House of Hollow Krystal Sutherland, 2022-03-01 A New York Times Bestseller! An Instant Indie Bestseller! A dark, twisty modern fairytale where three sisters discover they are not exactly all that they seem and evil things really do go bump in the night. Iris Hollow and her two older sisters are unquestionably strange. Ever since they disappeared on a suburban street in Scotland as children only to return a month later with no memory of what happened to them, odd, eerie occurrences seem to follow in their wake. And they're changing. First, their dark hair turned white. Then, their blue eyes slowly turned black. They have insatiable appetites yet never gain weight. People find them disturbingly intoxicating, unbearably beautiful, and inexplicably dangerous. But now, ten years later, seventeen-year-old Iris Hollow is doing all she can to fit in and graduate high school on time--something her two famously glamorous globe-trotting older sisters, Grey and Vivi, never managed to do. But when Grey goes missing without a trace, leaving behind bizarre clues as to what might have happened, Iris and Vivi are left to trace her last few days. They aren't the only ones looking for her though. As they brush against the supernatural they realize that the story they've been told about their past is unraveling and the world that returned them seemingly unharmed ten years ago, might just be calling them home.

Applying to American Universities and Colleges for Parents and Students Krystal Ann Flores, 2014 As more students engage the help of an education consultant when applying for colleges, how can students have an edge over their competition? Often times, students go about the application process on their own or seek the advice of an agency, many of which are led by individuals who have not personally experienced applying to and being accepted by elite American colleges. Regardless of a student's choice, this book provides students and parents with an in-depth, holistic view of American college applications. In a competitive applicant

market where it is increasingly difficult to gain acceptance into top universities, specific useful insights found in this book are necessary for students and parents who want to succeed. This book discusses successful and unsuccessful application trends and guides readers on how to avoid common mistakes. The author, who was accepted to 18 universities and graduated from Yale University, knows the entire application range. Having spent several years in China working with students on college applications, she has knowledge of both the Western and Asian systems that would help international applicants OCo particularly Asian students OCo in their endeavors.

**Facebook Nation** Newton Lee, 2014-10-16 Facebook's psychological experiments and Edward Snowden's NSA leaks epitomize a world of increasing information awareness in the social media ecosystem. With over a billion monthly active users, Facebook as a nation is overtaking China as the largest country in the world. President Barack Obama, in his 2011 State of the Union Address, called America "the nation of Edison and the Wright brothers" and "of Google and Facebook." U.S. Chief Information Officer Steven VanRoekel opines that America has become a "Facebook nation" that demands increased transparency and interactivity from the federal government. Ubiquitous social networks such as Facebook, Google+, Twitter, and YouTube are creating the technologies, infrastructures, and big data necessary for Total Information Awareness – a controversial surveillance program proposed by DARPA after the 9/11 attacks. NSA's secret PRISM program has reinvigorated WikiLeaks founder Julian Assange's accusation that "Facebook is the most appalling spying machine that has ever been invented." Facebook CEO Mark Zuckerberg once said, "We exist at the intersection of technology and social issues." This book offers discourse and practical advice on the privacy issue in the age of big data, business intelligence in social media, e-government and e-activism, as well as personal total information awareness. This expanded edition also includes

insights from Wikipedian Emily Temple-Wood and Facebook ROI experts Dennis Yu and Alex Houg.

**How We Fall Apart** Katie Zhao,2021-08-17 In a YA thriller that is Crazy Rich Asians meets One of Us is Lying, students at an elite prep school are forced to confront their secrets when their ex-best friend turns up dead. Nancy Luo is shocked when her former best friend, Jamie Ruan, top-ranked junior at Sinclair Prep, goes missing, and then is found dead. Nancy is even more shocked when word starts to spread that she and her friends--Krystal, Akil, and Alexander--are the prime suspects, thanks to the Proctor, someone anonymously incriminating them via the school's social media app. They all used to be Jamie's closest friends, and she knew each of their deepest, darkest secrets. Now, somehow the Proctor knows them, too. The four must uncover the true killer before The Proctor exposes more than they can bear and costs them more than they can afford, like Nancy's full scholarship. Soon, Nancy suspects that her friends may be keeping secrets from her, too. Katie Zhao's YA debut is an edge-of-your-seat drama set in the pressure-cooker world of academics and image at

Sinclair Prep, where the past threatens the future these teens have carefully crafted for themselves. *How We Fall Apart* is the irresistible, addicting, Asian-American recast of *Gossip Girl* that we've all been waiting for.
