Los Angeles in Maps Glen Creason,2010-10-19 An illustrated cartographic history of the City of Angels from the colonial era to the present. Los Angeles inhabits a place of the mind as much as it does a physical geographic space. A land of palm trees and movie stars, sunshine and glamour, the city exists in the imagination as a paradise; of course, the reality is much bigger than this. Through seventy reproductions of seminal and historic documents, Los Angeles in Maps presents the evolution of this almost mythical place. Maps featured include historic Spanish explorers' charts from as early as 1791, as well as more recent topographic surveys, tourist guides, real estate maps, bird's-eye views, and more. Like the course of the Los Angeles River, the book winds through essential terrain: the discovery of oil, the rise of Hollywood, the streetcar system, Los Angeles Harbor, earthquakes, sprawl, and splendor.

The Movieland Directory ,2015-07-11 The Los Angeles area feels almost alive with movie history. It is impossible to walk down any neighborhood block that didn't play host to movie history on some level. From Chaplin walking Hollywood sidewalks in 1915 to the Three Stooges running down Culver City streets in 1930 to westerns filmed in the Valley in the 1950's, the area has been the background for thousands of films and home to millions of movie people. Historical documents, census records, movie studio and institutional archives, and personal writings have all been scoured in order to compile the most exhaustive and complete Hollywood address listing ever compiled.

Star Maps Nick Kanas,2019-08-20 Explore the beauty and awe of the heavens through the rich celestial prints and star atlases offered in this third edition book. The author traces the development of celestial cartography from ancient to modern times, describes the relationships between different star maps and atlases, and relates these notions to our changing ideas about humanity's place in the universe. Also covered in this book are more contemporary cosmological ideas, constellation representations, and cartographic advances. The text is enriched with 226 images (141 in color) from actual, antiquarian celestial books and atlases, each one with an explanation of unique astronomical and cartographic features. This never-before-available hardcover edition includes two new chapters on pictorial style maps and celestial images in art, as well over 50 new images. Additionally, the color plates are now incorporated directly into the text, providing readers with a vibrant, immersive look into the history of star maps.

How Far is America From Here? , 2005-01-01 How Far is America From Here? approaches American nations and cultures from a comparative and interdisciplinary perspective. It is very much at the heart of this comparative agenda that "America" be considered as a hemispheric and global matter. It discusses American identities relationally, whether the relations under discussion operate within the borders of the United States, throughout the Americas, and/or worldwide. The various articles here gathered interrogate the very notion of "America": which, whose America, when, why now, how? What is meant by "far"—distance, discursive formations, ideals and ideologies, foundational narratives, political conformities, aberrations, inconsistencies? Where is here—positionality, geographies, spatial compressions, hegemonic and subaltern loci, disciplinary formations, reflexes and reflexivities? These questions are addressed with regard to the multiple Americas within the USA and the bi-continental western hemisphere, as part of and beyond inter-American cultural relations, ethnicities across the national and cultural plurality of America, mutual constructions of North and South, borderlands, issues of migration and diaspora. The larger contexts of globalization and America's role within this process are also discussed, alongside issues of geographical exploration, capital expansion, integration, transculturalism, transnationalism and global flows, pre-Columbian and contemporary Native American cultures, the Atlantic slave trade, the environmental crisis, U.S. literature in relation to Canadian or Latin American literature, religious conflict both within the Americas and between the Americas and the rest of the world, with such issues as American Zionism, American exceptionalism, and the discourse of/on terror and terrorism.

Modernist Star Maps Aaron Jaffe, Jonathan Goldman, 2016-12-05 Bringing together Canadian, American, and British scholars, this volume explores the relationship between modernism and modern celebrity culture. In support of the collection's overriding thesis that modern celebrity and modernism are mutually determining phenomena, the contributors take on a range of transatlantic canonical and noncanonical figures, from the expected (Virginia Woolf and F. Scott Fitzgerald) to the surprising (Elvis and Hitler). Illuminating case studies are balanced by the volume's attentiveness to broader issues related to modernist aesthetics, as the contributors consider celebrity in relationship to identity, commodification, print culture, personality, visual cultures, and theatricality. As the first book to read modernism and celebrity in the context of the crises of individual agency occasioned by the

emergence of mass-mediated culture, Modernist Star Maps argues that the relationship between modernism and the popular is unthinkable without celebrity. Moreover, celebrity's strange evolution during the twentieth century is unimaginable without the intercession of modernism's system of cultural value. This innovative collection opens new avenues for understanding celebrity not only for modernist scholars but for critical theorists and cultural studies scholars.

Los Angeles, Or American Pharaohs Robin Wyatt Dunn, 2011-12-29 Robert, a 30-something independent filmmaker in Los Angeles, is hearing voices in his head. Alice Hershlug, a Jewish movie star who recently won the Academy Award, is slowly torturing him via The Grapevine, a kind of mental telephone. Hoovey Weinerschnitzel, a movie producer in New York City, is in love with his plastic telephone and blasé about his recent rape and imprisonment in his office closet of one of his former employees. The novel appears to be an Anti-Semitic rant, written by a lonely Jew who has apparently been accused of being a child molester. It cuts rapidly back and forth between the narrator's vitriolic prose poems which accuse American Jews and other plutocrats of ruining the country, the trials and tribulations of Robert as he navigates Hollywood and the mental health system, and the machinations of several Hollywood insiders as they stab each other in the back to rise to the top. The island of Manhattan turns into a sailing ship and blasts through the strait of Gibraltar on the way to visit Jerusalem, a psychiatric treatment facility gets possessed by some kind of evil demon named Cheeto, and Hoovey Weinerschnitzel abandons his religion to found an evil cult. Part political diatribe, part philosophical essay, part picaresque, the novel explores the implications of the new post-2008 U.S. economy on the human psyche, relations between Jew and Gentile, between American and Israeli Jews, between thought and reality, and tries to figure out where the hell America can go next.

Latino Image Makers in Hollywood Frank Javier Garcia Berumen, 2016-04-14 Latinos have been part of the Hollywood film industry for more than 100 years, yet beyond the remarkable success of a few, their visibility and clout have generally not reflected their significance in American society. Worse, the Latino image has suffered from widespread stereotyping in film, and performers face unjustified constraints in the kinds of roles available to them. Decade by decade from 1960 onward, this book analyzes important films made by or about Latinos, details the careers of Latino performers and filmmakers of the time, and analyzes how film portrayals of Latino characters and subjects connect with political and social trends of each decade. It discusses the role of gender, social class, and ethnicity in film portrayals and provides an overview of the diverse and dynamic Latino community in the United States, while celebrating a substantial and enduring contribution to Hollywood film history.

Border Bandits Camilla Fojas, 2009-06-03 The southern frontier is one of the most emotionally charged zones in the United States, second only to its historical predecessor and partner, the western frontier. Though they span many genres, border films share common themes, trace the mood swings of public policy, and shape our cultural agenda. In this examination, Camilla Fojas studies how major Hollywood films exploit the border between Mexico and the United States to tell a story about U.S. dominance in the American hemisphere. She charts the shift from the mythos of the open western frontier to that of the embattled southern frontier by offering in-depth analyses of particular border films, from post-World War II Westerns to drug-trafficking films to contemporary Latino/a cinema, within their historical and political contexts. Fojas argues that Hollywood border films do important social work by offering a cinematic space through which viewers can manage traumatic and undesirable histories and ultimately reaffirm core American values. At the same time, these border narratives delineate opposing values and ideas. Latino border films offer a critical vantage onto these topics; they challenge the presumptions of U.S. nationalism and subsequent cultural attitudes about immigrants and immigration, and often critically reconstruct their Hollywood kin. By analyzing films such as *Duel in the Sun*, *The Wild Bunch*, *El Norte*, *The Border*, *Traffic*, and *Brokeback Mountain*, Fojas demands that we reexamine the powerful mythology of the Hollywood borderlands. This

detailed scrutiny recognizes that these films are part of a national narrative comprised of many texts and symbols that create the myth of the United States as capital of the Americas.
