

La Regoria Casa Rural

Irene Marsha Silverblatt

The Invisible War David Tavarez, 2011-02-14 After the conquest of Mexico, colonial authorities attempted to enforce Christian beliefs among indigenous peoples—a project they envisioned as spiritual warfare. *The Invisible War* assesses this immense but dislocated project by examining all known efforts in Central Mexico to obliterate native devotions of Mesoamerican origin between the 1530s and the late eighteenth century. The author's innovative interpretation of these efforts is punctuated by three events: the creation of an Inquisition tribunal in Mexico in 1571; the native rebellion of Tehuantepec in 1660; and the emergence of eerily modern strategies for isolating idolaters, teaching Spanish to natives, and obtaining medical proof of sorcery from the 1720s onwards. Rather than depicting native devotions solely from the viewpoint of their colonial codifiers, this book rescues indigenous perspectives on their own beliefs. This is achieved by an analysis of previously unknown or rare ritual texts that circulated in secrecy in Nahua and Zapotec communities through an astute appropriation of European literacy. Tavárez contends that native responses gave rise to a colonial archipelago of faith in which local cosmologies merged insights from Mesoamerican and European beliefs. In the end, idolatry eradication inspired distinct reactions: while Nahua responses focused on epistemological dissent against Christianity, Zapotec strategies privileged confrontations in defense of native cosmologies.

Historia De Familias Cubanas Francisco Xavier De Santa Cruz Y Mallen, Conde de Jaruco, 1988-07-01 Edición encuadernada del último volumen publicado (9) de la Historia de Familias Cubanas

Porth's Pathophysiology Sheila Grossman, 2013-08-13 Featuring brilliant art, engaging new case studies, and dynamic new teaching and learning resources, this 9th edition of *Porth's Pathophysiology: Concepts of Altered Health States* is captivating, accessible, and student-friendly while retaining the

comprehensive, nursing-focused coverage that has made it a market leader. The book's unique emphasis on "concepts of altered health states, as opposed to factual descriptions of diseases and disorders, helps students grasp both the physical and psychological aspects of altered health. Drawing on the expertise of new co-author Sheila Grossman, the Ninth Edition maintains its comprehensive depth, while paring down content where appropriate and replacing descriptive content with striking art. (Approximately 600 illustrations are new or have been re-rendered in a consistent modern style.) Also new to this edition are advanced 3D narrated animations that address the most clinically relevant and difficult to understand disorders, engaging unit-opening case studies that reinforce critical thinking and set the tone for the content to come, and a wide range of built-in study tools. Now, for the first time, Porth's Pathophysiology is supported by PrepU, an adaptive learning system that help students learn more, while giving instructors the data they need to monitor each student's progress, strengths, and weaknesses.

Todos Santos in Rural Tlaxcala Hugo Gino Nutini, 2014-07-14
The cult of the dead, centered on Todos Santos, the All Saints Day-All Souls Day celebration, is one of the most important aspects of Mesoamerican Indian and mestizo religion. Focusing on rural Tlaxcala, in Mexico, Hugo Nutini presents a thorough description and analysis of the cult in its syncretic, structural, and expressive dimensions and describes its development from the original confrontation of pre-Hispanic polytheism and Spanish Catholicism, through colonial times, until the disintegration of the system of folk religions that is even now occurring. The discussion of the expressive component of the cult of the dead is a crucial contribution of the study. Professor Nutini shows that symbolism can be an adjunct to expressive studies, but not an end in itself. In addition, he postulates a theory that may serve as a model for studies of the combination and reconciliation of religious beliefs in other contexts. Emphasizing folk theology, teleology, and eschatology, rather than the mechanical and administrative components more frequently studied in works on Mesoamerican Indian and mestizo religions, he concludes that the local system is monolatrous, rather than monotheistic. Genealogical Fictions María Elena Martínez, 2008 *Genealogical Fictions* examines how the state, church, Inquisition, and other institutions in colonial Mexico used the Spanish notion of *limpieza de sangre* (purity of blood) over time and how the concept's enduring religious, genealogical, and gendered meanings came to shape the region's patriotic and racial ideologies.

Moon, Sun, and Witches Irene Marsha Silverblatt, 2021-07-13 When the Spanish arrived in Peru in 1532, men of the Inca Empire worshipped the Sun as Father and their dead kings as ancestor heroes, while women venerated the Moon and her daughters, the Inca queens, as founders of female dynasties. In the pre-Inca period such notions of parallel descent were expressions of complementarity between men and women. Examining the interplay between gender ideologies and political hierarchy, Irene Silverblatt shows how Inca rulers used their Sun and Moon traditions as methods of controlling women and the Andean peoples the Incas conquered. She then explores the process by which the Spaniards employed European male and female imageries to establish their own rule in Peru and to make new inroads on the power of native women, particularly poor peasant women. Harassed economically and abused sexually, Andean women fought back, earning in the process the Spaniards' condemnation as witches. Fresh from the European witch hunts

that damned women for susceptibility to heresy and diabolic influence, Spanish clerics were predisposed to charge politically disruptive poor women with witchcraft. Silverblatt shows that these very accusations provided women with an ideology of rebellion and a method for defending their culture.

See What the Cihuatl Saw Citlalli Anahuac,2019-08-08 My thesis demonstrates how Nahua women were active as represented in the archive and their agency reflects the authority of Nahua women as they appeared in the archive, a matter that traditional narratives of sixteenth-century Mexico have overlooked. My analysis includes an interdisciplinary approach in my study of various primary sources that range from the textual accounts Hernan Cortes, Diego Duran, Bernardino de Sahagun and indigenous accounts. I incorporate recent anthropological and archaeological studies that offer rich lenses on the indigenous past in ways that the discipline of History is unable to access. Such interdisciplinary methods help fill in the gaps in interpreting the archive - which are comprised of textual and visual sources -- about Nahua peoples in sixteenth-century Mexico. I argue that women's actions are present in the traditional repositories of so-called primary sources on which scholars studying the past rely -- archives, libraries, and research institutions. Despite their presence, their specific influence and power have not been

explored and incorporated into the overall narrative of indigenous perspectives, which I find still emphasizes male agency. I urge historians and scholars to recapture the missing stories of marginalized populations during encounters that have been shaped by the voices of powerful elites that represent both sides of the narrative. This project dares to imagine what the indigenous woman of the sixteenth century saw, experienced, and sought to bring about in textual and visual records, many created in the context of the Spanish invasion of Mexico. Recovering the lives of Nahua women will inspire and empower all of indigenous women today.
