Jim Henson Brian Jay Jones,2016-05-10 NEW YORK TIMES BESTSELLER • For the first time ever—a comprehensive biography of one of the twentieth century’s most innovative creative artists: the incomparable, irreplaceable Jim Henson He was a gentle dreamer whose genial bearded visage was recognized around the world, but most people got to know him only through the iconic characters born of his fertile imagination: Kermit the Frog, Bert and Ernie, Miss Piggy, Big Bird. The Muppets made Jim Henson a household name, but they were just part of his remarkable story. This extraordinary biography—written with the generous cooperation of the Henson family—covers the full arc of Henson’s all-too-brief life: from his childhood in Leland, Mississippi, through the years of burgeoning fame in America, to the decade of international celebrity that preceded his untimely death at age fifty-three. Drawing on hundreds of hours of new interviews with Henson’s family, friends, and closest collaborators, as well as unprecedented access to private family and company archives, Brian Jay Jones explores the creation of the Muppets, Henson’s contributions to Sesame Street and Saturday Night Live, and his nearly ten-year campaign to bring The Muppet Show to television. Jones provides the imaginative context for Henson’s non-Muppet projects, including the richly imagined worlds of *The Dark Crystal* and *Labyrinth*—as well as fascinating misfires like Henson’s dream of opening an inflatable psychedelic nightclub. An uncommonly intimate portrait, *Jim Henson* captures all the facets of this American original: the master craftsman who revolutionized the presentation of puppets on television, the savvy businessman whose dealmaking prowess won him a reputation as “the new Walt Disney,” and the creative team leader whose collaborative ethos earned him the undying loyalty of everyone who worked for him. Here also is insight into Henson’s intensely private personal life: his Christian Science upbringing, his love of fast cars and expensive art, and his weakness for women. Though an optimist by nature, Henson was haunted by the notion that he would not have time to do all the things he wanted to do in life—a fear that his heartbreaking final hours would prove all too well founded. An up-close look at the charmed life of a legend, *Jim Henson* gives the full measure to a man whose joyful genius transcended age, language, geography, and culture—and continues to beguile audiences worldwide. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BOOKPAGE “*Jim Henson* vibrantly delves into the magnificent man and his Muppet methods: It’s an absolute must-read!”—Neil Patrick Harris “An exhaustive work that is never exhausting, a credit both to Jones’s brisk style and to Henson’s exceptional life.”—The New York Times “[A] sweeping portrait that is a mix of humor, mirth and

poignancy.”—Washington Independent Review of Books “A meticulously researched tome chock-full of gems about the Muppets and the most thorough portrait of their creator ever crafted.”—Associated Press

The Way of the Labyrinth Helen Curry, 2000-10-01 The first time Helen Curry walked a labyrinth she was moved to tears and then was filled with peace and possibilities. Here, she shares her years of experience with labyrinth meditation and shows how others can find serenity and guidance by adopting this increasingly popular practice. Unlike mazes, which force choices and can create fear and confusion, labyrinths are designed to embrace and guide individuals through a calming, meditative walk on a single circular path. *The Way of the Labyrinth* includes meditations, prayers, questions for enhancing labyrinth walks, guidelines for ceremonies, instructions for finger meditations, and extensive resources. This enchanting, practical, and exquisitely packaged guide helps both novice and experienced readers enjoy the benefits of labyrinth meditation, from problem-solving to stress reduction to personal transformation. Includes a foreword by Jean Houston, the renowned author and leader in the field of humanistic psychology, who is considered the grandmother of the current labyrinth revival.

Cities and Metaphors Somaiyeh Falahat, 2018-04-19 Introducing a new concept of urban space, *Cities and Metaphors* encourages a theoretical realignment of how the city is experienced, thought and discussed. In the context of ‘Islamic city’ studies, relying on reasoning and rational thinking has reduced descriptive, vivid features of the urban space into a generic scientific framework. Phenomenological characteristics have consequently been ignored rather than integrated into theoretical components. The book argues that this results from a lack of appropriate conceptual vocabulary in our global body of scholarly literature. It challenges existing theories, introduces and applies the concept of Hezar-tu (‘a thousand insides’) to rethink the spaces in historic cores of Fez, Isfahan and Tunis. This tool constructs a staging post towards a different articulation of urban space based on spatial, physical, virtual, symbolic and social edges and thresholds; nodes of sociospatial relationships; zones of containment; state of intermediacy; and, thus, a logic of ambiguity rather than determinacy. Presenting alternative narrations of paths through sequential discovery of spaces, this book brings the sensual features of urban space into the focus. The book finally shows that concepts derived from local contexts enable us to tailor our methods and theoretical structures to the idiosyncrasies of each city while retaining the global commonalities of all. Hence, in broader terms, it contributes to a growing awareness that urban studies should be more inclusive by bringing the diverse global contexts of cities into the body of our urban knowledge.

The Five Senses Michel Serres, 2016-10-20 Marginalized by the scientific age the lessons of the senses have been overtaken by the dominance of language and the information revolution. With *The Five Senses* Serres traces a topology of human perception, writing against the Cartesian tradition and in praise of empiricism, he demonstrates repeatedly, and lyrically, the sterility of systems of knowledge divorced from bodily experience. The fragile empirical world, long resistant to our attempts to contain and catalog it, is disappearing beneath the relentless accumulations of late capitalist society and information technology. Data has replaced sensory pleasure, we are less interested in the taste of a fine wine than in the description on the

bottle's label. What are we, and what do we really know, when we have forgotten that our senses can describe a taste more accurately than language ever could? The book won the inaugural Prix Médicis Essai in 1985. The Revelations edition includes an introduction by Steven Connor.
