A People Without a Country Gérard Chaliand,1993 The 16 million Kurds are the largest nation in the world with no state of their own. Their history is one of constant revolts and bloody repression, massacres, deportations and renewed insurrection. This classic collection of writings from Kurdish intellectuals and other internationally respected experts discusses the origins of Kurdish nationalism and analyzes their contemporary demand for autonomy in the aftermath of the Gulf crisis and the setting up of safe havens. It combines historical analysis of the Kurds under the Ottoman Empire with a thorough study of Kurdish life in all areas of Kurdistan - Turkey, Iran, Iraq, Syria and the former Soviet Union. Later sections cover recent Kurdish history, with the emphasis on the Iraqi Kurds and the Kurdish movement in Turkey. Also included is an assessment of

The Kurds and Kurdistan Lokman I. Meho,1997-06-25 As the Kurdish question becomes more prominent in Middle Eastern politics, it is attracting attention from the media, the academic community, and governmental and non-governmental organizations. Swamped with questions from the press and academic departments, students of Kurdish topics have needed a comprehensive bibliography on the Kurds. This book meets that need. An introductory essay provides users with general background information on the Kurds and Kurdistan. With over 800 entries, the annotated bibliography provides information on the most important works about the Kurds and Kurdistan published from World War II through 1996. Emphasizing recent titles, the book focuses on English-language scholarly works. Arranged in topical chapters, the book opens with a section on general works, then covers travel works, history and archaeology, politics, minorities and religion in Kurdistan, society, economy, language and education, literature and folklore, and culture and arts.

Iraqi Kurdistan Gareth R. V. Stansfield,2003-08-29 The Iraqi Kurds have enjoyed de facto statehood in the north of Iraq for over a decade but intra-Kurdish fighting, military incursions by Turkey and Iran and the constant threat posed by Saddam Hussein have plagued this 'democratic experiment'. In this book, Stansfield explores the development of the Kurdish political system since 1991. He examines the difficult and often violent relations between the two dominant powers, the Kurdistan Democratic Party (KDP) and the Patriotic Union of Kurdistan (PUK), and their relationship with the Kurdish Regional Government in order to understand the current state of Iraqi Kurdish politics and the operation of the state. This topical in-depth study identifies the main dynamics of Iraqi Kurdish politics, analyzes the record and potential of the 'Kurdish democratic experiment', and identifies the present and future Kurdish leaders.

History of the Present Kamal Mirawdeli,2019-01-09 History of the Present A nation that fails to read and record its truths, will be unable, whether as individuals or society, to enjoy freedom and live with dignity I have called this book History of the Present because they are readings of the present , of the pressing passing Now-s that make history, of tomorrow's' yesterdays, and yesterdays of tomorrow. They are written in the heat of the

events analysing backgrounds and context, seeing the event both as a process and part of the big picture. That is how a local event becomes a global one, and an apparent remote decision by an American President will have global repercussions for almost everyone in the modern globalised world and especially for countries and societies drawn to post 9/11 war on terror. Thus, viewing the current events from the standpoint of the people of Kurdistan, the articles and insights in this book will, I hope, allow you to live in history as it unfolds, with a strong moral principle guiding the mission and the vision: truth and nothing but naked truth.

Into Kurdistan Sheri Laizer, 1991-05 *Into Kurdistan* is a journey through the lives of a people without a country. Part travelogue and part political commentary, it portrays both the pride and the oppression of the Kurdish people. Sheri Laizer recounts the drama of a family living close to the border, hearing gunshots and wondering if a favoured son will make it home at night. She shares the companionship of Kurdish women in the mountains, washing in the melted snow. She captures the ambiguity of Kurdish intellectuals entwined in the cultural life of Turkey, a country which refuses to acknowledge the very existence of Kurdish identity. And she paints a vivid picture of the centuries of tradition behind the people who have given the Middle East some of its greatest heroes, from Saladin onwards. *Into Kurdistan* uncovers the recent atrocities in Iraq, and the systematic persecution suffered by the Kurds in Turkey. In a marvellous blend of political commentary, folktale and sympathetic observation, Sheri Laizer helps us understand the people behind the headlines.

Kurdistan: The Quest for Representation and Self-Determination Mr Lungthuiyang Riamei, 2017-08-15 Kurdistan, the name given to the Kurds' historical homeland, is a landlocked region that lies at the crossroads of Turkey, Syria, Iraq and Iran. After the fall of Ottoman Empire the Kurdish people were promised independence by the treaty of Sevres in 1920. The Kurds are known as a nation without borders and consider as a stateless people. Aftermath of the Arab Spring in 2010, Kurdistan has witnessed an increase in nationalism and a shift in geo-politics. The book examines the various models which could be acceptable solution to the Kurdish problem in West Asian region. It also evaluates the role of the Kurdish diaspora placing Kurdish issue in the international forum. The Kurdish Peshmerga and YPG militia maintains one of the strongest forces confronting against the ISIS in West Asian region.

The Jews of Kurdistan Erich Brauer, 1993 Following World War II, members of the sizable Jewish community in what had been Kurdistan, now part of Iraq, left their homeland and resettled in Palestine where they were quickly assimilated with the dominant Israeli-Jewish culture. *The Jews of Kurdistan* is a unique historical document in that it presents a picture of Kurdish Jewish life and culture prior to World War II. It is the only ethnological study of the Kurdish Jews ever written and provides a comprehensive look at their material culture, life cycles, religious practices, occupations, and relations with the Muslims. In his preface, Raphael Patai offers data he considers important for supplementing Brauer's book, and comments on the book's values and limitations fifty years after Brauer wrote it. Patai has included additional information elicited from Kurdish Jews in Jerusalem, verified quotations, and completed the bibliography.

Kurdistan on the Global Stage Diane E. King, 2013-12-31 Anthropologist Diane E. King has written about everyday life in the Kurdistan Region of Iraq, which covers much of the area long known as Iraqi Kurdistan. Following the overthrow of Saddam Hussein's Ba'thist Iraqi government by the United States and its allies in 2003, Kurdistan became a recognized part of the federal Iraqi system. The Region is now integrated through technology, media, and migration to the rest of the world. Focusing on household life in Kurdistan's towns and villages, King explores the ways that residents connect socially, particularly through patron-client relationships and as people belonging to gendered categories. She emphasizes that patrilineages (male ancestral lines) seem well adapted to the Middle Eastern modern stage and viceversa. The idea of patrilineal descent influences the meaning of refuge-seeking and migration as well as how identity and place are understood, how women and men interact, and how "politicking" is conducted. In the new Kurdistan, old values may be maintained, reformulated, or questioned. King offers a sensitive interpretation of the challenges resulting from the intersection of tradition with modernity. Honor killings still occur when males believe their female relatives have dishonored their families, and female genital cutting endures. Yet, this is a region where modern technology has spread and seemingly everyone has a mobile phone. Households may have a startling combination of illiterate older women and educated young women. New ideas about citizenship coexist with older forms of patronage. King is one of the very few scholars who conducted research in Iraq under extremely difficult conditions during the Saddam Hussein regime. How she was able to work in the midst of danger and in the wake of genocide is woven throughout the stories she tells. *Kurdistan on the Global Stage* serves as a lesson in field research as well as a valuable ethnography.

Youth Identity, Politics and Change in Contemporary Kurdistan Shivan Fazil, Bahar Baser, 2021-09-01 Today's youth are challenging the older political class around the world and are forming new political generations. Examples from South Africa and elsewhere where peace processes were deemed to be successful show signs of youth disapproval of the current post-conflict conditions. Moreover, the Arab Spring witnessed numerous youth movements emerge in authoritarian and illiberal contexts. This book was prepared in light of these discussions and aims to contribute

to these ongoing debates on youth politics by presenting the situation of youth in the Kurdistan Region of Iraq (KRI) as a case study. It will be the first book that specifically focuses on the Iraqi Kurdish youth and their political, social, and economic participation in Kurdistan. The contemporary history of the KRI is marked by conflict, war, and ethnic cleansing under Saddam Hussein and the tyranny of the Ba'ath regime, significantly affecting the political situation of the Kurds in the Middle East. Most of the recent academic literature has focused on the broader picture or, in other words, the macro politics of the Kurdish conundrum within Iraq and beyond. There is little scholarship about the Kurdish population and their socio-economic conditions after 2003, and almost none about the younger generation of Kurds who came of age during autonomous Kurdish rule. This is a generation that, unlike their forebears, has no direct memory of the decades-long campaigns of repression. Studying and examining the rise of this generation of Kurdish young millennials—"Generation 2000"—who came of age in the aftermath of the United States invasion of Iraq offers a unique approach to understand the dynamics in a region that underwent a substantial socio-political transformation after 2003 as well as the impact of these developments on the youth population. Pursuing different themes and lines of inquiry the contributors of the book analyze the challenges and opportunities for young men and women to fulfil their needs and desires, and contribute to the ongoing quest for nationhood and nation-building. In this book, our aim is to bring together a variety of perspectives from local and foreign academics who have been working on pressing issues in Kurdistan and beyond. The chapters focus on an array of themes, particularly including political participation, political situation and change, religiosity, and extremism. ... Taken together, the chapters provide us with an introduction to youth politics in Kurdistan. This book is just the first attempt to open academic and nonacademic debate on this subject at a time when protests around youth-related issues are becoming a more prevalent method of political engagement in the region. Our hope is that more research follows and supplements what has not been addressed in this book, especially through the introduction of first-hand youth perspectives to the core of this analysis and giving them a voice in nonviolent platforms.

Iraqi-Kurdistan. Does the Kurdistan Regional Government have a Foreign Policy? Hêvi Sari, 2014-09-30 Seminar paper from the year 2014 in the subject Politics - International Politics - Region: Near East, Near Orient, grade: 1,3, University of Hamburg, language: English, abstract: After the Iraq War in 2003 the Kurds in Iraq became more and more important for the region, and there has been a shift of their international recognition. Kurds are now, not only noticed as the victims of their hard history of oppression and misery by their occupiers, but are also noticed, as actors on their own, since the establishment of the Kurdistan Regional Government. The Question whether the KRG has a Foreign Policy or not has come up when the US diplomat Ricciardone neglected that there was a US Foreign Policy towards the Kurds. But after 2003 there has been a strong development in the KRG and its relations to other states. In order to answer the question about Foreign Policy, first it should be looked at how the term is generally understood: "Foreign policy [...] can be characterized as the sum of official external relations conducted by an independent actor (usually a state) in international relations" (Krieger 2001). When transferring this definition to the KRG, first one has to be aware, that the KRG is not legally a state on its own, but is a autonomous, federated state within the Iraqi state. The first Chapter of this work will therefore look at the structural conditions of the Kurdistan Region. Afterwards in order to understand how the KRG was established, it will be looked at the historical development of the KRG from 1992 onwards, and especially after the Iraq War in 2003. In the following chapters it will be concentrated on whether the KRG can , besides the structural and historical facts, de facto be understood as an independent actor and how it is recognised as such. Therefore it will be looked in dependence of Hinnebusch, at the role of Identity in the Politics of the Middle East and to what extent this shapes the development in the KRG. On the other hand it will be closer looked at the idea of Sovereignty in International Relations, considering that the general understanding of the term is difficult to use in the Middle East, and specifically in the Kurdistan Region. In a last step it will be looked at the external relations of the KRG, examining its relations to the US Government and Turkey, which both play a major role in the development of the region. [...]

The Future of Kurdistan Kerim Yildiz, 2012-01-15 During the United States military occupation of Iraq, the Kurdistan region was one of the few places in the country where insurgent violence was not a daily occurrence. However, as tension with the Iraqi central government increases over issues of security, oil and gas management, and the disputed territory of Kirkuk, and with Turkey and Iran continuing their cross border military operations, Kurdistan Iraq faces numerous challenges. The current context allows for a fresh look at the situation of the Kurds in Iraq. No longer subject to the cruel regime of Saddam Hussein, the Kurds are set to be important figures in the shaping of Iraq's future. The Future of Kurdistan: The Iraqi Dilemma focuses on how issues faced by Kurdistan Iraq today are being dealt with by both central government and international forces as well as on the

prospects for Kurdistan and Iraq's political, economic, and cultural future.

People Without a Country Abdul Rahman Ghassemlou, 1980

Agha, Shaikh and State Martin van Bruinessen, 1992 Exacerbated by the Gulf War, the plight of the Kurds is one of the most urgent problems facing the international community. This authoritative study of the Kurdish people provides a deep and varied insight into one of the largest primarily tribal communities in the world. It covers the collapse of the Ottoman Empire, the great Kurdish revolt against republican Turkey, the birth of Kurdish nationalism and the situation of the Kurdish people in Iraq, Turkey and Iran today. Van Bruinessen's work is already recognized as a key contribution to this subject. Tribe by tribe, he accounts for the evolution of power within Kurdish religious and other lineages, and shows how relations with the state have played a key constitutive role in the development of tribal structures. This is illustrated from contemporary Kurdish life, highlighting the complex interplay between traditional clan loyalties and their modern national equivalents. This book is essential to any Middle East collection. It has serious implications for the study of tribal life elsewhere, and it documents the history of what has until recently been a forgotten people.

The Kurds of Iraq Mahir A. Aziz, 2011-01-30 Over ninety years since their absorption into the modern Iraqi state, the Kurdish people of Iraq still remain an apparent anomaly in the modern world - a nation without a state. In 'The Kurds of Iraq', Mahir Aziz explores this incongruity, and asks the pertinent questions, who are the Kurds today? What is their relationship to the Iraqi state? How do they perceive themselves and their prospective political future? And in what way are they crucial for the stability of the Iraqi state? In the wake of the Gulf War of 1991 in the face of the Iraqi state, the Kurds endeavoured to create a de facto state and to concretise and stabilise the institutions that would enable this. 'The Kurds of Iraq' thus examines the creation, evolution and development of Kurdish nationalism despite the suppression of its political and cultural manifestations. Through extensive interviews in the field, Aziz assesses the impact of recent history on the complex process of identity formation amongst Kurdish students at three of the nation's leading universities. He provides an in depth examination of students' socio-economic backgrounds, and their thoughts on and experiences of what it means to be Kurdish in the modern Iraqi state, and the impact this has on their perception of their language, culture and religion. Aziz's invaluable and extensive field research furthermore serves as a point of departure for an investigation into the relationship between national identity and historical memory in Iraqi Kurdistan and beyond. He thus analyses wider issues of the intersection and interdependency of national, regional, ethnic, tribal and local identities. He thus constructs an intimate portrait of the Kurds of Iraq, which will provide an important insight for students and researchers of the Middle East and for those interested the important issues of nationalism and ethnic identity in the modern nation state, and the impact these issues have on the stability of Iraq itself.

Perspectives on Kurdistan's Economy and Society in Transition Serwan M.J. Baban, Alan Dilani, Almas Heshmati, 2014-10-16 The second scientific World Kurdish Congress was held in October 2012 at Hewler with the theme

of improving the quality of life, science and culture for progress in Kurdistan. The papers presented focused on various important aspects of culture, economy, education, health, industry and political science in Kurdistan. The objective of this conference was to create a network of academicians to exchange and develop knowledge and work together with the Kurdistan Regional Government on how to further enhance the progress within the Kurdish society. This volume is a collection of 26 studies presented at the Congress and includes an introduction by the editors and a summary report of the Congress. The topics presented here are diverse, covering several areas pertinent to the current Kurdish situation. The studies are divided into ten areas: namely, agriculture and rural development; diaspora; education and research; health and quality of life; industry; information technology and e-government; infrastructure and development; language; human rights; and politics. In the last part of the volume, the organization committee provides a compilation of recommendations from the Congress to the Kurdistan Regional Government.
