**Hindi Teacher For English Speaking People** Ratnakar Narale, 2009-01-01 Hindi is one of the world's main language, with over 650 million speakers in India, and millions more on every continent. There are many primers that teach children who can already speak Hindi-how to read and write their language. As the title Hindi Teacher for English Speaking People suggests, Dr. Ratnakar Narale has written this book with a different audience in mind: English speakers of all ages who want to learn Hindi from scratch. This audience includes many kinds of people: the inhabitants of non-Hindi-speaking parts of India; Canadians, Americans, and West Indians whose ancestors came from India, but whose first language is English. This logically arranged book is filled with virtually thousands of examples, and each dialogue is designed with the view of its practical value for the targeted people. Along the way, hundreds of new words and the frequent exercises let the student learn to speak and write Hindi sentences almost without much effort. This practical 'Teach Yourself'

manual closes with exercises in correcting faulty sentences, reading dialogues, telling the time, and writing letters. There are also useful lists of proverbs, synonyms and antonyms, and so on. Dr. Narale has been careful to draw most of the examples from words and concepts that are familiar to Westerners. This emphasizes that Hindi is a world language, and not merely an Indian one. Truly practical, comprehensive and easy to understand reference manual for classroom study to learn Hindi.

**What Rosetta Stone Hindi Won't Tell You - Learn That Language Now** Robertson Kunz, 2012-12-24 Want to learn the quickest, easiest and most efficient way to learn a language to fluency? Don't waste any more time and money with classes,

textbooks, audio courses, computer programs and other materials until you have read this. Coming from 10 years of experience and having already shown thousands of language learners the right way to learn languages... Read on to learn the secrets they don't give you in class. Life is good for me. I am fluent in several languages and conversational in many more. I have friends I speak to on a daily basis who don't speak a word of English. My language ability has opened career doors and made immediate friends out of strangers. Better yet, I receive enjoyment out of using my languages daily in meeting people, watching movies and reading my favorite books. How was I able to learn a foreign language so fluently in such a short period of time? Let me give you a hint: it's not because I'm a genius, spend 10 hours a day studying or have some gift for learning languages. It's because I developed a METHOD that will allow you to IMMEDIATELY: Learn new words and phrases quicker than you ever have before and not worry about forgetting them! Speak without a single error. Natives will be scratching their heads wondering why you speak so much better than the other foreigners. Be able to study the language without getting bored ever! No more painful language learning. Become fluent quicker than anyone you know. I'm sure you know of people who have studied a language for a couple or more years. Now you can be fluent well within that time. Surprisingly, the best, easiest and quickest way to learn a language is not written in those textbooks, audio programs, computer programs or other materials. In fact, most of the time, they advocate a painful, hard way to get to fluency. What I've learned in the past 10 years is, it doesn't have to be painful or long! This isn't to say those materials are completely useless but if you want to gain from them as quickly and efficiently as possible, you need to incorporate them into a larger plan. I wrote this book to stop others from making the same mistakes I did when I started to learn languages. I wrote it to show the fastest, quickest and most efficient way to learn languages so that you

don't waste a single minute or dollar. I've read a lot of material about language learning and used a lot of different methods. I've discovered what works and what doesn't. Everything I've written in my book is the tips, secrets and method that I've found to actually work to get me to fluency in the shortest period of time. You won't find any ridiculous ideas here like subliminal learning while you sleep. Everything here has been tested by me from scratch and is from real world experience. I have personally invested 10 years and thousands of dollars on learning the best, most efficient way to learn languages. I wish that I could have been able to buy the knowledge and information presented in this book when I first started out. It could have saved me a lot of trouble, time and money. Many people spend thousands of dollars or more on audio programs, textbooks, classes and other language learning materials. What if this book saved you from wasting money on even one of those? If this book saved you even just one hundred hours of studying, what would that be worth to you? Probably a lot more than the cost of this book. A lot of people start out learning a language and then give up somewhere in the middle, never reaching fluency and wasting all the energy, time and money they spent getting somewhere in the middle. Make sure you are not one of those people and invest today to discover what really works and how you can get to fluency quickly and efficiently.
