Suzanne Lacy Sharon Irish,Suzanne Lacy, Often controversial and sometimes even shocking to audiences, the work of California-based artist Suzanne Lacy has challenged viewers and participants with personal accounts of traumatic events, settings that require people to assume uncomfortable positions, multisensory productions that evoke emotional as well as intellectual responses, and even flayed lambs and beef kidneys. Lacy has experimented with ways to claim the power of mass media, to use women's consciousness-raising groups as a performance structure, and to connect her projects to lived experiences. The body and large groups of bodies are the locations for her lifelike art, revealing the aesthetics of relationships among people. In this critical examination of Suzanne Lacy, Sharon Irish surveys Lacy's art from 1972 to the present, demonstrating the pivotal roles that Lacy has had in public art, feminist theory, and community organizing. Lacy initially used her own body—or animal organs—to visually depict psychological states or social conditions in photographs, collages, and installations. In the late 1970s she turned to organizing large groups of people into art events—including her most famous work,The Crystal Quilt, a 1987 performance broadcast live on PBS and featuring hundreds of women in Minneapolis—and pioneered a new genre of public art. Irish investigates the spaces between art and life, self and other, and the body and physical structures in Lacy's multifaceted artistic projects, showing how throughout her influential career Lacy has created art that resists racism, promotes feminism, and explores challenging human relationships.

No. 8 Re-wired: 202 New Zealand Inventions That Changed the World David Downs,Jon Bridges,2014-09-24 If necessity is the mother of invention then Kiwi ingenuity is its father. No. 8 Re-wired is a comprehensive, colourful treasury of New Zealand inventions – jam-packed with the stories behind 202 home-grown creations and the crafty people who dreamt them up. From well-known innovations (human flight, the discovery of DNA, the pavlova) to lesser-known feats (instant coffee, the referee's whistle, the electronic petrol pump) to the newest in high-tech world-firsts (robots and jetpacks!), it is the most complete and entertaining book ever on Kiwi ingenuity. And, yes, the pav is definitely ours. A surprising and absorbing account of Kiwi can-do, and a celebration of the No. 8 wire spirit on which New Zealand is built, it's also a revealing look at how innovation can power us into the future. 'No. 8 Re-wired brilliantly celebrates New Zealanders' disrespect for the status quo.' –Sir Ray Avery

Painting a Picture of the Littrell Family Dana Hardin Camp,2014-04-08 The title of the book is a tribute to my Great Uncle, George William Littrell. He was such a special man, and he gave us a treasured gift. He wrote a song about his Mama and Daddy and his brothers and sisters, called Painting a Picture. I love this song, and when I listen to it I can see Lacy and Marie, and I can see their children which included my grandmother and my Great Uncle George. George painted a picture with song. And, this showed me there is more than one way to paint a picture. This book also contains a complete family tree ranging from 1600s to 1900s with sources.
