tetrarchie. Sbírkou rovněž dokumentuje ústup od více nominálového peněžního systému tvořeného tetradrachmy a několika bronzovými nominály – počínaje Commodem jsou zde zastoupeny již pouze tetradrachmy.

*Working Knowledge* Petr Král, 2008 In 100 brief and evanescent texts, Kral brings together, as Milan Kundera writes in his introduction, this strange and beautiful existential encyclopaedia of the everyday. Whether describing twilight, a toothpick or the act of going upstairs, his gaze is ingenuous, humble, and amazed. Kral forces us to look at them anew.

**In Search of the Essence of Place** Petr Kral,2012-07-24 Armed only with his poetic sensibility, Petr Král sets out to explore our relationship with the places that we inhabit, and with the apparently unremarkable everyday objects which often inform and enrich our lives. Král bears witness to Flaubert's observation that in order for something to become interesting, we simply have to look at it for a long time. He reveals, not only the inner life-the very essence-of mundane objects and places, but also simple yet profound truths about ourselves.

**Loving Venice** Petr Kral,2013-09-10 Petr Král's encounter with the city of Doges is a love-letter to a place that arouses strong and often contradictory emotions – but rarely indifference. His ethereal prose carries us through the floating city as if exploring the body of a familiar, yet inscrutable, lover: Even in the depths of her private, inner frisson, Venice is still open to the world's great perspectives, enticing them into her secret recesses and borne along by the touch of their breath. Král's passion for Venice enriches it as well as us, all the more so because – like all great loves – it appears to be forever on the point of dissolving. This is a portrait both intimate and universal, and elusive as the city herself. Pushkin Collection editions feature a spare, elegant series style and superior, durable components. The Collection is typeset in Monotype Baskerville, litho-printed on Munken Premium White Paper and notch-bound by the independently owned printer TJ International in Padstow. The covers, with French flaps, are printed on Colorplan Pristine White Paper. Both paper and cover board are acid-free and Forest Stewardship Council (FSC) certified.

But with space stations and ships exploding around them, it soon becomes clear someone is determined to make sure she and Kral never reach Crakair.
