Mojo Hand Timothy J. O'Brien, David Ensminger, 2013-04-02 In a career that took him from the cotton fields of East Texas to the concert stage at Carnegie Hall and beyond, Lightnin' Hopkins became one of America's greatest bluesmen, renowned for songs whose topics effortlessly ranged from his African American roots to space exploration, the Vietnam War, and lesbianism, performed in a unique, eccentric, and spontaneous style of guitar playing that inspired a whole generation of rock guitarists. Hopkins's music directly and indirectly influenced an

amazing range of artists, including Jimi Hendrix, Stevie Ray Vaughan, Miles Davis, John Coltrane, Tom Waits, and Bob Dylan, as well as bands such as the Grateful Dead, Jefferson Airplane, and ZZ Top, with whom Hopkins performed. *Mojo Hand* follows Lightin' Hopkins's life and music from the acoustic country blues that he began performing in childhood, through the rise of 1950s rock 'n' roll, which nearly derailed his career, to his reinvention and international success as a pioneer of electric folk blues from the 1960s to the 1980s. The authors draw on 130 vivid oral histories, as well as extensive archival and secondary sources, to provide the fullest account available of the development of Hopkins's music; his idiosyncratic business practices, such as shunning professional bookers, managers, and publicists; and his durable and indelible influence on modern roots, blues, rock 'n' roll, singer-songwriter, and folk music. *Mojo Hand* celebrates the spirit and style, intelligence and wit, and confounding musical mystique of a bluesman who shaped modern American music like no one else.

Beginning Java with WebSphere Robert W. Janson, 2013-11-26 *Beginning Java with WebSphere* provides a step-by-step guide for creating and installing both client- and server-based Java applications using Rapid Application Development v8, WebSphere Application Server 8.0, and Java. Since more and more Java applications are moving to the server and using HTML for the user interface, there is a minimal amount of time spent exploring the Java GUI components. More

specifically, this book covers graphical user interfaces using RAD's Visual Editor, variables, conditional logic, and application improvements/enhancements from the client side. And, from the server-side, this book covers servlets, JavaServer Pages (JSPs), database accessibility (JDBC), custom tags, and concludes with JavaServer Faces (JSFs). This book concentrate on base topics that allow you to get to the server-side and database topics quickly.

Bitten by the Blues Bruce Iglauer, Patrick A. Roberts, 2018-10-19 It started with the searing sound of a slide careening up the neck of an electric guitar. In 1970, twenty-three-year-old Bruce Iglauer walked into Florence's Lounge, in the heart of Chicago's South Side, and was overwhelmed by the joyous, raw Chicago blues of Hound Dog Taylor and the HouseRockers. A year later, Iglauer produced Hound Dog's debut album in eight hours and pressed a thousand copies, the most he could afford. From that one album grew Alligator Records, the largest independent blues record label in the world. *Bitten by the Blues* is Iglauer's memoir of a life immersed in the blues—and the business of the blues. No one person was present at the creation of more great contemporary blues music than Iglauer: he produced albums by Koko Taylor, Albert Collins, Professor Longhair, Johnny Winter, Lonnie Mack, Son Seals, Roy Buchanan, Shemekia Copeland, and many other major figures. In this book, Iglauer takes us behind the scenes, offering unforgettable stories of those charismatic musicians and classic sessions, delivering an intimate and unvarnished

look at what it's like to work with the greats of the blues. It's a vivid portrait of some of the extraordinary musicians and larger-than-life personalities who brought America's music to life in the clubs of Chicago's South and West Sides. *Bitten by the Blues* is also an expansive history of half a century of blues in Chicago and around the world, tracing the blues recording business through massive transitions, as a genre of music originally created by and for black southerners adapted to an influx of white fans and musicians and found a worldwide audience. Most of the smoky bars and packed clubs that fostered the Chicago blues scene have long since disappeared. But their soul lives on, and so does their sound. As real and audacious as the music that shaped it, *Bitten by the Blues* is a raucous journey through the world of Genuine Houserockin' Music.

Strange Sounds Timothy D Taylor, 2014-01-02 In *Strange Sounds*, Timothy D. Taylor explains the wonder and anxiety provoked by a technological revolution that began in the 1940s and gathers steam daily. Taylor discusses the cultural role of technology, its use in making music, and the inevitable concerns about authenticity that arise from electronic music. Informative and highly entertaining for both music fans and scholars, *Strange Sounds* is a provocative look at how we perform, listen to, and understand music today.

Carolina Beach Music Encyclopedia Rick Simmons, 2018-08-03 While rock groups such as the Beach Boys and Jan and Dean defined the beach music of Southern California during the 1960s, a different, R&B influenced sound could be heard

along South Carolina's Grand Strand. Drawing on extensive research and exclusive interviews, this richly illustrated reference work covers the music, songwriters and performers who contributed to the genre of classic Carolina beach music from 1940 to 1980. Detailed entries tell the stories behind nearly 500 classic recordings, with release dates, label information, chart performance and biographical background on more than 200 artists.

Doowop Robert Pruter, 1996 The Chicago Tribune's Bill Dahl praised Robert Pruter's Doowop for vividly describing an enchanting time on the local music scene, when a handful of teenagers could taste rock 'n' roll stardom with harmonies they cooked up on a street corner. Pruter foraged sources from fanzines to the Chicago Defender and conducted extensive interviews in cooking up Doowop, which chronicles the careers of such legendary 1950s groups as the Flamingos, the Moonglows, the Spaniels, and the El Dorados, along with virtually every other Chicago doowop group that contributed to that era.

Lollipop Lounge Genya Ravan, 2016-02-29 Few performers in the music industry today can claim the longevity and respect earned by Genya Ravan. Always a pioneer, Genya formed Goldie and the Gingerbreads in the early sixties, touring behind a string of European hits with the Stones, Kinks, Yardbirds and Hollies as the first all female rock and roll band. Later she resurfaced back in the US as the powerful voice of Ten Wheel Drive, one of the original horn jazz-fusion bands. In the seventies she expanded her repertoire becoming the world's first independent female producer, with critically acclaimed records by Ronnie Spector and the Dead Boys, Young Loud and Snotty, labeled the ultimate punk album by many reviewers. During the same period Hilly Krystal summoned Genya to head up CBGB Records In 2003 she received critical acclaim for her memoir, Lollipop Lounge one of the great tales of Rock and Roll survival. She also hosts two monthly radio shows for Little Steven's Underground Garage on Sirius/XM; Chicks and Broads in which she covers the often forgotten music of female artists from the 40's to the present, as well as Goldie's Garage in which she continues her long career of showcasing new and unsigned bands.
