Internet and Mobile Phone Addiction Olatz Lopez-

Fernandez,2019-03-07 Internet use-related addiction problems (e.g., Internet addiction, problem mobile phone use, problem gaming, and social networking) have been defined according to the same core element: the addictive symptomatology presented by individuals who excessively and problematically behave using the technology. Online activity is the most important factor in their lives, causing them the loss of control by stress and difficulties in managing at least one aspect of their daily life, affecting users' wellbeing and health. In 2018, Gaming Disorder was included as a mental disease in the 11th Revision of the International Classification of Diseases by the World Health Organization. In 2013, the American Psychiatric Association requested additional research on Internet Gaming Disorder. The papers contained in this e-Book provide unique and original perspectives on the concept, development, and early detection of the prevention of these health problems. They are diverse in the nature of the problems they deal with, methodologies, populations, cultures, and contain insights and a clear indication of the impact of individual, social, and environmental factors on Internet use-related addiction problems. The e-Book illustrates recent progress in the evolution of research, with great emphasis on gaming and smartphone problems, signaling areas in which research would be useful, even cross-culturally.

Kidney R K Raj,2014-02-11 Inder Jeet, a ragpicker in the slum of a landfill area of Ghazipur in Delhi, miraculously becomes an audience member in an international conference held in Montreal, Canada, after his unpublished research paper Orphan Nephrons Observation: Red Kidneys Are Blue to Green the Environment. Like kidneys in an animals body, they filter the

reusable items from waste to give back into the bloody money circulation system, where economic disparity and deprivation are to constitute their fate. Their lots, in an entire nation, contribute in sharing the responsibility with municipalities of Indian cities but only to go unnoticed. After the conference, he landed back in Delhi to end up with a new set of problems, where kids from his lot toil their lives in a scrap settlement in Jain Disposals in Ghazipur instead of being in schools. The organization Uttar Daani, involved in Ranchits organ donation for transplants, fails to provide the promised job to Jhihari because of his ill-fated cousin Niranjan. Niranjan murders a cop in order to rescue a poor rickshaw puller who wanted to have his meal before he could drop the cop to the next crossing on the highway. Eventualities with Niranjan bring turmoil in Inders life and jail for himself, where he gets a new motto in life from the mercenaries of Jail Raho Aandolan.

The Other Kuala Lumpur Yeoh Seng Guan, 2014-02-05 Kuala Lumpur, like many Southeast Asian cities, has changed very significantly in the last two or three decades - expanding its size, and 'modernising' and 'globalising' its built environment. For many people these changes represent 'progress' and 'development'. This book, however, focuses on the more marginalised residents of Kuala Lumpur. Among others, it

considers street hawkers and vendors, refugees, the urban poor, religious minorities and a sexuality rights group, and explores how their everyday lives have been adversely affected by these recent changes. The book shows how urban renewal, the law and ethno-religious nationalism can work against these groups in wanting to live and work in the capital city of Malaysia.

Urban Refugees and Digital Technology Charles Martin-Shields, 2024-04-16 Refugees and displaced people are increasingly moving to cities around the world, seeking out the social, economic, and political opportunity that urban areas provide. Against this backdrop digital technologies are fundamentally changing how refugees and displaced people engage with urban landscapes and economies where they settle.

Urban Refugees and Digital Technology draws on contemporary data gathered from refugee communities in Bogotá, Nairobi, and Kuala Lumpur to build a new theoretical understanding of how technological change influences the ways urban refugees contribute to the social, economic, and political networks in their cities of arrival. This data is presented against the broader history of technological change in urban areas since the start of industrialization, showing how displaced people across time have used technologized urban spaces to shape the societies where they settle. The case studies and history demonstrate how refugees' interactions with environments that are often hostile to their presence spur novel adaptations to idiosyncratic features of a city's technological landscape. A wide-ranging study across histories and geographies of urban displacement, *Urban Refugees and Digital Technology* introduces readers to the myriad ways technological change creates spaces for urban refugees to build rich political, social, and economic lives in cities.

The Complete Book on Cold Storage, Cold Chain & Warehouse 5th Edition Ajay Kumar Gupta, 2022-02-02 A cold storage facility preserves fruits and vegetables for a longer period of time. Entrepreneurs and MSMEs in the food and beverage industry are the most likely to choose this business. Cold Storage is a one-time investment industry with a significant initial outlay. In comparison to other small firms, however, the returns are higher and on a long-term basis. The overall average capacity utilisation in cold storage is 75%, indicating the cold chain business in India's long-term viability. Private companies own and run 92 percent of cold storage facilities in India. A cold storage warehouse can maintain your goods at the proper temperature for long periods of time. The term cold chain refers to the process of controlling the temperature of perishable goods from point of origin to final consumer in order to ensure quality and safety. The global Cold Storage Market is expected to grow at a CAGR of 14.10 percent. The global demand for processed foods, perishable

Mobile Learning in Higher Education in the Asia-Pacific Region Angela Murphy, Helen Farley, Laurel Evelyn Dyson, Hazel Jones, 2017-07-06 If mobile technologies are to be effectively used in education, how do we best implement sustainable mobile solutions for teaching and learning? The aim of this handbook is to support educators and policy makers who are investing in

innovations in digital education to develop effective and sustainable mobile learning solutions for higher education environments. Authors from sixteen countries across the Asia-Pacific region have collaborated to share their experiences with developing and implementing mobile learning initiatives. These projects focus on a variety of aspects of mobile learning innovation, from the trial adoption of existing social media platforms on mobile devices and the development of specialised applications or mobile learning systems, to the large-scale, interuniversity implementation of technologies and pedagogies to support mobile learning. Each chapter addresses challenges and solutions at one or more levels of mobile learning innovation within the education system, encompassing the student perspective, the educator perspective, technical processes, policies and organisational strategy, and leadership. The book also offers a unique perspective on the integration of mobile learning innovations within the educational, political and cultural environments of Asia-Pacific countries.
