Kuala Lumpur Street Names: A Guide to Their Meanings and Histories Mariana Isa, Maganjeet Kaur, 2015-09-15 Street names are a many-layered thing – crystallising various eras of history and celebrating multiple generations of people. As the federal capital of Malaysia, Kuala Lumpur's street names reflect its rich mix of cultures and its journey from colonial past to nationhood. This encyclopedic A-to-Z guide explains the meanings and origins of KL's street names – those named after notable persons, after prominent landmarks, after local flora and fauna, etc. Themed street names within a particular area are also identified, e.g. the cluster of streets in Taman Sri Bahtera named after traditional Malay boats. Of particular interest is the renaming of streets over the years, ranging from literal translations (e.g. "Church Road" becoming "Jalan Gereja"), to completely new names ("Parry Road" to "Jalan P Ramlee"). Drawing on extensive research into the National Archives, the authors present their wealth of findings in a concise and easy-to-read way that will engage readers of all levels.

The Commodification of Language John E. Petrovic, Bedrettin Yazan, 2021-04-16 This volume seeks to add to our understanding of how language is constructed in late capitalist societies. Exploring the conceptual and theoretical underpinnings of the so-called commodification of language and its relationship to the notion of linguistic capital, the authors examine recent research that offers implications for language policy and planning. Bringing together an international group of scholars, this collection includes chapters that address whether or not language can rightly be referred to as a commodity and, if so, under what circumstances. The different theoretical foundations of understanding language as a resource with exchange value - whether as commodity or capital - have practical implications for policy writ large. The implications of the commodification

of language in more empirical terms are explored, both in terms of how it affects language as well as language policy at more micro levels. This includes more specific policy arenas such as language in education policy or family language policies as well as the implications for individual identity construction and linguistic communities. With a conclusion written by leading scholar David Block, this is key reading for researchers and advanced students of critical sociolinguistics, language and economy, language and politics, language policy and linguistic anthropology within linguistics, applied linguistics, and language teacher education.

The book follows an American, Graydon, in his counter-espionage efforts against the occupying Japanese forces. Featuring many authentic details of the region and exciting action scenes as the hero infiltrates enemy territory, completes his missions and eludes capture, the book is based, in part, on author Ray Kauffman's own experiences with the

Office of Strategic Services (OSS) in Ceylon (Sri Lanka) during the war. The book's title refers to the quick movement of news and gossip in the tropics. Kauffman is also the author of Hurricane's Wake, an account of a round-the-world voyage in a 45-foot sailboat.
