Miniature Crafts and Their Makers Katrin Flechsig, 2022-07-12 Picture a throng of tiny devils and angels, or a marching band so small it can fit in the palm of your hand. In a Mixtec town in the Mexican state of Puebla, craftspeople have been weaving palm since before the Spanish Conquest, but over the past forty years that art has become more finely tuned and has won national acceptance in a market nostalgic for an authentic Indian past. In this book, Katrin Flechsig offers the first in-depth ethnographic and historical examination of the miniature palm craft industry, taking readers behind the scenes of craft production in order to explain how and why these folk arts have undergone miniaturization over the past several decades. In describing this Lilliputization of Mexico, she discusses the appeal of miniaturization, revealing how such factors as tourism and the construction of national identity have contributed to an ongoing demand for the tiny creations. She also contrasts the playfulness of the crafts with the often harsh economic and political realities of life in the community. Flechsig places the crafts of Chigmecatitlán within the contexts of manufacturing, local history, religion, design and technique, and selling. She tells how innovation is introduced into the craft, such as through the modification of foreign designs in response to market demands. She also offers insights into capitalist penetration of folk traditions, the marketing of folk arts, and economic changes in modern Mexico. And despite the fact that the designations

folk and Indian help create a romantic fiction surrounding the craft, Flechsig dispels common misperceptions of the simplicity of this folk art by revealing the complexities involved in its creation. More than thirty illustrations depict not only finished miniatures but also the artists and their milieu. Today miniatures serve not only the tourist market; middle-class Mexicans also collect miniatures to such an extent that it has been termed a national pastime. Flechsig's work opens up this miniature world and shows us the extent to which it has become a lasting and important facet of contemporary Mexican culture.

The Three Deaths of Cerro de San Pedro Daviken Studnicki-Gizbert, 2022-11-30 This is a history of precious-metals extractivism as lived in Cerro de San Pedro, a small gold- and silver-mining district in Mexico. Chronicling Cerro de San Pedro's operations from the time of the Spanish conquest to the present, Daviken Studnicki-Gizbert transcends standard narratives of boom and bust to envision a multicentury series of mining cycles, first operated under

Spanish rule, then by North American industry, and today in the post-NAFTA world of transnational capitalism. The depletion of a mine did not mark the end of its life, it turns out. Evolving technology accelerated the flow of matter and energy moving through the extractive systems of exhausted mines and revived profitability over and over again in Mexico's mining districts. Studnicki-Gizbert demonstrates how this serial reanimation of a non-renewable resource was catalyzed by capital and supported by state policy and ideology and how each new cycle imposed ever more harmful consequences on both laborers and natural ecologies. At the same time, however, miners and their communities pursued a contending vision—a moral ecology—that defended the healthy reproduction of life and land. This book's breathtakingly long view brings important perspective to environmental justice conflicts around extraction in Latin America today.

Freedom in the World 2008 Freedom House, 2008-09-05 Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and

form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

La Magia Del Camino Mark Tullett, 2013-01-10 En el año 2010, antes de cumplir cincuenta años, me impuse algunos compromisos personales. Uno de ellos fue el de recorrer el Camino Francés, que es uno de los caminos de peregrinación que conducen a Santiago de Compostela en España. Me acompañó en la aventura mi cuñada. En el Camino conocimos a personas excepcionales, pasamos por lugares increíblemente bellos y tuvimos la suerte de contemplar paisajes maravillosos, aparte de disfrutar de las experiencias más fascinantes de nuestra vida. Antes de empezar nos advirtieron que podrían sucedernos varias cosas: que el Camino en cualquier caso nos cambiaría, y que, o bien éste pasaría a ser parte de nosotros, o bien que nosotros pasaríamos a formar parte de él para siempre. La realidad es que,

efectivamente, la experiencia del Camino ha cambiado nuestra vida llegando a instalarse en lo más profundo de nuestra alma. La Magia del Camino es la historia de lo que nos aconteció a lo largo del Camino de Santiago.

The Great Food Robbery Genetic Resources Action International, 2012-05-17
Arguing that corporations are mainly responsible for the expansion of the damaging industrial food system, this discussion focuses on these organizations and the ways they organize and control food production and distribution. Demonstrating how the corporate food system destroys those systems based on local markets, local cultures, and biodiversity, this account highlights how it puts the profits of the few before the needs of people and leads to massive food safety incidents, environmental destruction, labor exploitation, and the decimation of rural communities. Informative and direct, this book aims to inspire individuals to actively take the food system back from corporations and put it in the hands of people.

Trading de la Acción del Precio TENDENCIAS Daniel Alfonso Rodríguez, 2022-09-22
Trading de la Acción del Precio TENDENCIAS es la traducción al español por el trader independiente Daniel Alfonso Rodríguez del libro Trading Price Action TRENDS de Al Brooks. Una guía práctica para beneficiarse de las tendencias del trading institucional. La clave para ser un trader exitoso es encontrar un sistema que funcione y apegarse al mismo. El autor Al Brooks ha hecho exactamente eso. Al simplificar su sistema de trading y operar solo gráficos de precios de 5 minutos, él ha encontrado una

manera de capturar beneficios independientemente de la dirección del mercado o la situación económica. Su primer libro, Reading Price Charts Bar by Bar, ofreció un análisis informativo de su sistema, pero este no le permitió profundizar en los detalles del enfoque. Ahora, con esta nueva serie de libros, Brooks lo lleva paso a paso a través de todo el proceso. Al desglosar su sistema de trading en sus partes más simples: el aprovechamiento de la tendencia institucional o trading de tendencias (tema de este libro en particular dentro de la serie), rangos de trading y transiciones o reversiones, esta serie de tres libros ofrece acceso a la exitosa metodología de Brooks. Trading de la Acción del Precio TENDENCIAS describe en detalle qué velas individuales y que combinaciones de velas pueden decirle a un trader lo que están haciendo las instituciones. Esto es crítico porque la clave para ganar dinero en el trading es aprovecharse de la tendencia de las instituciones y no podrá hacerlo a menos que entienda lo que los gráficos le dicen sobre sus comportamientos. Este libro le permitirá ver qué tipo de tendencia se está desarrollando, por lo que podrá usar técnicas específicas para ese tipo de tendencia y así colocar las operaciones correctas. Discute cómo beneficiarse de las tendencias del trading institucional usando el análisis técnico. Describe un enfoque de trading detallado y original desarrollado a lo largo de la exitosa carrera del autor como trader independiente. Otros libros de la serie incluyen Trading de la Acción del Precio RANGOS DE TRADING y Trading de la Acción del Precio REVERSIONES. Si

está buscando aprovechar al máximo su tiempo en los mercados actuales, el conocimiento sobre trading que se encuentra en Trading de la Acción del Precio TENDENCIAS le ayudará a lograr ese objetivo. ...Te estoy enseñando metafóricamente cómo tocar el violín. Todo lo que necesitas saber para ganarte la vida está en estos libros... Al Brooks

Causa de muerte: Cuestionar al poder Alejandra Ibarra, 2023-07-12 Con esta obra Alejandra Ibarra confirma que con la muerte de estos también activistas y defensores de los ciudadanos la libertad de expresión sufre una de las mayores vejaciones. México es uno de los lugares más peligrosos en el mundo para ejercer el periodismo. En nuestro país, a muchos periodistas ocupados en la cobertura de temas locales se les hostiga, amedrenta y asesina por tomar postura sobre las injusticias que revelan, por señalar el abuso del poder y por dar voz a las inquietudes de su comunidad. Alejandra Ibarra expone en este libro una verdad trágica que llena de dolor e indignación: a numerosos comunicadores en México no se les mata por censura, sino como una forma de castigo por incursionar en la participación política, por señalar la

impunidad y corruptelas de funcionarios, alcaldes o aspirantes a gobernadores, por invitar a los ciudadanos a tomar conciencia de los engaños de funcionarios públicos y de las atrocidades del crimen organizado. Y son estos periodistas, que no tienen la atención de los grandes medios de comunicación, a quienes nadie defiende ni se solidariza con su causa, quienes dan su vida por una sociedad mejor. El libro habla de mujeres que son emboscadas por expresar sus opiniones en radios comunitarias o ejecutadas por denunciar abusos de empresas; de reporteros que con sus propios medios y en diversas plataformas, que van del megáfono a Facebook, alertan de malos manejos de funcionarios o de alcaldes cegadas por el poder; de periodistas que expusieron las acciones del narco o las trampas de grupos políticos y todos, sin excepción, fueron liquidados por denunciar y exigir la justa rendición de cuentas.

South American Free Trade Area or Free Trade Area of the Americas? Mario Esteban Carranza, 2017-11-22 This title was first published in 2000: This work examines the hemispheric diplomacy after the Summits of the Americas in Miami (December 1994) and Santiago (April 1998), focusing on the strengthening of the South American position in the FTAA negotiations and the Brazilian proposal for a South American Free Trade Area (SAFTA). The book also looks at the implications of the preceding analysis for regional integration theory

and international relations theory. The conclusion looks beyond open regionalism and considers three scenarios for US-South American relations after the Santiago Summit. First reassertion of US hegemony and signing of an FTAA agreement on schedule, second, erosion of US hegemony but continuing negotiations between North and South America for a distant FTAA, and finally, breakdown of the FTAA negotiations and emergence of SAFTA as an alternative to the FTAA.

New Trends in Disruptive Technologies, Tech Ethics and Artificial Intelligence Daniel H. de la Iglesia,Juan F. de Paz Santana,Alfonso J. López Rivero,2023-07-21 This book offers the evidence-based insights into the ethical considerations surrounding disruptive technologies. In the rapidly evolving landscape of technology, where breakthroughs in artificial intelligence, big data, the Internet of Things, and bioinformatics have revolutionized our world, a critical need arises to reassess our ethical frameworks. This need has given birth to the thriving field of technology

ethics, or tech ethics, which has grown exponentially in recent years. Once a niche area of research, it now encompasses a multitude of technology experts dedicated to understanding the societal impact of these advancements and striving for the development of more ethically grounded technology. At the forefront of this movement stands the International Conference on Disruptive Technologies, Tech Ethics, and Artificial Intelligence (DITTET 2023). Serving as a paramount platform for scholars, professionals, and experts, this conference presents an unparalleled opportunity to explore the latest scientific and technical progress and its profound ethical implications. DITTET facilitates the exchange of cutting-edge research on disruptive technologies, fostering knowledge transfer and collaboration among interdisciplinary fields. DITTET 2023 aspires to bring together a diverse range of industry leaders, humanists, and academics, providing a comprehensive overview of the scientific advancements and applications of artificial intelligence while examining their ethical dimensions in areas such as climate change, politics, economy, and security. By delving into these crucial topics, the conference aims to unravel the intricate relationship between technology and ethics, paving the way for responsible and conscientious innovation in today's world.

Odio a Todo el Mundo Aran Maza, 2016-02-28 ¿Cómo es la vida de una de una auténtica perdedora?...Eva no tiene nada: ni amigos, ni perro, ni estudios, ni trabajo, además odia a sus padres y el pueblo donde vive. Más bien, odia a

todo el mundo. Su deseo mas profundo es ser abducida por los extraterrestres y dejar este planeta. Pero en su vida ocurre algo mejor: encuentra trabajo. No es el mejor trabajo del mundo, es de cajera en un supermercado. Pero algo es algo. Allí conocerá a unas personas tan frikis y losers como ella y también se enamorará por primera vez. Pero las cosas no siempre son como esperabas y la vida no es como una película romántica. Una historia llena de humor, tristeza, amistad, dolor... como la vida misma. Para mayores de 16 años.
